Late Heroes Lead Fordham Past Danes, 35-28

Ahead 21-0 At Halftime, Albany Falls To 2nd Loss

By Paul Schwartz

The Rams came out firing. Connolly fired a bullet pass over the yards to cut the Albany lead to winning season in a row and finish whatever momentum the Danes had for the NCAA East Regional game. On the field were Levi Louis (32) with 35 yards, and then the building confidence.

The Albany touchdown was incomplete, and then the Rams fumbled, and Fordham took over. The Danes had good coverage. "We just made a better play than them," said Larry Walsh. The Danes last chance to pull out the game in the first half was Fordham's comeback. The Danes had good momentum. "We had to shut the game," said Zirpoli. The Rams scored with 8:42 remaining in the first half, and the Danes clung to a precarious lead because of a decision by their own 40. But then the Danes came out firing.

The Danes dominated in the second half, but on their own 38 yard line, followed by a 40 yard punt. The Danes were not playing defense, but the Rams had to keep it up. The Danes had good coverage. "We just made a better play than them," said Larry Walsh. The Danes had good momentum. "We had to shut the game," said Zirpoli. The Rams scored with 8:42 remaining in the first half, and the Danes clung to a precarious lead because of a decision by their own 40. But then the Danes came out firing.

Iranians Free Some Hostages

TEHRAN (AP) - The Tehran government on Thursday released a group of Americans who were held hostage in Iran for the past five months. They were immediately flown back to the United States.

The hostages, who had been held in Tehran since October, were released after Washington agreed to swap them for a group of Iranian prisoners held in the United States.

Mount Sinai Returned to Egypt

The AMU (American Israel) had already sent Mount Sinai to Egypt, but the American Home Front Association cannot be sure that the hospital is still operating in Egypt.

The hospital was closed in 1990 after controversy over its treatment of Jewish patients.

WASHINGTON. (AP) Senator Edward M. Kennedy of Massachusetts and Illinois Gov. James R. "Jim" Thompson have been named as committee chairmen to work on the question of prisons, according to officials in the White House.

Mr. Kennedy, the Senate's Armed Services Committee, said earlier this week that he was being named to the new panel to look into prison conditions.

"I am pleased that Senator Kennedy has been named to the new panel," Mr. Thompson said. "I believe it is important that we have a thorough and comprehensive investigation into the problem of prison conditions."

The senator was joined by members of his committee in expressing support for the new panel's work.

Birth control, simplified.

At last, Encare®. Next to Contraceptives, the Easiest method of birth control we have today. And the most talked about contraceptive now available. Which means, you simply won't even feel it.

Don't Be Stupid, It Can Happen to You. Lock Your Doors And Windows NOW

The Off-Campus Association (OCA) has been installing eye balls on the windows of homes in the Five Hills "student ghetto." The idea began in response to a recent rash of assaults occurring in the area bounded by Myrtle Avenue, Bradford Street, Lake Street, and Partridge Street. Student volunteers have gone door-to-door weekends installing locks, especially on first-floor windows. Only placed on windows without locks or with broken locks. A Coordinator said the bolt system will not fully prevent the entering of the apartment but will make it more difficult. OCA plans to coordinate efforts with Albany's United Toowned Association and the Neighborhood Association in installing locks in surrounding city project.

Birth control, simplified.

Many young people who have never had to consider this method of birth control before, are finding it to be an effective and satisfactory form of contraception. The pill can be used as a method of birth control after marriage, and even within marriage.

On Using Racism As A Crutch

By Thomas Marcollo

It is no secret that the word of the day is "racism". It is everywhere, in every corner of society. From the classroom to the workplace, it is a topic that is constantly being debated and discussed. It is a word that is used to describe a wide range of behaviors and practices, from discrimination to hate crimes.

Unfortunately, many people do not understand the true meaning of the term "racism". It is often used as a way to describe any behavior that is perceived as "racist". This can be problematic, as it can lead to a lack of understanding and a lack of respect for the experiences of people of color.

It is important to remember that racism is not just about overt acts of discrimination. It is also about the systems and structures that perpetuate inequalities and disparities. This is why it is so important to have a deeper understanding of what racism is and how it affects people.

I would like to take this opportunity to talk about the importance of understanding racism and the need to recognize and address it in our society. By doing so, we can work towards creating a more just and equitable world for all.

The Editor:

I was one of the first few black students to attend the University of Pennsylvania. The "race" of the school, "black" students, was a Committee on Higher Education issue. The "black" students were those students of color who were not part of the "white" student body. The "race" of the students was determined by their skin color.

Unfortunately, my racial identity was often overlooked. This was because the school was not used to seeing black students. The school did not have a history of accepting black students, and the faculty did not know how to deal with them.

I would like to share a personal story with you. I was in my second year of college when I was approached by a group of black students who wanted to talk to me about my experiences as a black student at the university. They wanted to know how I was doing and if I was experiencing any discrimination.

I was shocked and surprised by their concern. I had never had anyone ask me about my experiences before. I was used to being ignored and being treated as if I did not exist.

I decided to tell them about my experiences. I shared with them about the racism I had experienced, both overt and subtle. I talked about the discrimination I had faced, both in and out of the classroom.

I also talked about the ways in which I had had to work harder than my white peers, both in terms of my academic work and my social life.

I told them about the times when I had been made fun of or when I had been ignored or dismissed. I talked about the times when I had been treated differently because of my race.

I hope that by sharing this story, I can help others to understand the true impact of racism. I hope that others will see that racism is not just about one or two people, but about a system that perpetuates inequalities and injustices.

I would like to end by saying that I am grateful for the opportunity to talk about this issue. It is important to me that others understand the true impact of racism and that we work towards creating a more just and equitable world for all.

Man Looks At Woman...

The man who holds the woman in his arms is a common sight. Yet, do they love each other? Is their love genuine, or is it just a matter of convenience? The question is not new, but it remains unanswered. Throughout history, men and women have struggled with the idea of love, and the answers are not always clear.

Imagine if the roles were reversed. What if the woman held the man in her arms? Would their love be any different? Or would it simply be a matter of perspective? These questions are not new, but they continue to be asked. The answers are not always clear, but they are always interesting.

Woman Looks At Man...

The woman who looks at the man in her arms is a common sight. Yet, do they love each other? Is their love genuine, or is it just a matter of convenience? The question is not new, but it remains unanswered. Throughout history, men and women have struggled with the idea of love, and the answers are not always clear.

Imagine if the roles were reversed. What if the man held the woman in his arms? Would their love be any different? Or would it simply be a matter of perspective? These questions are not new, but they continue to be asked. The answers are not always clear, but they are always interesting.

Overall, though, the sex feels one thing but when things heat up in the bedroom, it can feel different. It can feel more intimate, more loving. It can feel like something special.

Man and woman...

Aspects
Lisa
I can't remember the date, or what you wore, or what the weather was like on the day we met.
Only that you said hello in a voice that sounded like love.
At first it was hard to say, "I love you."
But my way
my hands
my silence kept saying it for me...
Until "I love you" became the only way to express our moments together.

Arm in arm we hurled, anxious to be alone.
Outlook to the glances of jealousy and wonder from those who were recalling our little miracle.

Each time we say goodbye, I run home with my memories and sort once over in my mind. I watch them the way and that, like a cold bug with no bite.

Affirmed Retires To Stud
Career At Kentucky Farm

LEXINGTON, Ky. (AP) - Hall of Famer Affirmed, who swept to 22 wins in 1978-79, was retired from racing on Tuesday, the 17-year-old gelding, and will stand at stud for the 1980 season in Kentucky.

Affirmed won the 1978 Kentucky Derby, Preakness and Belmont, captured the 1979 Santa Anita Handicap, and earned $2,393,818 in 1979. That's the second highest earnings in the history of thoroughbred racing; only Secretariat's $2,869,352 is higher.

He will stand at Cool Springs, the farm of owner Louis C. Combs, in Versailles, Ky. "Affirmed was a great horse, and he's done it all," said Combs. "We are very excited about him having a great stud career."

Affirmed was purchased for 140,000 at the 1977 Saratoga yearling sale for owner Louis C. Combs of Chicago. He was a half-brother to four stakes winners including: 104 CBS albums, running shoes, running Fabulous prizes for top male and female finishers

LOS ANGELES (AP) — Southern California quarterback Charles White, like his grandparents, is the nation's No. 1 running back. White, the Trojans' MVP in their 9-0-1 season, has gained 1,650 yards on 258 carries, averaging 6.4 yards per carry — to move him to second place among all-time rushing leaders. His best efforts came in the Rose Bowl victory on January 1, when White carried 36 times for 213 yards and scored two touchdowns.

White, who aspires to be a professional football player, said, "I'm doing it for my own satisfaction, and I'm doing it for the Trojans." He added, "I'm a recovered fumble."

Despite 81-51 setback

SCHENECTADY, N.Y. — The University of Vermont beat the Albany State College women's basketball team 72-65 on Saturday afternoon to improve to 8-2 in the Colonial Athletic Association.

The women swimmers will challenge the nation's best this weekend when they travel to Saratoga to face Skidmore College. The meet will be held at University Pool at 1:00 p.m. Competing will be the top Five Women's teams in the country.
