May Drive for Student Dormitories

NEW YORK STATE COLLEGE FOR TEACHERS
ESTABLISHED BY THE CLAS OF 1818

ALBANY, N. Y., MAY 8, 1922 $3.00 PER YEAR

STATE ACCEPTED

State College was accepted as an approved college by the American Universities, at a meeting held at the University of Missouri, on November 10, 1921. The Association of American Universities, consisting of about twenty of the leading institutions in the country, establishes a list of approved colleges and universities for the purpose of admission to graduate schools.

The approved list has assumed large and growing importance in all respects. The Association of Collegiate Men in Landscape A. Of a state is the administrator to membership. Phi Beta Kappa is made up of a standard, and the Pan-Hellenic and Interfraternity Conventions are guided by it.

The approval of State College by this Association is a great compliment to the high standing of the institution, and will give State College graduates and undergraduates an unquestionable standing in all intercollegiate relationships.

INFIRMARY PRIVILEGES

State College dormitories 1921-22 added to their annual disbursements $5.50. In return for this fund each student received a little pink ticket which was a guarantee of proper care during illness. For on the ticket those tragic words were printed: 'The student whose name appears here is entitled to infirmary privileges.'

The system is largely the result of the united efforts of the college physicians, hospital staff, and student body. According to the system each student takes two tickets which are registered as the infirmary tax. Every student, whether an Alumnus or not, is entitled to it. In the second year of the system of the infirmary, physicians, providing jobs on the hospital staff, decided to make the system permanent.

Obviously a person cannot wait until the expiration of the period for collection, and will give Slate College graduates and undergraduates an unquestioned standing in all intercollegiate relationships.

MEN'S ASSOCIATION

With the new year 1922 the men of college felt the need of a real club of their own and by themselves. So the incoming sophomore class got together and formed the State College Men's Association. The first task for all college men in the history of State College is to get together and form a club. This club meets every other Tuesday evening for a business meeting and a good time. As the good time part of the evening represents the true fellowships of the group, it is much to be desired that every man should make the trip to the meeting.

MUSIC ASSOCIATION

With the Music Club as its nucleus, a new college Music Association was formed early last fall. So we will sing as we have sung through the years of the old school, not by the old school, not by the old school but by the new school. The club meets every other Tuesday evening for a business meeting and a good time. As the good time part of the evening represents the true fellowships of the club, it is a time of relaxation.

The club meetings are held on Tuesday evenings in the Music Hall of the college, and are open to any student who wishes to attend. The meetings are held from 7:30 to 9:30 p.m. and are followed by a social hour.

The Association gives two concerts each year, one in April and one in November. These concerts are open to the public and are held in the Music Hall of the college. The concerts feature the college orchestra, chorus, and soloists.

The Association also sponsors a number of smaller events throughout the year, such as recitals, master classes, and private lessons. These events are open to all students and are held in various locations around the campus.

The constitution of the student association is as follows:

Article I

Name
This Association shall be called the State College Student Association.

Article II

Membership
All regular students of the New York State College shall be members of this Association.

Article IV

Finances
All the expenses of the Association shall be paid by the members of the Association. The constitution of the Association is as follows:

Section 1. The constitution shall be in force for the current academic year and shall continue in force for the next academic year unless amended by a majority vote of the members of the Association at a regularly called meeting.

Section 2. The officers of the Association shall be elected by the members of the Association at the annual meeting.

(1) President
(2) Vice-President
(3) Secretary
(Continued on page 6)
State College News

State College is located on Robin Avenues. The College is about a mile and a half from Union Station, and you will not be disappointed in the accommodations. If you get discouraged, remember that courses have been offered in Latin, Chemistry, and Physics. The Latin courses are particularly adapted to the teaching of teachers in high school. They deal with problems of subject matter and method from the first year Latin thru Virgil. The Science courses offered aim to help all students of our college and of other institutions who have no science and have had little work in the other two. They will be especially beneficial to those who are new majors in science, in that much of the required work can be completed during the Summer Session.

Summer Session of 1921 was especially successful in many respects. The enrollment, consisting of college students, college graduates, normal school students, graduates of principal, high school teachers, and elementary school teachers, exceeded 800. This number shows a large increase over the previous year's registration. It also material evidence of the recognition of the value of summer sessions to teachers and undergraduates and of the appreciation of the College for this experiment. We expect this year that the number will be still further increased and that even more loyalty and spirit of service will be brought to the college under the Summer Session of 1922 as the most successful and the most satisfactory in the history of the College.

A circular containing preliminary announcement and application forms concerning the Summer Session has been issued and a complete bulletin of detailed information will be ready for distribution very soon. Any further particulars may be secured from the Director, Prof. W. F. C. Decker, State College for Teachers, Albany, N. Y.

DEGREES

This college offers to those students who meet the requirements for each of the four-four-year courses leading to the degree of Bachelor of Arts or Bachelor of Science. These cover the studies ordinarily pursued in colleges of Liberal Arts and Science, together with certain requirements in pedagogical subjects and a course in educational practice teaching. There are four years of all college work, and the student who undertakes this degree should not undertake too much outside work to allow the time of course onto the course. An employment bureau, to assist students in finding remunerative work to aid in defraying their expenses, is maintained in the offices of the Dean of Women. Students may be employed there free of charge and receive all possible care in securing work. All students are recommended to undertake some outside work to the extent of 20 hours per week. The principal of the college shall certify that the student has completed the course in the proper number of hours.

Boarding Places

Room and Board are available for $17 and upward per week, exclusive of washing. Furnished rooms without board are available for $12 per week. Boarding may be secured at rates varying from $2.50 upward per week for each person. Students are permitted to live only in boarding and parlor rooms which have the approval of the Dean of Women, and no change may be made without his advice. Correspondence concerning the rooming and boarding places which may be secured at rates varying from $2.50 upward per week for each person. Students are permitted to live only in boarding and parlor rooms which have the approval of the Dean of Women, and no change may be made without his advice.

TO 1926

The class of 1926 State College extends a very sincere welcome. You are sure to like Slate very much—both the city and the College. We hope you will be interested enough to come back a second year. We feel like fighting for Slate, for the year 1926 is a very fine one. We have already made a host of friends and we know others are sure to like Slate very much—both the city and the College. The work is good, and the teachers are friendly. We feel like fighting, there are always soph­

STATE COLLEGE NEWS MAY 8, 1922

FRESHMAN ADVISORS

One of the recent State College insti­
tutions which deserves particular note is the Freshman advisor system. This is an arrangement by which the younger five classes in the college are divided into small groups, and a member of the fac­ulty is assigned to each group as a special guardian. This faculty member acts as a big brother or sister, as the case may be, and he or she will watch over the welfare of his or her group and answer any questions or straighten out any difficulties which may arise in any branch of study. The adviso­rability of such an arrangement can readily be seen.

The freshman is made to feel at home in, but he is not nearly as much in his place as he is at first. He has just arrived by train, and you will not be disappointed in the accommodations. The College is about a mile and a half from Union Station, and you will not be disappointed in the accommodations. If you get discouraged, remember that courses have been offered in Latin, Chemistry, and Physics. The Latin courses are particularly adapted to the teaching of teachers in high school. They deal with problems of subject matter and method from the first year Latin thru Virgil. The Science courses offered aim to help all students of our college and of other institutions who have no science and have had little work in the other two. SOPHOMORES AND FRATERNITIES

State College has seven sororities and three fraternities for the promotion of good fellowship among the students. They contribute to the social life of the college; the sororities by holding an annual ritual, electing and initiating new members, and social events; the fraternities by holding annual dances, the sophomore hospitality teas and social events. The official organization of the college is the Interfraternity Council, which is a representative body of all the fraternities in the College.

The Sororities

Delta Omega, 1939; president, Catherine Deery, '97, N. Y. Ave.
Eta Phi, 1936; president, Margaret K. Way, '10, 20 S. Ave.
Kappa Delta, '09; president, Louise Petersen, '12, 20 S. Ave.
Pi Gamma, '99; president, Ruth Flood, '00, 21 S. Lake Ave.

COLLEGE PUBLICATIONS

The publications which the State College students have published are the "Newspaper," the "Weekly," the "Quarterly," and the "Annual." Of these the "Newspaper" is perhaps the most important, as it is the official organ of the college, and is published weekly. The "Weekly" is published monthly, and contains news of the college and its activities. The "Quarterly" is published four times a year, and contains articles on various subjects, including the history of the college, the activities of the students, and the events of the college year. The "Annual" is published once a year, and contains a detailed account of the college year, including the activities of the students, the events of the college, and the progress of the college.

The "Newspaper" is published weekly throughout the college year, and is distributed to the students and faculty by the business manager, a position which is filled by an editor-in-chief, a managing editor, a business manager, a subscription manager, an assistant business manager, and business editors. The "Weekly" is published monthly, and contains news of the college and its activities. The "Quarterly" is published four times a year, and contains articles on various subjects, including the history of the college, the activities of the students, and the events of the college year. The "Annual" is published once a year, and contains a detailed account of the college year, including the activities of the students, the events of the college, and the progress of the college.

MOVING-UP DAY

Moving-up Day is the largest annual "All College" Day which occurs in May. The entire day is filled with activities relating to the promotion of student activities, and is a teaching proposition.

SOCIAL ACTIVITIES

Social activities are a major part of the college year, and are held at the college throughout the year. These activities include dances, banquets, picnics, and other social events. The college has three sororities and five fraternities, which are responsible for organizing these events. The fraternities and sororities are responsible for planning and organizing these events, and are also responsible for raising money to pay for them. The college also has a number of clubs, which are responsible for organizing social events as well. These clubs include the Dramatic Club, the Music Club, the Photography Club, and the Debate Club. These clubs are responsible for organizing social events, as well as providing opportunities for students to participate in social activities.
The Student Association will hold its regular meetings on Tuesdays at 7:30 p.m. in room 208 of the Science Building.

The Association will discuss the following topics:

1. The officers of the Association will report on their activities since the last meeting.
2. The Finance Committee will present its report on the financial status of the Association.
3. The Executive Board will discuss the proposed amendment to the Constitution.
4. The Association will elect new members to the Executive Board.

The meeting will conclude with a social gathering in the student lounge.

The Student Association thanks all members for their participation and support.
