Communications

At the time when President Sayles' message was being delivered to students, the first of the year, the students had been made aware of the fact that there have been several changes in the faculty of our school. The president had previously spoken of these changes, and the students were well aware that these changes were being made to improve the quality of instruction.

President Sayles spoke about the importance of a strong faculty. He said that the changes being made were necessary to improve the quality of education at the university. He emphasized the need for a strong faculty to provide the best possible education for students.

The students were grateful for the changes that had been made, and they were excited about the possibilities that these changes would bring. They were confident that the university would continue to improve and that they would be well-prepared for the future.
