Dramatics Class to Present Play

On May 25th, the Dramatics Class will present an evening play by Barker and Humason, "The Yellow Jacket" of last year, and like it, is interpreted with incidental music, dancing and singing.

Presenting this type of play calls for exceptional ability and hard work. Already much has been done. All rights on the play have been secured from Wathen-Ains of the Little Theater, New York. It has been decided to present the comédie farce to New York—an adaptation of the 'Little Theatre' of the Little Theater, New York. It has been decided to present the comédie farce to New York stage settings and electrical apparatus necessary for the careful interpretation of the play have been promised the class by the manager of the Hartmans Bleecker Hall.

Everyone in the class has shown in the play. The leading roles will be taken by Mary Green, Mary Grady as Saramel, Elizabeth Osborne as Princess and Elizabeth Archbold as love. Miss Archbold has a unique part in that she is a living statue, and does not say one word throughout the entire play.

On May 18th the Albany High School auditorium, this play will be presented under Miss Kilroy's direction. Students will be admitted on their blanket tax tickets. The admission charge for outsiders has not yet been decided upon.

Junior Registration

All juniors should take note that the date set aside for presenting their trial registration forms is May 18th. This is the only means of preventing unnecessary trouble for the students and the faculty. Please be on time.

The students of State College extend sympathy to Miss Janet Brass in the loss of her mother, Mrs. Richard W. Brass.

Exhibition by Physical Education Department at State Armory

On Saturday evening, May 1, at eight o'clock, the gymnasium exhibition was held in the State Armory. It was in charge of Miss Bennett, Miss Card and Coach Clarke and was a decided success.

The first number consisted of marching to the students of the sophomore and freshman classes. This was followed by the singing of songs and a ward drill by the students who are majoring in physical education. The class in junior-advanced work was the bearskin and dancing class. The stage settings and electrical apparatus necessary for the careful interpretation of the play have been promised the class by the manager of the Hartmans Bleecker Hall.

Everyone in the class has some part in the play. The leading roles will be taken by Mary Green, Mary Grady as Saramel, Elizabeth Osborne as Princess and Elizabeth Archbold as love. Miss Archbold has a unique part in that she is a living statue, and does not say one word throughout the entire play.

State College News
Vol. XV
May 6, 1920

Published weekly, on Thursdays during the college year, by the Student State College News Company, for the benefit of the students, under the direction of the Faculty of Journalism, for the purpose of giving an opportunity for the full employment of the students' talent in editors and writers.

The subscription price is two dollars per annum, payable in advance. All pay refused for publication. The subscription price is two dollars per annum, payable in advance. All pay refusal is binding. The subscription price is two dollars per annum, payable in advance. All pay refusal is binding.

Articles, manuscripts, etc., must be submitted by the Tuesday preceding the Monday of the week of publication.

Editor-in-Chief, F. Reginald Brininstool, '21
Managing Editor, Florence Stansberry, '21
Business Manager, Edna Lawrence, '21
Subscription Manager, Helen Dansmore, '21
Assistant Business Manager, Ethel Hayley, '22
Associate Editors, Hope Persons, '22, Louise Persons, '22
Reporters, Vera Nolan, '23

In taking over the management of the "News" the new board of editors feels no little responsibility. We will have to work hard to keep up the fine standard which the "News" has set for itself. We have the best talent on the board and we want every student to help. In the new issue we will try to turn out a publication which will please you, our alumnae and our faculty, and to be a credit to State College.

ADIEU ANTICIPATORY

With this issue of the "News," the new board takes charge under the supervision and help of the old board and of the "News" editors of the 1920-21 board, with the best wishes of the "News" editors of the 1920-21 board for the new board's success to the new members and hope that they will work next year as much as we have. Let them work hard some time, and the criticism won't always be constructive. Next year the "News" is going to be a necessity for the students. The "News" and the spread of its use and report of its affairs have been great for so short a space of time. We hope that the coming year will bring no diminution of the good work and that the students and faculty will help these new members much and well in conducting our weekly publication. Many errors, some inevitable and some made through carelessness have been found, and we thank the faculty of the "News" for its help. Please extend the same to us, and we will do our best to help the new board.

HOOVER

If you should pass Herbert Hoover on the street you would recognize him at once. He is a distinctive man. He has none of the characteristics which commonly indicate that a man may be extraordin-
Greater X-ray Service—

through Research

FOR years after the discovery of X-rays it was evident that only intensive research could unfold their real possibilities.

Meanwhile, scientists of the General Electric Company developed the process of making wrought tungsten. This proved ideal as the target in X-ray tubes and for use for this purpose seems limitless universal.

Then further research resulted in the development of an X-ray tube of a radically new type—the Coolidge Tube—containing the highest attainable vacuum, but the complication of high-vacuum pumps made the new tube in large quantities impossible. The answer to this problem was the Langmuir Condensation Pump, utilizing mercury vapor in its operation and almost automatic.

To meet the need for simple X-ray apparatus during the war—the G-E Laboratory developed the Self-Rectifying Coolidge Tube, which made possible portable outfits at the front. The latest X-ray outfit of this type is so small it can be taken conveniently to the home or to the bedside in the hospital.

Thus the Research Laboratory of the General Electric Company continues to serve, that progress in things electrical may continue for the good of humanity.

Continued from Page 2

He favors universal physical training through extending the work of such organizations as the Boy Scout movement. He does not favor military training under the supervision of army officers. However, as well as General Wood and others of the candidates, stand for a budget system. His attitude toward socialism is sociologically sound. He regards it as an ‘American theory of despair caused by ease and economic wrong. Our social organization is entirely different from that of Europe, for we have a system of open classes which is the basis for equality of opportunity. We need not fear socialism. He has said: “My emphatic conclusion is that socialism as a philosophy of possible human application is hardly.

He favored the League of Nations, though his own conception of a league was far more simple than that of President Wilson.

We need a man of good common sense and fearlessness as the head of our nation for the next four years. We should be glad that Mr. Hoover will consider a nomination.

He is not looking for personal honor; he does not care for party politics—he still wants to serve. His motto may well have been: “Live pure, speak truth, right wrong, follow the king—Else, wherefore born!”

A friend of Hoover’s has said: “Hoover has succeeded because he would never touch an enterprise that did not appeal to his imagination as a great constructive job. He has always wanted to do things in a new way, and he won’t bother with anything else. And when he is set to solve such a problem, he invariably comes back with a plan that saves little men to death by its comprehensiveness and that devotes big men by its imaginative appeal and its sound constructive vision.” The United States has a great constructive job on its hands; it appeals to Mr. Hoover’s imagination. Let us give him the chance to work!”

Senior—“Have you heard the story of the street car conductor?”

Freshman—“Yes.”

Senior—“Well, it’s funny.”
