By FRANK R. REYNOLDS

"The more I'm in the top ten, the more I'm in the top ten," said President Ike. "Ike proves his immense popularity, the democratic party said today, electing him to another term. The campaign was a resounding success, with Ike receiving more votes than any other candidate in the history of the democratic party. "Ike is truly the people's choice," said one supporter. "He represents everything that is good and true in American society."

Fraternities vs Individuality...
"No really brilliant student who is mature and psychologically whole can become a member of a fraternity. Fraternity nowadays, any more than he could join the Ku Klux Klan, is one of those clubs whose only requirement is the mailing of a cereal box top." This statement made by Glenn Wixon in an article last month in the American Weekly section of the Times Union. In Wilson's implied opinion individualism is the only true American feeling. No individual can fit in all the rows and columns of the individual. He accused members of being sham individualists.

After looking at the fraternity and society programs here at State we believe that Mr. Wilson writes under a gross misinterpretation. We do agree that majority has to overcome individual opinion but this is an accepted fact in all organizations. The Congress of the United States, for example, is made up of the majority of Congressmen. Each one of us can not be individually all the time. In order to get better accomplishments we must all cooperate in the same direction and act upon what the majority of people think to be best. If each one of us tried to remedy the situation by his own good or pleasure we must at times submit our individuality to group action.

By making the original decision we reap many benefits. We do gain what Mr. Wilson phrases "an aura of being together". We can exterminate loneliness. If we do not he will not be accepted by his peers. In a fraternal organization you not only gain a sense of reunion with your brothers but also learn to cooperate with members of other organizations and independents. Your fraternity adds as the organizing force and also makes an individuality loyalty to the group.

This spirit of loyalty is also a part of youth. We are national and need an outlet for this emotion and aggression. Fraternities and fraternities provide this outlet, it is much better for us to support a recognized group than a sub文化的 group.

Fraternities can also be a testing ground for social etiquette. It is here that students can find a super-studied evening of socially accepting one another. At teas and buffets students have an opportunity to meet the faculty and students.

We think that too often the loyalty to the group and unity of purpose is not too far from what the group they belong to. The negative opinions of these organized groups are overstated.

Fraternalism cutting began this week and social arrangements begin next week. Do not be afraid to join one of these organizations. They are not as uninteresting and minimized.

The Drawing Card...
Last Monday Music Council proved two points about public relations between Albany State and the residents of Albany. First of all it should be stated that we are not only doing our affairs and security it showed us the method to use. At the jazz concert one hundred and twenty tickets were sold and non-students. We feel that this was due to the fact that Music Council actually was the main sponsor of the popular program and that they published it well in the Albany area.

Music Council is to be congratulated for this performance. We think that other organizations can profit by following its example.

Soccermen Beaten By Panzer, Union As Victorious Year Ends

Senior Soccer Players Retire

The last shot has been taken and the ball is dead. The 1956 soccer season has come to an end. It was a year of drama, excitement, and disappointment. The season began with high hopes and ended with a feeling of sadness and regret.

The season started off with a bang as the soccermen defeated Union College, 3-0. However, the team struggled throughout the season, and a loss to Barnard in the semi-finals ended their hopes of the championship.

The last game of the season was against Barnard College. It was a tough game, but the soccermen played well and fought hard until the end. The final score was 2-0, and the team was left with a sense of heartbreak.

The season was filled with challenges and opportunities. The team had to overcome injuries, poor performances, and external pressures. However, they also had the chance to learn, grow, and develop as a team.

The soccermen will always be remembered for their dedication, hard work, and spirit. They have laid a solid foundation for the future of the soccer program. The team will be missed, but their legacy will live on.

Marilyn Leach '58 was appointed to the Board of Trustees of the American Association of Women College Students (AAWCS) to fill the unexpired term of Lucile A. Reinertson, who retired in 1956. Miss Leach is a native of South Dakota and a graduate of St. Olaf College, where she received her B.A. degree in 1952. She has served on the faculty of Dakota Wesleyan University since 1952 and is currently an associate professor of mathematics.

Russian Troops Silence Hungary's Freedom Bid

By JOSEPH KANGAS

The brave scene of Hungary's fight against the Communists has ended. Only a few stragglers still remain. The fighting has mostly been stopped. But although Russia has ended the fighting, the people of Hungary are not free yet.

The fighting began on October 23, when Russian troops entered Budapest. The Hungarian government requested that the Russians leave, but Russia did not. The fighting continued until November 5, when the Russian troops left.

The Hungarian government has been asking for help from the Soviet Union. They feel that they could have won their fight for freedom, if they had had more help.

The Hungarians feel that they could have won their fight for freedom, if they had had more help.

They have been fighting for months. But now, the Russians have come in and taken control of the country. The Hungarian government has asked for help from the Soviet Union, but they have not had any success.
