Budget Blues...  
Many students are complaining about the September special and the spending for the Student Union. The expenses have increased a remarkable amount of tuition.

Eating habits and meals have been bad enough, but guessing budget items with books and salaries received an extra big increase. The new charges are in the first classes, and many of us areI going to spend our time trying to figure out what we can do.

We envy those who care so little about money time, the Seniors will move right, and forget about the rest, mate question, ask it; if not, don't waste the assembly. We have a few people, however, to spoil everything.

contributed to last Friday's display is no doubt the Collegiate Chorale also under the direction of the physical education majors and featured a program of Latin-American music.

A large number of faculty members had the chance to see the Chorale perform. The performance was well received by the audience.

We are forewarned that we will not see the Chorale perform in the future.
