ABERLEY STUDIES
ALBANY ACROSS THE OCEAN
by Claude McDonnell
ADP Feature

Those who seek the adventure that is limited to optics and downtown are sadly mistaken. There's another breed—Europe—and it's more easily accessible than you might think.

Foreign study can be one of the most challenging and rewarding experiences a high school student can have. It allows you to experience other cultures and learn about the possibilities of participating in such a program. They may not be right for everyone, but they can provide a pesos experience. Actually, you might want to consider them a possibility even for those who are not interested in foreign travel.

Cost, most frequently cited as a reason to dismiss the possibility of participating in such a program. They seem to think that it's too expensive or that they can't possibly afford it. However, there are many students who have managed to participate, and it is possible to have a budget. The key is planning ahead.

Transportation, the only other major expense, is quite manageable. Many students have been able to save money by carpooling or by staying with friends or family members who live in the area. Transportation costs can be greatly reduced by using public transportation, which is often cheaper than driving.

Housing costs are often cited as a reason to dismiss the possibility of participating in such a program. They seem to think that it's too expensive or that they can't possibly afford it. However, there are many students who have managed to participate, and it is possible to have a budget. The key is planning ahead.

One student, who chose to live in a foreign country for a semester, shared his experience. He said, "I was able to save a lot of money by staying with friends and family members who live in the area. Transportation costs can be greatly reduced by using public transportation, which is often cheaper than driving."

The benefits of foreign study are many. Students can learn about other cultures and ways of life, which can broaden their perspectives and help them become more open-minded. They can also improve their language skills, learn about different customs and traditions, and make new friends. Additionally, foreign study can be a great opportunity to travel and explore new places.

If you're interested in foreign study, I encourage you to talk to your guidance counselor or visit the Office of International Studies at SUNY. They can provide you with more information and help you plan your trip.

The sooner you start planning, the better. Many programs fill up quickly, so don't wait too long. Good luck and safe travels!

William Denzel, Assistant Dean in charge of International Studies
Everyone Society.

Brown, speaker will be meet on Tuesday, March 2 at 8:00 p.m. in Room keqa

Klopsy, the oldest, and achievement-prone but also had a real nice build, and they bought finished high school as valedictorian and was accepted by Harvard. We, the brewers of Miller High Life and the nj)tmmrn a/ thin I'olumn,

Mr. Glebe was, of course, very proud and happy. The following year was about. Proposed SA Constitution

"Democratic and Flexible"

by Vic Lesher

The writer, Vice-President of Student Affairs 1969-70, among the first draft of the proposed constitution, is currently President of Colby College in Waterville, Me.

The proposed Student Association Constitution is a flexible, working model. It is not inflexible, modular or separate units. It is a working representation, incorporating the flexibility. It is a working representation of the students. It also provides for memory, logical, executive, and financial units. It provides for a system that is substantially different from the present constitution.

The following is a list of the major changes divided into three sections: faculty, administration, and student.

Faculty

President and Vice-President. Essentially, some sections are eliminated by the Faculty Senate, a special, elected group. The Faculty Senate, when used properly, would be a major change. The Faculty Senate would be elected by the students, would have the power to elect the President and Vice-President, and would have the power to remove them at any time. The Faculty Senate would have the power to recommend candidates for the President and Vice-President, and would have the power to remove them at any time.

The new constitution would require that the President and Vice-President be elected by the Faculty Senate, and that the Faculty Senate would have the power to remove them at any time.

Administration

The new constitution would require that the President and Vice-President be elected by the Faculty Senate, and that the Faculty Senate would have the power to remove them at any time.

Student

The new constitution would require that the President and Vice-President be elected by the Faculty Senate, and that the Faculty Senate would have the power to remove them at any time.

the Albany Men's Track team almost scored an upset victory over a strong team from SUNY Buffalo in Buffalo; yet the final score was 180-170. They added another 1-2 finish in the backstroke to the already impressive 1-2 finish in the medley relay. Van Ryn and George Dempsey won the 200 meter fly with a new world record and added another 1-2 finish in the medley relay. Van Ryn and George Dempsey won the 200 meter fly with a new world record and added another 1-2 finish in the medley relay.

Women Finish 6-4

by Linda Mays

The Albany Women Basketball Tigers defeated Hobart Women's College 70-65, 1971, in the final regular season game with a record of 6-4. The Albany Women's Basketball team is the only team in the area to win all its games. The team is composed of five sophomores, three juniors, and one senior.

Pure Joy In A Celebration Of Life

by Bob Kendal

This weekend, Main Circle sponsored Celebrate, a musical show in honor of Isaac Hayes. The show was a celebration of the life, characterized by Isaac’s musical talent. The shows featured various performances by Isaac, including songs from his albums and live performances. The event was well-received by the audience, with many attendees expressing their appreciation for Isaac’s contributions to music. The show was a fitting tribute to the musician who has left a lasting impact on the music industry.

The Isaac Hayes Movement

by Stephen Anderson

As I wandered through the crowd, I was impressed by the energy and enthusiasm of the Isaac Hayes Movement. The performance highlighted the band’s focus on social justice and their commitment to bringing attention to important issues through music. The show was a powerful reminder of the role that music can play in promoting change and addressing societal challenges.

R & G Are Dead; Long Live R & G

by Mitchell Poole

Komev and Gildhammer's. On deck for the show are Fats Waller and Lewis: The Jazzmen, featuring Ray Charles and Sarah Vaughan. The program features an eclectic mix of jazz and pop music, with performances by some of the leading artists of the day.

Wanted: Contraceptives Privately

We believe you're entitled to your privacy when it comes to buying contraceptives. That's why we've taken steps to ensure a safe and discreet shopping experience. We offer a wide range of contraceptives, including birth control pills, condoms, and intrauterine devices, to help meet your needs and preferences. Whether you're looking for privacy or just need to buy contraceptives, we're here for you.

The Rock Pile

by Eric Kramer

COLEGOTHERIAK REVIVAL

11:45 AM

If the names are true and CREDIBILITY is still awaiting, I would be a suspect for the last couple of years. Yet, the attitude is the prevalent one. There are only a couple of students who have been listening to the former program. So much more has been played on radio than on television. It seems that the only chance to prove himself at lead guitar is to play the rhythm section. What can you say about it? You know that the only thing that matters is the rhythm section. Their albums in one sitting. There are some songs that would be included in a collection, but not "Nothing." I remember listening to the former program and being impressed by the rhythm section. There are some songs that were not played on radio, and they are wonderful. I hope that the rhythm section will be included in the new one as well.

Teleton '71

Teleton 71 was a successful event! The total amount contributed for the 21-hour program was about $2000. Best results of the show were made by the Bennett Band and Dr. Robert Bernard. The Bennett Band performed a variety of numbers, including popular hits and oldies, to entertain and inspire the audience.

Rolf Kirkland Jazz Concert

Tuesday, March 9th

10:15 PM

Fifteen students in attendance.

The Albany Student Press will not publish on Wednesday, March 2, 1971.

Studied in Guadalajara, Mexico

I am interested in the Mexican culture and language, and I was looking for a program that would allow me to immerse myself in the language and culture. The program at the University of Guadalajara was perfect for me. The classes were taught in Spanish, and the professors were very helpful and supportive. I would highly recommend this program to anyone who is interested in Mexican culture.

Job Picture Looks Glum for Graduates

Approximately 10,000 college seniors in the state are expected to graduate in the spring. In an effort to keep track of the job market, the SUNY's Placement Bureau has collected statistics on the job market for graduates. These statistics show that the job market for graduates is improving, but not dramatically. The job market for graduates is improving, but not dramatically.

Rambling Thoughts

The New York State legislature is in the process of having protective glass doors installed in the Senate Assembly Chamber. These doors are being installed as a result of recent events. The doors were installed to prevent any type of physical altercation between members of the legislature. The doors were installed to prevent any type of physical altercation between members of the legislature.

When two of our legislators were removed from the floor of a public hearing, the public was promised that the doors would be installed. When two of our legislators were removed from the floor of a public hearing, the public was promised that the doors would be installed.

The chancellor described the situation as significant and needs to be addressed. The chancellor described the situation as significant and needs to be addressed.
