INTEREST IN BILLET DOUX

The Intercollegiate Honors Society has just launched its annual campaign to recruit new members for the fall semester. The society aims to enroll 150 new members in each chapter, and the annual total of new members should be at least 1000. The society has been in existence for 15 years, and its membership has grown steadily over the years. The new members will be selected from the top 10% of the senior class, and the society will provide a two-week induction program for them. The society's motto is "Serve with Honor," and it seeks to promote leadership, scholarship, and service among its members.

AID INTRANARURAL SPORTS

Intramural sports are becoming more popular on campus, and more students are participating in them. The intramural program is designed to provide a healthy and fun way for students to stay active and meet new people. It offers a variety of sports for students to choose from, including basketball, volleyball, soccer, and more. The program is open to all students, regardless of their athletic ability, and it provides a great way for students to get involved in campus life.

ARE YOU COMPETING?

The time has arrived when the conditions of the first semester must be met or exceeded in order to be rewarded. The first semester of the academic year is considered the most important, and students who fail to meet the standards of the first semester will not be given a high rank. The second semester is a time for students to prove themselves and show their improvement. The second semester also provides an opportunity to make up for any deficiencies in the first semester. Students who perform well in the second semester will be awarded a higher rank, and will be more likely to be selected for honors.
