University intends to purchase SA audio visual equipment for $30,000; eyes on PAC shows

By Suzanne Murphy

University trustees have indicated that they intend to purchase Student Association's audio visual equipment for $30,000 at the end of the school year.

"The equipment will be used by the Department of the Arts and Fine Arts to augment the various activities and performing arts in the Performing Arts Center," Willmore said. "And it will be used by the UUA and Frank Ling." According to SA President Adrian Brooks, SA, which has been operating the equipment since 1975, will be able to pay for the equipment at a lower price, once the equipment is turned over to the university.

Additionally, an inventory check of all the AV equipment must be done for the University and the SA. "Let's be sure our AV equipment is not being used by the State," SA President Price K. Schonbruck said.

"The equipment is very likely to be used, but the University has no way of knowing its usage," said Schonbruck. The AV equipment, which has an estimated value of $85,000, is not yet set up at the SA's location. It is not clear why the SA has this equipment if it is not being used.

The SA's position is different. "The equipment was purchased by the SA to augment the performance of the performing arts program," said Schonbruck. "If the university is going to leave the equipment, it should be turned over to the SA."

Students boycott task force to protest fee plan

By Ian Clement

The student members of the SUNY Quality of Student Life Task Force will be asked to vote on the Athletic Fee proposal next month.

The SA's Intercollage Athletic Committee endorses the proposal "on the condition that the SA's negotiating committee work with the SA's Vice President for Campus Affairs and Task Force Vice President for Campus Affairs," Lees added.

This agenda included a move to Division I sports and the purchase of AV equipment, "If everything goes right, we'll have the AV equipment," said Lees. "But we're asking that we not bid," said Lees.

The SA's Intergroup Authorization Committee endorses the proposal "on the condition that the SA's negotiating committee work with the SA's Vice President for Campus Affairs and Task Force Vice President for Campus Affairs," Lees added.

New roof will stop water damage

By Gerry Silver

The new roof will not only fix the roof of the library, as the building sits down, and the suns shine across the library, but it will also solve the heat loss in the library, according to The Albany Student Press, which is a polling firm.

Fudgescow, also found in his survey that, 63 percent of SUNYA student's would be feasible for prospective merchants, especially with the discovery that the average SUNYA student had $253 to spend per month.

Larry Mersereau

SUNYA senior Larry Mersereau, who was interviewed for this survey, said, "I think he can live on less this (senior) year."
Role of women in Judaism, modern life explored

By Judissa Clancy

"Acts of service," a biblical command that gives women religious duties, has not been fulfilled by women in modern life, according to SUNYA Center "Wise" orientation day speaker John W. Alexander.

"There's a great deal of inroads that must be made," Alexander said. "Women in this country have contributed a great deal to mankind's welfare." The SUNYA Center provides career advice.

"Women in the 20th century have had to work on the same level as men in order to have higher salaries," he said. "Women today are being treated as equals." Alexander added that women have been "acquiring the roles that they were denied in the past." SUNYA Center provides career advice.

"There has been an increase in the number of women pursuing higher education," Alexander said. "Women are no longer being denied the opportunities to study and grow." SUNYA Center provides career advice.

Job market turnaround seen for 1984 graduates

"This year's college graduates can look forward to a favorable job market," SUNYA Center "Wise" orientation day speaker John W. Alexander said. "The job market is expected to improve significantly this year." SUNYA Center provides career advice.

"There are more openings for the graduating class of 1984," Alexander said. "Employers are more willing to hire recent graduates." SUNYA Center provides career advice.

"Employers are looking for recent graduates who have the skills and qualifications they need," Alexander said. "This year's graduates will have more opportunities than those of the past." SUNYA Center provides career advice.
**SASU launches campaign against drunken drivers**

By Phil Sarfuti

Deadline restrictions that show a decrease in alcohol related
accidents among 18 year old drivers since
the drinking age was raised to 21 is not true.
According to New York's Department of
Motor Vehicles, the number of alcohol related
accidents for 18 year old drivers during the
months of January and February was down 38%
from that of the same period the previous year.

The decrease in accidents was also reflected
in the number of alcohol related
involvements in accidents involving 18-year-old
drivers. According to the DMV, the number of
alcohol related accidents involving 18 year old
drivers was down 31% from that of the same
period the previous year.

This statistic, however, is not as conclusive
as it may appear. The number of alcohol related
accidents involving 18 year old drivers was down
22% during the same period the previous year.

The decrease in accidents is a result of a
number of factors, including
factors such as sobriety check points,
and stricter enforcement of laws against
drunk driving.

In addition, the number of alcohol related
accidents involving 18 year old drivers was down
25% from that of the same period the previous year.

Blue jeans and tolerance

Out and lesbian Albany's (GALA) "Blue Jeans" has won the top award for young adult fiction, and while some people may view this as a positive step forward, it is equally important to recognize the challenges and conflicts that continue to face the gay and lesbian community.

One of the most significant challenges is the ongoing battle for acceptance and understanding. Gay and lesbian individuals often face discrimination and prejudice, which can lead to feelings of isolation and a lack of community support. This is why organizations like GALA are so important, as they provide a safe space for people to come together and share their experiences.

Despite the progress made in recent years, there is still a long way to go in terms of achieving true equality and acceptance. It is important for us to continue to support these organizations and work towards a more tolerant and understanding society for all.
