Buffalo’s air attack still potent without Barrett

Former Buffalo University quarterback Marty Barrett is an ex-couch potato in the state of New York, but he’s proving a model example of how to recover from the occasional kitchen sink.

Although Barrett had a successful career with the Bulls, he doesn’t regret his time away from the gridiron.

"I think I’ve made a good decision," Barrett said. "I’ve been able to enjoy my time away from football and focus on my studies."

But that hasn’t stopped Barrett from using his athletic skills in other areas.

"I’ve been trying to stay active and get back in shape," Barrett said. "I’ve been doing some light running and working on my ways to stay in shape."

Barrett’s return to the field has been a welcome addition to the Bulls’ lineup.

"It’s good to have Marty back," said head coach John Jurek. "He’s a smart player and brings a lot of experience to the team."

Barrett’s presence has also helped the Bulls maintain their potent attacking game.

"I think Marty’s return has helped us improve our passing game," Jurek said. "He’s a great passer and can make some great throws."

Barrett’s contributions have been noticed by his teammates.

"Marty’s a great player," said wide receiver Bob Fluhr. "He’s always been great to me and I’m happy to have him back on the field."

Barrett’s return has not only helped the Bulls improve on the field, but it has also helped him off the field.

"I’ve been able to focus on my academics and stay on track for my degree," Barrett said. "It’s been a good year for me both on and off the field."

Barrett’s return has been a welcome addition to the Bulls’ lineup, and his contributions have been noticed by his teammates and the fans.

"We’ve been missing Marty’s presence on the field," Fluhr said. "It’s good to have him back."

No upsets in parties' control of House, Senate

WASHINGTON (AP) — Senate and House Democrats maintained their control of Congress in the elections, with a few gains for the Republicans, but no major surprises.

Democrats held on to their majority in the Senate, winning 52 seats to 48 Republican seats, while the House remained divided, with 234 Democrats and 202 Republicans.

The victories for Democrats were seen as a sign of growing popular support for the party's policies, particularly on issues such as healthcare and climate change.

The Republican Party, which had hoped to make gains in both chambers, fell short in their efforts, with the party losing seats in both the Senate and the House.

Key races included:

- In the Senate, incumbent Democrat Sen. Catherine Cortez Masto defeated Republican challenger Adam Laxalt in Nevada.
- In the House, incumbent Democrat Nancy Pelosi won re-election as Speaker of the House, defeating Republican challenger Kevin McCarthy in California.
- In New York, incumbent Democrat Alexandria Ocasio-Cortez defeated Republican challenger Anthony Comstock in New York's 14th congressional district.

Overall, the results were seen as a repudiation of the Trump administration's policies, with voters expressing dissatisfaction with the administration's handling of the economy, healthcare, and foreign policy.

The Democratic Party, on the other hand, was celebrated for their gains and the potential to advance their agenda in the next Congress.

The results were also seen as a warning to the Republican Party, which faces the possibility of minority status in both chambers for the first time since 2010.

The elections were viewed as a referendum on President Trump's leadership, with many voters expressing concern over his handling of the pandemic, economic policies, and foreign policy.

In conclusion, the election results marked a significant shift in power dynamics, with Democrats maintaining their control of Congress and Republicans losing seats in both chambers.

The upcoming legislative agenda under Democratic control is expected to focus on issues such as healthcare, climate change, and economic relief, while the Republicans will likely focus on issues such as immigration, law enforcement, and national security.

The election results also had implications for the broader political landscape, with the two parties expected to continue their polarization and gridlock over key issues such as healthcare, gun control, and taxation.

The full-length coverage of the elections, including analysis and reaction, will be published in the upcoming issue of The Albany Student Press.

New Jewish lounge draws low student response

By Statia Alzahraoui

Students in the Albany Jewish Federation, which sponsors the lounge, are waiting for a new place to meet together and socialize. The lounge has been closed for two weeks, forcing students to find alternative locations, such as the Student Union or the Union of Students.

The Jewish lounge was closed on November 10th due to the lack of funding. The federation had hoped to open the lounge on November 12th, but the delay has caused inconvenience for students who rely on the lounge for cultural and social activities.

According to federation president Jay Reisin, the reason for the closure is the lack of funding. Reisin said, "The federation has been trying to find a solution to keep the lounge open, but without financial support, it's difficult to maintain operations."

Since the lounge is located in Sibley Hall, Reisin said, "If we can't find a way to keep the lounge open, we may have to consider other options for students who want a place to socialize and learn about Jewish culture."

The situation has also affected other student groups, such as the African American Student Association and the Asian Student Union, who use the lounge for cultural events.

Reagan victory

"First Guys" Democratic House Speaker Thomas P. O'Neill of Massachusetts and Reagan's victory was the result of "the overwhelming power of the president of the United States. He won, we won, the country won," he said. However, some voices were raised against Reagan's policies, and he was not re-elected in 1984.

Reagan's presidency was marked by his support for military spending and his efforts to reduce taxes. He also supported the nuclear arms race and his policies were criticized for their impact on the environment and the economy.

Reagan stepped down in 1989, but his legacy continued to influence American politics for many years to come.
News Updates - English prof to be honored

Associate professor of English at SUNY, William A. Dunbarke will be honored as “Albany Author of the Year” Saturday, November 11 in the Main Library. Dunbarke is the author of “Life and Love in Literature,” and has also published a chapter study of James Joyce. He is a graduate of SUNY, earned his Ph.D. at the University of Pennsylvania, and has two M.A.s at University College, Dublin.

Dunbarke will be honored at a luncheon in the Main Library on Washington Avenue. The cost is $10 per person. Reservations must be made by November 9.

The American college: the dilemma

Our hundred-and-forty-year song, Horace Mann referred to education as "the number one problem of the human race." And yet, there is something insipid about the stagnation and stasis of education. It is not only a significant problem of our society, but to many, it is the very essence of our society.

Cerry Rolley

Today's colleges and universities are facing a major dilemma, a dilemma in which college graduates are facing one of the worst times of their lives. The economic and social conditions are such that many have no choice but to enroll in college. The cost of education has increased dramatically in recent years, and many students feel that they are being taken advantage of. The quality of education has also declined, and many students feel that they are not getting their money's worth.

The current situation is not only a problem for students, but also for universities. The cost of educating students has increased, and many universities are struggling to meet their financial obligations. The result is that many colleges and universities are facing financial difficulties.

Another problem is the growing number of students who are enrolled in college. The number of students enrolled in college has increased significantly in recent years, and many colleges and universities are struggling to accommodate the growing number of students.

The American college dilemma is a serious problem that needs to be addressed. It is not only a problem for students, but also for universities.

Michael House

Ignorance isn't bliss

In the letter, the writer has expressed their concern about the lack of awareness on this campus concerning pornography. In the letter, the writer states that wrapping up is in the nature of censorship.

She is right. Porn isn't rape, and it is not an issue of sexual objectification. Porn is not about the exploitation of women, but rather about the exploitation of men.

Pornography is a serious issue, and it is not only a problem for women, but also for men. The writer is right that we need to educate ourselves and others as to the exploitation of women through pornography.

Sincerely,

John Valby

Racism in the world

The writer is right that racism is a serious issue, and it is not only a problem for women, but also for men. The writer is correct that we need to educate ourselves and others as to the exploitation of women through pornography.

Sincerely,

John Valby

No shame here

The writer is right that racism is a serious issue, and it is not only a problem for women, but also for men. The writer is correct that we need to educate ourselves and others as to the exploitation of women through pornography.

John Valby

Ideals and people

To The Editor:

I was very disappointed to read the article about the lack of access to the internet in the United States. The article states that only 30% of Americans have access to the internet. This is a very disturbing statistic, and it is clear that more needs to be done to ensure that everyone has access to the internet.

Sincerely,

John Valby

With elections over, issues still loom

New York City (AP) - The voting rights issue for the past four years. Little that occurred during that period had as much impact on New Yorkers and their concern to be citizens and have their voices be heard as much as it will be dealt with effectively.

Election results may directly affect the individual and which the concern that New Yorkers have may be the subject of party in the future.

There is the issue of employment opportunities existing. Since the onset of the economic recession, many employ­ees have faced job losses and unemployment.

The problem is that no one can predict what will happen to the economy in the future.

The growth of government continues to affect every individual. The National Economic Act of 1984, which was passed by the House, is being considered by the Senate. The legislation proposes to increase the national debt by $300 billion over the next ten years. This act will affect the economy and the ability of consumers to purchase goods and services.

Voting problems

A list of all Indian Quad votes was not available immediately, according to Robert Chard, director of University Auxiliary Services.

He said that at a time when a great deal of attention was given to the problems of voter registration, the issue of voting rights was not addressed.

Elections and SA officials agreed that many students were unable to vote because of the lack of information and the difficulty of finding the polling place.

The smell of the quad in which the election was held was not evident at the Thruway House, where the event was held. The Board of Elections had an excuse for the confusion, he said.

The board was not up to the standards of the other boards in the state, and the situation has improved since the last election.

They believe that the smell of the quad in which the election was held was not evident at the Thruway House, where the event was held. The Board of Elections had an excuse for the confusion, he said.

**Sports Briefs**

**Skaters win**

The senior ladies of the Albany State hockey club could not have been more thrilled had they won the Stanley Cup.

In its second year as a varsity team, the hockey club enjoyed the first annual Alumni game, held on November 5. The past winter season had been a success and a motivation for the team this year.

The team, under the guidance of the Assistant Junior Red Wings coach, Kathleen Conroy, had earned their place in the final game. After defeating the Red Wings' 3 registry line, 6-0, in the final game, the ladies of the Albany State hockey club won their invitational tournament for the season.

The tournament consisted of 12 teams, including the University of Vermont, the University of Massachusetts, and Westfield State University. The Albany State hockey club was seeded 3rd and defeated the University of Vermont, 5-0, in the final game.

The ladies of the Albany State hockey club are looking forward to the future and plan to continue their success in the sport.

**Rushing record**

Albany State fullback Steve Williams will become the school rushing leader that has been on the minds of many.

If the junior from Schenectady stands 112 pounds at the season's start, he will become the second highest-scoring running back in the history of the University of Vermont.

Lowell, Mass., on October 22, 1984. Williams is expected to surpass the school rushing record of 112 pounds held by teammate Jacobs.

After having finished in 14th place last season, the Danes are looking to their next challenge: a strong third in ECACs and a successful season overall.

**End of the season**

For the beginning of the season, the Danes faced the University of Vermont, 33-10, on Saturday night. The Danes outscored the Catamounts 18-7 in the final period.

The Danes' first play from scrimmage, a 73-yard touchdown pass from quarterback Jeff Russell to wide receiver Chris Haynor, set the tone of the game early. On offense, the wishbone did some serious running, and the Danes compiled 385 rushing yards. The Danes got 105 through the air, including one 59-yard strike to Hightower.

Offense Line: Mick Colone, 21; Jeff Russell, 22; Terry Williams, 23; Ken Hyer, 24; Ron Anderson, 25; Pat Martin, 26; Ron Roberson, 27; Jeff graphic

Secondary: Hansy Harris, 28; Dave Smith, 29; Tom Dzamba, 30; Steve Esposito, 31; Rick Richardson, 32; John Ward, 33; Don Schwartz, 34; Mike Masterson, 35; Mike Mondiello, 36.

The last game of the season was a strong finish: a 6-0 win over the University of Vermont. The Danes' victory was due to the strength of the team and the ability to come together.

The Danes are looking to their next challenge: a strong third in ECACs and a successful season overall.

**Danis’ wishbone trampolines over Buffalo, 33-10**

Soldini looks to shoot down rushing record against Marist

By Marc Berman

The Danes, who have passed for 181 yards, have shown how unbreakable the Albany State football team can be. The Danes' offensive line, led by the wishbone trampolines, has played a key role in their success.

According to Toner, the wishbone trampolines have helped the team maintain momentum throughout the game. "We've been able to keep the offense going for long periods of time," Toner said. "The wishbone trampolines have allowed us to establish a rhythm and consistency in our offense." The wishbone trampolines have been particularly effective in the red zone, as the team has scored 33 touchdowns on passes and 10 on runs.

**UAS reports $184,661 surplus in past fiscal year**

By James O'Bryan

The University Auxiliary Services (UAS) posted a $134,661 surplus for the fiscal year ending May 31, according to George J. Nash, UAS general manager. The surplus is a result of increased revenue and controlled expenses. The surplus will be used to fund student aid programs and other initiatives.

**Budget blamed for widening student-faculty gap**

By Rich Seaborn

While student enrollment shows signs of growth at SUNYA, the faculty and staff have been hit hard by budget cuts. SUNYA has had to make difficult decisions to balance its budget, resulting in a widening gap between faculty and students.

**Division III itself will have to find the ways and means to find championships from Division III resources.**

The Division III itself has found ways and means to find championships from Division III resources. **Danis’ wishbone trampolines over Buffalo, 33-10**

Soldini looks to shoot down rushing record against Marist

By Marc Berman

The Danes, who have passed for 181 yards, have shown how unbreakable the Albany State football team can be. The Danes' offensive line, led by the wishbone trampolines, has played a key role in their success.

According to Toner, the wishbone trampolines have helped the team maintain momentum throughout the game. "We've been able to keep the offense going for long periods of time," Toner said. "The wishbone trampolines have allowed us to establish a rhythm and consistency in our offense." The wishbone trampolines have been particularly effective in the red zone, as the team has scored 33 touchdowns on passes and 10 on runs.

**UAS reports $184,661 surplus in past fiscal year**

By James O'Bryan

The University Auxiliary Services (UAS) posted a $134,661 surplus for the fiscal year ending May 31, according to George J. Nash, UAS general manager. The surplus is a result of increased revenue and controlled expenses. The surplus will be used to fund student aid programs and other initiatives.
