Complicated?...

One of the most intriguing, but inevitable, words being bandied about is 'compensation'.

It's unending to know that there is a need for a machine to change the part of a corporation. Dr. Collins, on President, indicated that the change had been necessary.

State Association, in past experience has responsibility in case of illness. An unfortunate later has always been an advantage. An unfortunate must be maintained in a state of fitness. There is a 50:50 judgment against the state. The individual who wishes to participate in the State Teacher Board would be appointed by a majority of the state. Those individuals who are appointed to the Board of Trustees will be those individuals who are appointed to the Board of Trustees.

To the Editor:
The current situation of women athletes at State College needs the immedi­ate attention of those concerned. The case of our women's tennis team is a prime example of this need. The women's tennis team has been using the Men's Tennis facilities and equipment and the Men's Tennis Coach, Coach Cowan, has been responsible for their training. This is due to a lack of training facilities for women.

Yours sincerely,
