Interests Win Again...

Senate gave us the answer Wednesday night as to what to do if there was a political crisis on the horizon and they had to vote on lowering the average requirement for Student Association resident and Y2P President candidates. They surprised us again and voted it down.

We seriously hope that the average stipulation will be canceled as a college-wide, and that the college itself, and the individual voting for it, not to be a mark of requirement for the first few semesters at school.

However, like many of the Senators who voted negatively on this amendment, we feel it's rather a slant of the quality of students new to the college.

The 2.5 requirement is actually protecting any person who might have to run from participation in the academic standing at the college.

It's interesting to consider, nevertheless, that in order for a student to drop from a 2.5 to below 2.5, he would have to have taken six hours in 2.5. Since some of us take about 16 hours a semester, this would mean the person would be the last of his qualifications, which implies intelligence would be not suffering for a semester.

The obvious lack of candidates for these two offices makes us wonder if the college isn’t hindering rather than helping to get our government. We wish we could be as optimistic as some Senators who would like at least a longer trial period. But if the system does prove feasible, what happens to student affairs in the interim?

It is possible, we admit, that if you lower the average once, you’ll lower it on future occasions until you’ve reached where you started. Nevertheless previous BA Presidents have managed to keep academically solvent, and with questionable exception, since 1956, will call that much changed in an academic rating more than the rule.

Dinner For Two...

Where are the outstanding freshman, lest we mention the gay hoplopcorns? They certainly aren’t buying tickets to their respective banquets. In your past the freshman and Sophomore class flatters were something that was called innocuous and attended. Either the inclusion is affecting even college students or something has happened to the new class agent, that these classes have established in the past.

We’ve heard some people blame the poor cancellation of the two banquets on the fact that they weren’t pol’s included enough that there wasn’t enough “people” to force these people at all as there had been in past years. Hah! In those days, these freshmen and sophomore classes had to be housed before they could spend money on a class project.

We ask even mention the word “maturity.” Does it make us wonder through exasperation, does it just make us decide that popular people are caving this and has about close to whom and for all we’d like to have these win.

**Eye On The Canvas**

"Voyage" is featured in a color exhibition at Galleria 31, where it is studied further. Mr. Regan comments on the painting, which is a sketch of the artist's concern with renunciation and mastery of color, dominating this, as always. "Voyage" is another excellent rendition of the same scene for the show.

Some secret away to his plan. This, you see, was the reason why you had to get your own hands dirty with the art of painting. Mr. Martin Gilbert, U of Arkansas, expressed an opinion about the show, explaining that he had been dedicated to the painting of the show. Mr. Gilbert is also a member of the painting society, which recently mounted the show.
