Outstanding Educators Added to Faculty

Thirty-five new faculty members have been appointed to the University for the 1965-66 academic year. Among those appointed are several nationally known figures in the field of education.

Dr. Arthur A. Hyman will serve as professor of education in the Department of Education and Personnel Services. Dr. Hyman has served as a member of the academic council of the State University of New York and has been active in the field of education.

Dr. Philip D. Simpson has been appointed associate professor of English at Skidmore College. Dr. Simpson has served as a member of the academic council of the State University of New York and has been active in the field of education.

Pittsfield Given Grant to Study in Mexico

Henry Pitirimoff has been awarded a $5,000 grant by the National Endowment for the Humanities to study in Mexico for a year.

The grant will enable the visiting scholar to study Mexican culture and to prepare a series of articles and book reviews on Mexican culture. The scholar will also have the opportunity to study the Mexican cultural scene in New York City.

The grant is funded by the National Endowment for the Humanities, a private, non-profit organization that promotes the study and understanding of the humanities.

Head of Selective Service Lists Criteria for College Deferees

The Selective Service System has issued the criteria to be used in determining whether college students should be drafted into the armed forces or not. The criteria are based on the type of work the student is engaged in and the student's status in college. The criteria are as follows:

1. The student is enrolled in a full-time degree-granting program at an accredited college, university, or similar institution.
2. The student is enrolled in a full-time degree-granting program at an accredited college, university, or similar institution.
3. The student is enrolled in a full-time degree-granting program at an accredited college, university, or similar institution.
4. The student is enrolled in a full-time degree-granting program at an accredited college, university, or similar institution.
5. The student is enrolled in a full-time degree-granting program at an accredited college, university, or similar institution.

These criteria are intended to ensure that college students who are not needed for military service are not drafted. The Selective Service System has also issued a statement on the criteria, which states that the criteria are based on the need for college students to maintain their educational progress and to contribute to the nation's economic and social welfare.

Scholar of Slavic Studies to Speak on Mid-European Literature

Dr. Arthur Coleman of the University of Michigan will speak on Mid-European literature at the University of Chicago on May 12th. Dr. Coleman is a professor of Slavic languages and literatures and has written extensively on the subject of Mid-European literature. His talk will cover the development of the literature in the region from the early Middle Ages to the modern period. The talk will be held in the University Union at 4:00 p.m. and is open to the public.

Rienow Publishes Book on Theology

Mr. Robert R. Rienow, professor of political science at the University of Texas, has published a book on theology titled "The Lonely Quest: The National Defense System." The book discusses the relationship between theology and national defense and argues that theology is an essential component of national defense. The book is available at local bookstores.

Composing Center Announces
New Additions, Appointments

Several new appointments to the staff of the Computing Center were announced last week by Dr. Werner Neuse, Director of the Center. The Computing Center, which is located in the basement of the Science Library, has undergone a $2.5 million expansion and is now open to all students and faculty. The new staff members will be working on a variety of projects, including the development of new software and the enhancement of existing systems.

Dr. Neuse also announced the appointment of Mr. Peter Barbagelata, Frank Brown, and Mr. Humphrey to the staff of the Computing Center. These three individuals will be responsible for the development of new software and the enhancement of existing systems.

Peace Corps Announces Test Dates

The Peace Corps has announced the following test dates for the upcoming fall recruitment:

- September 24, 1966
- October 1, 1966
- October 22, 1966

Applications are due by September 15, 1966. For more information, please contact the Office of Student Life.

Students Attend Science Conference

Several students from the University attended the Eastern College Science Conference, held at the University of Rhode Island. The conference was attended by students and faculty members from the University of Rhode Island, the University of Connecticut, and the University of Massachusetts. The students and faculty members were able to attend the conference due to the support of the University of Rhode Island.

German Lecture

A German lecture will be held today at 2:00 p.m. in the Uris Auditorium. The lecture, which is titled "The Importance of the German Language," will be given by Dr. Werner Neuse, Director of the Computing Center. The lecture will be open to all students and faculty members.

Tax Committee Investigation

Central Council empowered the Student Tax Committee "to study the athletic tax -- its means of financing; its budget, the other methods of financing the athletic tax" at its meeting before March first.

This investigation of athletic tax and its working has been called for by many people in recent years. The reason for this is the erosions of the machinery which determines how much of the student tax will be spent on athletic activities.

Some of these financial practices have been criticized but nothing has come of it because the Administration has all power over the athletic tax. This is the first time that student government has attempted to exert itself over the matter.

We would like to see the Student Tax Committee make a thorough (as much as possible) investigation of the tax into details, to sound light on how the money is spent.

Also, we feel the committee should look into the athletic surplus which we are told is over $100,000. If the Athletic Department is able to acquire a surplus this high at the present rate of taxation, we feel that athletic tax should be reduced. This reduction would allow Central Council to raise student tax in amounts as the valuation without affecting the total amount of the Student Assessment Fee.

This officially solves the problem of the voluntary student tax and would increase the scope of student activities. We feel these activities should be given serious consideration.

CAMPUS COMMENT

by James C. Bergeron
A statement about the philosophy of the student tax committee: "We finance by as much as possible a program of baseball and basketball." The committee's major concern is athletics, which is vital to the University, the Student Tax Committee's mandate. We feel the committee should look into the present tax and attempt to shed some light on how the money athletic tax will be spent.

**A Ray View of Sports**

By Ray McCull

It has often been said that there's no such thing as a bad football game. We accept this with a certain amount of reservation, for while many games provide no entertainment whatsoever, they offer some light on the value of the neighborhood football team. The coaching of the neighborhood team that has to fill only five positions: a quarterback, three linemen, two ends. A neighborhood team should have at least three extra linemen, a receiver, a kicker, a punter, and a couple of halfbacks who are still in school sports as well. A few injuries, coach Burlingame will be scanning the board for help.

We are totally sympathetic toward the neighborhood team in its effort to win. The neighborhoods are filled with heroes. Every win the team achieves is indeed a credit to the desire of the Neighborhood.

But over a season with twenty games crowded into eight weeks, a team with only three reserves on hand is in deep trouble right off the bat. Punch-hitting will be non-existent, and you can imagine the poor pitcher who is being about clubbed around the park, fully aware of the fact that he is the last remaining pitcher who can hit. Holy earned-run-average!

This year's team is comprised of several talented players who form a small, yet solid, nucleus for the Danes. Pep Pizzillo, Jay Moore, Andy Christian, Bill Higgin, and Jim Nase were important parts of last year's team that enjoyed a mildly successful season. Coupled with certain standard members of last year's fresh team, the Danes do have a fine starting team going for them, but that's all.

With over thirty men out for coach Keith Munsey's fresh team, we do not expect this lack of depth to continue for long. But that's at least a season away.

This afternoon's game with Oswego and tomorrow's game with Maritime Academy will provide a challenging test. Even if we lose, the Danes will have a fine starting team showing up for the Danes to fill all five positions.

Still looking for its first win of the season, Albany State's Great Dane baseball team opens at home today against Oswego State (9:00 p.m.) and meets Savannah State tomorrow (12:00 p.m.). Despite the current record of 6-4, Coach Burlingame's team shows great promise for the coming year. The four losses were to John Jay College (12-3), Maritime Post (12-8), and C.W. Post (11-2), allowing only one run to the Danes. The Savannah State game is expected to be close, but the Danes are favored to win. The game is scheduled for 12:00 p.m., with the results expected to be out by 3:00 p.m. However, the Savannah State game is expected to be close, with the Danes favored to win.
