All-State Show
To Raise Funds
For Silver Bay

The Student Christian movement at State College will present a special event on June 15 to raise funds for Silver Bay, a camping facility for college students. The event will feature a series of performances and activities that will entertain visitors and contribute to the goal of collecting $10,000 for this worthy cause. Attendees are encouraged to bring a donation of any amount to support these efforts.

Media Theatre Program
Will Include Own Amateurs

The media theatre program at State College, directed by Dr. A. R. Brubacher, is planning a special event for the coming year. This year's production will feature the talents of both students and faculty members, as well as some local amateur performers. The program will be announced soon, and interested individuals are encouraged to sign up for the chance to participate.

Tension of Exams
Y.W.C.A., Chapel Will Help

During the tension of exams, the Y.W.C.A. and Chapel on Washington avenue will continue their efforts to provide support and encouragement to students. This includes offering study breaks, counseling services, and other resources to help alleviate stress.

Other news highlights include:
- The appointment of Dr. Harold Bliss as the new president of the college.
- The creation of a new faculty position in English.
- The establishment of a ROTC program on campus.
- The opening of the new science building.
- The completion of the new athletic facilities.

Revision of Rivalry Regulations
To Result in Rip-roaring Races

When next year's freshman, the class of 1942, take the place of the Class of 1939, they will be proud of a well-devised system of rivalry known as the "tug of war". This has been gaining in popularity each year and was the subject of a recent amendment to the rules of the Student Association.

Under the new scheme members of one class will be divided into teams of twenty-five men. Each team will be divided into two classes and the team will consist of ten members from each class. These teams will be pitted against each other in a tug of war against the other team in sister class. The team whose members pull the rubber band closer to the goal will be declared the winner. If the band is pulled completely across the goal line, the entire class will be declared the winner.

Congress heard their plea for aid for needy students. 2,000 youthful U. S. citizens from the ranks of labor and collegiate organizations marched on Washington last month to urge Congress to pass the $500,000,000 American Youth Act. Above is part of the procession that marched down Constitution Avenue, while at the right is a portion of the crowd that jammed a hearing on the act conducted by the senate education and labor committee.

Students win a strike

Demonstration

Led by a modern fife and drum corps, National Farm College students march on their campus to demand the ouster of a dean they called "uneducational and without respect for the students or faculty."

Leader of Ohio's famous Alpha Kappa Gamma chapter, Evelyn Walsh, whom many consider the world's most beautiful woman, was on hand to observe the protest.

Keynoter

Dennis McIlroy, one of the famed journalists, and a University of Chicago graduate student, opened the Political Union meeting with a stirring keynote address.

Oarswomen

After training hard for three annual races with the Cambridge University (England) women's crew, these Oxford University co-ed rowers were doomed to disappointment, for their annual rivals could not muster a crew.

Rewriting...a story as it comes over the telephone, a Syracuse University journalism student gets a taste of the real thing as she takes a hot news story from a reporter talking at the other end of the newly-installed phone system.

Movies Go Collegiate

With Professor, Beware! and College Swing now being finished by the cinema collegians of the Paramount Studios, moviegoers of the nation will soon be seeing some new versions of college life.

They'll see Harold Lloyd and Phyllis Welch (right) in Professor, Beware!, a story that's something about a professor who goes searching for relics.

Jackie Cooper, Betty Grable and Skinnay Ennis (below) are among the stars now getting a rest after their stint in College Swing.

Just what it's all about, we can't say, but it has in its cast such eminent "collegians" as George Burns and Gracie Allen, Martha Raye, Florence George and Edward Everett Horton.

Speed King

Howie "Wrecker" Welch, Cornell University distance runner, is shown at the finish of his record-breaking two-mile run of 9:32.4.

Now Seabrook, a Phi Gam, is engaged in studying that species of torture known to college students as thinking. He took two degrees at three colleges without, he says, acquiring a single original idea. Lastly he has been returning briefly to college classrooms to find out whether college students are having any better luck. You will shortly see reports on his quest in magazines and a book.

In tests made at De-Pauw University by Psychologist Paul G. Fay and Physical Education Instructor L. L. Messer-smith, it has been found, that basketball players travel almost twice as far under the new rules as they did in the past. A metal "follower" attached to recording instruments, is moved on a miniature court to correspond to the movements of each player. In four games tested it was found each man averaged four miles, as compared to 2 1/2 miles under old rules.

First All-American Dance Band

When the All-American season was at its peak and football fans were lying awake nights worrying about the standings of their favorite grid-greats, our special New York correspondent for things musical caught the fever and on this page we have the result—the world’s first All-American Dance Band. Composed only of orchestra leaders who attended college and play instruments, it is a band that would please swingsters and waltzers alike.

Of course we would include in this band a number of other musical aces, but space limitations prevented our presenting their photographs.

SANFORDIST HAL KEMP (North Carolina ’28) organized his band while in college, got his start by winning a vaudeville impressario’s intercollegiate band contest.

BUNNY BERGAIN (Wisconsin) left the university to join Hal Kemp. He now plays one of the most vociferous drums in the band.

BOBBY NELSON (Wisconsin ’21) also organized a band while in college.

DRUMMER GEORGE OLSEN studied law at the University of Michigan. He led the college band and was the first drum major to twirl a baton and throw it over the goal posts.

JOHNNY GREEN (Harvard ’28) composed songs and songs while a undergraduate; studied music to almost complete exclusion of other courses.

LUD GLUSKIN (Yale ’29) played drums in the football band, switched to piano when he organized his band.

THESE THREE VIOLINS add rhythm and melodic to our All-American Band. First Van Soden (left) attended North Carolina and Alabama Poly, while Al Donahan (right) studied law at Boston University.

Paths... followed by stars when the earth turns are traced in this unusual photo taken by Blackmer Humphrey on the Williams College campus. By pointing his camera upwards and northwards, and leaving its shutter open for a considerable period of time, he obtained this record of what, to the earthly observer, seems to be star motion. Patience and intelligence are necessary to take this type of photo, says Photographer Humphrey, for there are many complications that arise to plague the amateur in this type of work, one of which is the formation of dew on the camera's lens.

Winter Study

For Spring Sowing

To give young men of the farms a broad educational contact which will train them to be better farmers and better citizens is the purpose of the "Farm Folk School" operated during the snow season by the University of Wisconsin college of agriculture.

The school's term runs each year from the middle of November to the middle of March, days during which active farm work is curtailed by the cold and the snow. The full course requires two terms, but many go back for the third and fourth. Average age of the 300 students is 22 years. The entire four months' course, including food, shelter and tuition, costs but $97.50—and this includes medical care.

There are no entrance requirements or examinations. The course of study is built around the social and cultural needs, as well as the vocational interests, of America's future farm leaders. The latter course gives them an acquaintance with economics, history, sociology and political science. The former course covers all phases of farming.

Plans are now being made to extend this type of training to the farm girls of the state, so that they, too, can use their winter months' leisure to train themselves for more efficient and intelligent summer months' activity.

Marine to President

Mt. Holyoke's first male president
To the lone society of two men who are presidents of eastern women's colleges, has now been added Dr. Roswell Gray Ham. An ex-captain in the U.S. Marines, he has been selected to head Mt. Holyoke College, the first male president in its 101 years. It began as a female seminary in 1836, today is pioneer among schools to offer higher education to women.

It took almost a regiment of Marines to overcome the opposition to Dr. Ham's appointment. He personally was under no harsh scrutiny. He had taught in Woman's College of Albertus Magnus and had faced co-eds at the Universities of California and Washington. It was just that under woman's hands, notably those of retiring 74-year-old President Mary Emma Wooley, Mt. Holyoke had grown to an eight-and-a-half million endowment. During her 37-year administration, enrollment has doubled, the faculty quadrupled.

Dr. Ham is 45, six-foot-three, a native of California. For 16 years he taught at Yale, a good part of that time as professor of English. He is much younger than Smith's William Allan Neilson and Vassar's Henry Noble McCracken, who have learned to delight their girls with dawning.

Mt. Holyoke's first male president
To the lone society of two men who are presidents of eastern women's colleges, has now been added Dr. Roswell Gray Ham. An ex-captain in the U.S. Marines, he has been selected to head Mt. Holyoke College, the first male president in its 101 years. It began as a female seminary in 1836, today is pioneer among schools to offer higher education to women.

It took almost a regiment of Marines to overcome the opposition to Dr. Ham's appointment. He personally was under no harsh scrutiny. He had taught in Woman's College of Albertus Magnus and had faced co-eds at the Universities of California and Washington. It was just that under woman's hands, notably those of retiring 74-year-old President Mary Emma Wooley, Mt. Holyoke had grown to an eight-and-a-half million endowment. During her 37-year administration, enrollment has doubled, the faculty quadrupled.

Dr. Ham is 45, six-foot-three, a native of California. For 16 years he taught at Yale, a good part of that time as professor of English. He is much younger than Smith's William Allan Neilson and Vassar's Henry Noble McCracken, who have learned to delight their girls with dawning.

Aides for Nation's Disease Fighters

An increasingly important branch of medical training is that given in medical technology courses to prepare laboratory workers to assist medical scientists in the diagnosis and treatment of disease. One of the largest departments of that kind is that at the University of Minnesota, where future technologists must complete a four-year course for a degree. The first three years of this course are spent in the arts college and the medical school, the final year in acquiring practical experience in hospital laboratories, scenes from which are shown here.

So Harry March lengthened the football week-end. There was a time when the football week-end tapered with tomato juice, Sunday morning quarterbacks and the M-111 pages. Now professional football prolongs the week-end to Sunday afternoon. For this, Dr. Harry W. March of New York is responsible. He persuaded Timothy J. Mara to finance the first big-league professional football team—the Giants of New York. That was in 1921.

Harry March once liked football so much that he sampled under assumed names at four schools, Ohio State, Oberlin, Kenyon College, and Mount Union College. He gave his real name at Columbia (now George Washington University) and took an M.D. in 1901. Unlike many tramp football stars, March had a sharp and restless mind. He established a go...

America's largest social fraternity is Sigma Alpha Epsilon (109 chapters, 32,500 living members). One of America's most prestigious national fraternity organizations is Sigma Alpha Epsilon's officers and Eminent Supreme Recorder Lauren Foreman. Distinguished by its seriousness of purpose, a prominent place on its program is given to a Leadership School for the training of undergraduate fraternity leaders. Most sessions are in general sessions, where discussions of ritual, scholarship, fraternity history and purposes do not let undergraduate delegates forget the great social aims and accomplishments of college fraternalism. Not unlike other fraternities is SAE in its convention program. Here COLLEGIATE DIGEST presents typical scenes from a typical college fraternity convention taken at the SAE meeting in Evanston, Ill.

Co-Education's 100th Birthday

For 200 years following the founding of the first U. S. university (Harvard, 1636) the education of young women was left to the "female" institutions whose courses were comparable to those offered by academies and secondary schools today. Higher education was not for women. Neither was co-education, until Oberlin College, on Sept. 6, 1837, admitted four women to a regular college course.

America's first co-educational college
Caroline Mary Rudd may properly be known as the first co-ed, for her picture is the only one extant of the four young ladies in the first regular college course for women.

First woman M.A.
Emily Frances Fairchild Fairfield, acknowledged to be the first woman to receive an M.A. degree in any U. S. college.

History of co-education
Mud covered the floor, moral lectures filled the air, when co-educational Oberlinites gathered for their segregated assemblies in the early days of higher education for women.

Today Oberlinites listen and learn in comfort.
A far cry from the mud and discomfort of the first meeting house is the modern Finney chapel, where students must attend assembly at noon.

World's first authority on barnacles
Western Reserve University's Biologist J. Paul Visscher gives most of his time to the study of the hundreds of different kinds of cirripedia (barnacles, to you) that cost shipkeepers a pretty sum every year.

With this new air filter developed by Dr. William H. Welker, University of Illinois scientist, air free from irritating substances is drawn into the room from the outside. The filter attaches to an open window.

Largest mounted canvas in U. S.
This painting, "The Interior of St. Peter's," which hangs in the 103-year-old University of Georgia chapel, is probably the largest mounted canvas in the country.
