Debate Gets a New Trial Through Faculty

Committer: We have been informed by the new place chosen for the debate between students and faculty. It appears that the new location is more suitable for the debate and that the audience will have a better view of the proceedings. The debate will take place at 7:30 PM in the Student Center.

Stateman: But the new location is quite a distance away from the old location. It is also more difficult to get to and there may be traffic problems. I believe that the old location was the better one.

Debate: The new location is closer to the campus and the audience will have a better view of the proceedings. The old location was too far away and the audience was not able to get to it.
