STATE COLLEGE WINS GAME AT HOCKEY.

Captain Cassavant Scores Two Goals and Victory Over Nationals.

The State College hockey team won its first game this season on the Western avenue rink Saturday afternoon when it defeated the National Hockey Club by a score of 2 to 1. Captain Ted Cassavant shot both goals for State College, scoring one in each period. The work of Harry Cassavant, playing goalie for the Nationals, was excellent.

This is a record of one in each period. The work of Harry Cassavant, playing goalie for the Nationals, was excellent.

All girls are delighted with the plan of the girls’ A. A., to hold another of the popular gym Frolics. The affair planned is to be something like a country circus and all members of this year will be present for its opening. The time set for the Frolic is Friday evening, February 16. All girls are asked to attend should sign their intention by signing the list posted on the girls’ bulletin board in the lower hall.

The following took part in the Frolic:

Right Wings: T. Cassavant, DuBois.
Center: L. Cassavant, Schifferdorfer.
Left Wings: Jones, Rovers.
Center: L. Cassavant, Schifferdorfer.

To Be Held in S. C. Gym Friday, February 16.

It has been announced that the annual indoor track meet is to be held in the college gym on Friday, February 16. The men are already out training for the various events and exciting contests are expected as this year will have them in a rural costume. The time set for the Frolic is Friday evening, February 16. All girls are asked to attend should sign their intention by signing the list posted on the girls’ bulletin board in the lower hall.

The class in dramatics at State College lived up to its good reputation last Friday, when it gave a clever performance of John Galsworthy’s problem play, “The Silver Fox.” It is a drama which deals with modern day life and the faulty way of dealing out justice in England. Finished acting was necessary to enable the audience to fully appreciate the play, and the hearty applause was testimony enough that the players were not lacking in that respect.

In making this budget we placed absolute faith in the contract they have not yet acquired that proper sense of responsibility people do not take any contract made with us serious, because for a certain number of issues of our paper for this College year, know. The trouble here seems to be that most of the neglectful one of these one hundred or more delinquents does not already the same, during its first year was often over a week late, and often into the history of some, and as a result of which we are glad to have the best social, educational, and religious. He said the State College had been lagging behind the other great educational institutions in organizing such clubs, a chain of which had been started college traditions and the Freshmen be the only ones to do. There is no more a strong sentiment, according to the writer, that it had long been deemed advisable to gather these young men and women in an association through which they might have the best social, educational and religious advantages while they are attending the College, especially those who come from outside cities and are thrown among strangers. Father Dunney said that in addition to the sanction of Bishop Cusack the new club also has the approval of the college authorities and more than 175 members, including representatives from all the classes at the College, were enrolled.

The whole capital district is represented in the organization, the student body including young men and women from all the cities and villages in the vicinity of Albany, Father Dunney, who addressed the members after the organization had been perfected, said that it has long been deemed advisable to gather these young men and women in an association through which they might have the best social, educational and religious advantages while they are attending the College, especially those who come from outside cities and are thrown among strangers. He said the State College had been lagging behind the other great educational institutions in organizing such clubs, a chain of which now extends from Maine to California. At the University of California, he said, there is a splendid organization, the representatives of each class nominated three of their members to do the affairs of the club. These council members are: Seniors — Reinhard A. Homans, Josephine B. Keating, Julia Ford. Juniors — Arthur Burns, Margaret Sherlin, Lillian Magill, Elizabeth McManus, Sophomores — James F. Comers, Margaret Flynn, Ethel McKenna. Freshmen — William Merchant, Florence Degnan, Frances E. Sheehan.

Post Graduates — Louis Ward, Anna Moran, Catherine Breen.

Father Dunney says a Newman Club has been a great need in Albany for years, because no distinctive collegiate body to hold up Roman Catholic ideals in both educational and religious. The State College had been lagging behind the other great educational institutions in organizing such clubs, a chain of which now extends from Maine to California. At the University of California, he said, there is a splendid organization which founded Newman hall there. The organizations are international in scope, and at Oxford, England, there are the Pope's hall and Hunter Blair's hall, founded by the Newman Club.

DOB THE HONORABLE THING.

Meet the Terms of the Contract You Made.

We know the idea of beginning the second semester of this college year and incidentally the second semester in the history of the "State College News" with the unpleasant business of "dunning," but since we are here to make the paper a success and since our success depends entirely upon the support it receives from the students, we see ourselves compelled to act as necessity demands. We wish to call attention to the following facts: When the founding of the "News" was being considered, estimates were made of what sum would have to be charged in order to make the new paper self-supporting. After careful investigation of conditions we settled upon $1.50 as the sum which would induce a demand great enough to finance the venture. The subsequent number of subscribers was up to our expectations, and while our advertising business, owing to strong competition, was somewhat of a disappointment, yet the outlook on the whole was promising and justified our belief that the "State College News" had come to stay.

Since last October the paper has been issued regularly on schedule time. We hope our pride in that fact will be appreciated. Curious to know how some of the better known college papers fared during their first years, we recently took the pains to look into the history of some, and as a result of which we are glad to be able to report that our record so far surpasses that of almost every paper investigated. The City College "Campus" for instance during its first year was often over a week late, and often did not appear at all. This little investigation brought out that since last October the paper has been issued regularly on schedule and many a now prominent college sheet. We feel, therefore, that we are justified in stating that we have kept our faith with our subscribers.

Last fall some four hundred odd students promised to pay $1.50 on or before December 1st, in return for a copy of the "State College News" every week during the College year. Strange to say, over one hundred of those who made such a contract with us have failed to meet its terms. Over one hundred students have neglected to pay the price of their subscription. We could write pages about the absolute need of honesty and trust in business, and the absolute failure of the same without them. Still we would not be setting forth anything which each one of these one hundred or more delinquents does not already know. The trouble here seems to be that most of the neglectful people do not take any contract made with us seriously, because they have not yet acquired that proper sense of responsibility which added years and more experience will bring, we hope.

In the fall a definite budget was made out by us, which called for a certain number of issues of our paper for this College year. In making this budget we placed absolute faith in the contract we had made with four hundred of the students. Three hundred have done their part. One hundred have failed. If you are one of this minority, don't you believe with us, that now is the time to acquire habits that are good and helpful? Get the habit of paying promptly. Get the habit of doing the honorable thing. Acquire these habits quickly and you will not fail to meet the terms of the contract you made with us.
antocratic power is needed that the nation may exert every ounce of its energy in a crisis, but when the crisis is passed, it is believed by many, will become far more democratic than ever before.

Concerning the United States, he believes that both the Allies and Central Powers are expecting us to live up to our long-established reputation for justice, fair play and honor.

SPRINGFIELD TOO MUCH FOR VARIETY.

Wins Handily by Score of 36:18

On January 18th the Purple and Gold met in the Springfield Y. M. C. A. college a live team decidedly out of their class. The game, which was won by the visitors by a score of 36:18, was rather one-sided throughout. The feature was the duplication of the Y. M. C. A. men and the display of rare gameness on the part of the State College men, who never gave up.

The score:

PROFESSOR YORK ADDRESSES COLLEGE CLUB

At the last meeting of the Promethean Literary Society Anna Nelson was nominated for president and Adelle Hughes and Ray Townsend for the office of vice-president. The program consisted of a paper on the "Life of Dickens" by Miss Jean Ames, vocal solos by Miss Spear and Miss Mildred Uarby, a piano recital by "Nicholas Nickleby" by Miss Christy Nichols, a reading from "The Tale of Two Cities" by Miss Anna Nelson, and a dramatic reading from "Julius Caesar" by Walter Doyle and Alfred F. Dedicke.

The next meeting will be held in the auditorium Thursday evening, Feb. 15. There will be an election of officers and a very interesting program.

RULES FOR BULLETIN BOARD USERS.

1. Since all lost and found articles are taken to the Registrar's, it is unnecessary for notices concerning such articles to be posted on the bulletin board.

2. Since the bulletin board is used by all the College organizations for announcements of plans and meetings, it is necessary that care should be exercised in making the posters and notices as small as possible.

3. In order that the appearance of the board may be more pleasing, those posting notices are requested to see that they are fastened in a straight line and not by one corner or in some other unattractive manner.

4. All untied notices will be removed.

5. It is requested that notices be removed after they have served their purpose as promptly as possible.

TEACHERS' CLASS IN GYMNASTICS WORK.

February 15, 13 — Theory and Practice of Track Events.

March 20, 22, 27 — Marching Tactics and Tumbling.

March 6, 8, 13, 15 — Apparatus.

March 20, 22, 27, 29 — Calisthenics and Boxing or Wrestling.

JUNIOR WEEK FESTIVITIES A SUCCESS.

The festivities of Junior Week began Thursday evening, Feb. 1, with the Junior reception. Necessity required that only members of the class, their guests and faculty should be invited. The gym was prettily decorated with balsam, ferns and southern smilax. The receiving line consisted of the members of the committee, the class officers and faculty members of the class. A very pleasing program included a vocal solo by the president, Miss Agnes Moore, and readings by Miss Arline Hedges, Miss Gertrude Simmonds and Alfred E. Dedicker. Dancing, with music furnished by Stably's orchestra, occupied the remainder of the evening.

The reception committee consisted of Miss Elmetta Van Deloe, chairman, Miss Ruth Halsey, Miss Elizabeth Fergourson, Mr. Greenblatt and Mr. Elliott.

The Junior Prom, held on Friday evening in the College gym, was the biggest event of the week. The gym was decorated by means of greens, big baskets of calla lilies and blue ribbon bows. The promenade, lead by Miss Lilian Magilton and Emmons Gray, ended at the receiving line. The promenaders included Mrs. A. R. Brubacher, Mrs. H. W. Hastings, Mrs. D. Hutchinson, Mrs. H. Douglass, Mrs. A. A. Walker and Mrs. J. Stinar.

The success of the affair was due to the cooperation of the committee, which consisted of Arthur Burns, Ray Townsend, Miss Lilian Magilton, Miss Eloise Shaffer, Stanley Heason and Miss Mildred McIlvain. O'Neill's orchestra furnished the music for this gala occasion.

The class banquet held at the Ten Eyck on Saturday evening was a most enjoyable affair, although the class was poorly represented in numbers. Dr. Brubacher was the toastmaster. A variety of subjects were covered by able speakers,including Miss Agnes Moore, Joseph Walker, Miss Doris Sweet, Alfred E. Dedicker and Dr. H. W. Hastings. The dinner committee was composed of Jesse Jones, Arthur Harman, Miss Rose Goldsmith, Miss Helen Sprout and Miss Nina Johns.

The festivities concluded with the basketball game held the next morning. Following this the College gym was thrown open for dancing.

Mr. Frederic Sisson '16, principal of the Loofy Union School, has been called to join the Albany Militia now stationed along the Ashokan Reservoir.

KAPPA NU.

Arleen Russell returned home for the ice carnival at Saranac Lake.

Florence Quinlavin and Mary Carney spent the week-end of Feb. 2 at Ithion, N. Y.

Harry Wear, of Syracuse University, and John Herrick, of Cornell, spent Junior week at State College.

PSI GAMMA.

Dr. Joseph Ogle, of Greenport, Long Island, visited his daughter, Hattie Ogle, the past week.

The Misses May and Irene McCabe, of White Plains, were house guests over the Junior week-end.

Doris Sweet, Marjorie Mitchell, Nina Johns and Alta Saller spent a few days at their homes during mid-week.

The officers for the rest of the year are:

President, Emma Sommerfield; Vice-President, Doris Sweet; Recording Secretary, Helen Sprout; Corresponding Secretary, Ruth Patterson; Treasurer, Edna Merritt; Chaplain, Marion Payne; Literacy Editor, Alta Saller; Critic, Margaret Christ; Marshals, Veta Merritt, Mary Waterhouse.

CHEMISTRY CLUB.

A largely attended meeting of the Chemistry Club was held Friday afternoon, February 9th.

Miss Catherine Hagel gave a very interesting paper on "Weather Indicators." Miss Hagel said in part that weather forecasts are made from indications taken at weather stations throughout the country. She showed how the atmospheric pressure is taken by mercurial or aneroid thermometers. The direction of the wind is taken by weather vanes and the wind velocity by anemometers. Barometers give the temperature at intervals during the day. These results with the measure of the humidity are telegraphed to Washington, compiled, and a complete map sent to the different stations. It is by means of these maps that the direction of storms is noted and weather forecasts made.

It was announced that Miss Louise Carmody, of the Glenn Falls Dye Company, would give a paper on "Dyes" at the next meeting of the Chemistry Club.
