The NEWS referred to the report of librarians who
recently conducted a survey of the vari-
ables to determine whether the association derives
value. One is an organization that I have
supported. I refer to varsity baseball.

I am writing to call your attention to
something that I think is true. The game at the
same time. It is time for the Editors to bring
forth the views of the students. It is time for
us to see what they have to say. It is time to
listen to their voices. It is time to hear their
thoughts. It is time to consider their ideas. It is
time to respect their opinions. It is time to
recognize their contributions.

I am heartily in favor of your con-
tinuing the debt as a student supported enter-
preneur. It is possible for us to support athletics
on a budget as a student supported enterprise.
The teacher's opportunities for stabbing bigotry
are increased. To this objection I reply that
there will be many people, perhaps to this
extent.

The students have a right to ex-
pect definite return for such an ex-
nenditure. There is nothing more
true than this. The students have
a right to expect something in return
for their money. It is not fair to
expect from them to give without
expecting to receive. They have a
right to expect something in return
for their hard-earned money.

I believe that basketball is the only var-
sity sport. It is the only one that
has the potential for generating
revenue. It is the only one that
has the potential for bringing in
money. It is the only one that
has the potential for sustaining
the student body.

RADIO HAS PLACE IN TODAY'S SCHOOL, DECLARES ALUMNUS

Shillinglaw Tack Experiment With Use of Station WGO

Pupils Supplement Broadcasts in School Activities

"Radio has a distinct place in the school," said Mrs. Ethel Smith of Grosse Pointe, Michigan, where Mrs. Smith is a member of the faculty at the Grosse Pointe Academy.

In the classroom. "A radio set in the school enables the faculty to carry on the experiment through these agencies, making the nature of programs to be broadcasted and the time of their delivery points worth considering.

As an experiment along such lines for schools, the Grosse Pointe Academy is one of the few schools in the country that is carrying on an experiment of this nature. The experiment has been in operation for the past three years and the results have been very satisfactory.

"An endeavor is made to determine the number of listeners for the various broadcasts in the evening, the number of pupils listening to the programs, and the amount of listening to the programs by the pupils. A form is made out and signed by the teacher, indicating the names of the pupils who listen to the programs and the time of their listening. The results of this experiment have been very satisfactory, and the faculty is now considering the possibility of extending the experiment to other schools.

Music High in List

"The programs selected are of a musical nature, and the faculty believes that the radio "will soon vie with the textbook."

Shillinglaw believes that, with the development of the radio in the schools, there is a distinct place for music in the curriculum, and that the radio can be used to advantage in the teaching of music.

"Many metropolitan schools, situated near broadcasting centers, have already begun to receive a great deal of benefit from the radio. The experiment at the Grosse Pointe Academy is one of the few schools in the country that is carrying on an experiment of this nature, and the results have been very satisfactory."
RIVALRY WILL NOT CLEAN UP CAMPUS

Interclass System Isn't Good Says Junior Member Of Commission

"As far as I have observed, I would say that incessant rivalry is not a very good system for keeping the campus in order," Myrtle Kentfield, of the women's court committee, declared today in commenting upon the new rivalry system inaugurated by this year's commission.

Under the new plan, each member of the commission, acting as a representative of his class, performs the duties assigned to him in order to set the best record for his class. The "factory involved are too indefinite to stimulate the classes to competition," Miss Kentfield believes.

Since freshmen work under a senior chairman, and there is no specific division of the different classes, interclass rivalry seems to be practically nonexistent," she thinks.

"The students have been cooperating quite well, although a few of them have been operating the system to the rear of the office of the chairman," she added.

A thorough inspection of the mail box is made once a week by Miss Kentfield and Reba Nadler, both seniors. Inspection of the mail box is also intermittently made by all members of the commission.

The commission has general supervision, is keeping the campus in order. Members under a co-operative system, the chairman of one of the in-

ậu the table it's SKILL

JUDGE A TREE by its fruit. "The endless detail of ageing tobacco, blending and cross-blending, the standard Chesterfield method, is not what interests you. But its "first"—smokey, spicier aroma, true mildness with unspeakable tobacco's "taste"—is just the one thing that smokers say "loves it."
Albion, a delegate to the Republican convention held in New York in 1860 with a Russian company which subsequently played in East Side theaters. Nazimova rapidly mastered the English language, and a year later she appeared in an American Repertory which was successful. In 1897 she played opposite Walter Hampden in the United States edition of "The Commune." Nazimova later starred in the leading roles of the American Repertory company in New York, which is under the direction of Eva Le Gallienne, appearing in protest dramas, "The Berenks," "Cherry Orchard," and "Three Sisters.
