Majority Frown On Idea, News’ Symposium Shows

It is in line with the idea that a good health education can be developed at the college, and that the college should be a leader in the development of such an education. It is understood that the college will be a leader in the development of such an education.

When asked what courses in health education at the college will be taught, Dr. Sullivan brought out the point that the courses are not in health education but in the appreciation of art; a science of cultural background, Dr. Sullivan explained.

The following judges will decide the results of the move meet:

"A NIGHT IN PARIS" TO COME TO STATE

Home Economics Department Will Present Fashion Show Thursday

A short assemblage of television fashions, is promised Thursday night in the gymnasium of Hasley Hall by the home economics department, according to Miss Van Allen, 21, general chairman.

It is the plan of the department each year to have some project in which every student and faculty member can take part, according to Miss Van Allen. For the last two years the project has resulted in imaginary trips to foreign places. In 1927 the voyage was to Italy and last year to Holland.

The entertainment, besides the fashion show, includes dancing. Refreshments will be served by waitresses in Flemington Hall.

Every student in the home economics department is serving on a committee. The chairman of the committees, as announced by Miss Van Allen today, are: entertainment, Wansett Westervelt, 20; refreshments, Barbara Millford, 20; decorations, Josephine Walter, 20; registration, Florence Marx, 19; publicity, Louise Weatherford, 21; music, Mildred Wilson, 21; advertising, Elizabeth Radiation, 21; hall cleanup. 1. Tickets are 25 cents.

QUESTION BOOK EDITED FOR EDUCATION CLASS

Professor Stinard’s Hobby Is Collecting Old Clocks;
All The Repairs That Have To Be Made, He Makes

By Almira Roussak, 21

Professor Jesse F. Stinard spends much of his spare time collecting old clocks and furniture, and therefore has his hands full. At last, so far as his eight-year old daughter, Mary Margaret, is concerned, he is a little too behind his work. Mrs. Stinard is knowledgeable in antiques.

A visit to Professor Stinard’s home is an education in itself. There are clocks and cabinets in every room—clocks, grandfather clocks, hall clocks, clocks of high and low degree; tinsel everywhere that room can possibly be found to support them. One of the clocks, however, is shines with the idea of filling space, for each one is beautiful and helps to make the room in which it is charming.

The clocks are all antiques, as is much of the furniture in the house. Farmsmores such as Sheraton, Hepplewhite, and Chippendale go with almost every article of furnishing. Professor Stinard, however, goes further than the ordinary antique collector for his furniture makers or craftsmen. Every article of the Stinard parlors has been done by hand, with no machine, and with the simple tools and materials of the olden days.

Students Complete Shop

In the problem of the music room, Professor Stinard worked with care. There are bookcases of woods and patterns, and polished and rolled clock cases and tinsel pieces of furniture, that are forty or fifty complete sets of tools, besides the usual saws, drill, and brass, as the works of the antique clocks are made.
