Let's Philosophize

As the Seniors leave for higher goals, their cloak of disguise is a wavy fleeting thing. This is your homely philosopher signing off for now, with good luck to all who remain.

This issue is a matter of privilege to the Student Body. It is not necessary to return it. It is being taken to assure payment of any debts which may occur due to any publications."
The Prime staff is faced with a financial problem similar to the one which most students are facing. The $520 the staff will have to spend the first semester is money appropriated for the second edition of the Freshman Handbook. The amount of money available for this purpose has been cut by the advertising agent or be liable for any financial losses that might result from this cut. As a result of this, all students must be aware of the importance of the ad budget.

The problem is further complicated by the fact that the Freshman Handbook is a basic, required course in the college's curriculum. Without it, the students will have difficulty in completing their homework and assignments. The book is also used as a reference by other courses. Without it, the students will have to rely on other sources, which may be less reliable and less accurate.

The Prime staff is working hard to ensure that the Freshman Handbook is available to all students. They are urging all students to support the ad budget and to contribute to the Freshman Handbook Fund. They believe that the Freshman Handbook is an essential part of the college's curriculum and that it should be available to all students.

Dear Editor:

There seems to be a bad mix up surrounding the enrollment and its impact. The basketball ticketing system is quite confusing. The system does not account for the number of people who may be interested in attending the game. Also, there seems to be a lack of communication between the different departments involved in ticketing. For example, it is unclear whether tickets will be available at the door on the night of the game or if they need to be purchased in advance. It would be helpful if this information could be clarified.

Sincerely,

WHY... I smoke Chesterfield

(From a series of statements by prominent tobacco partiers)

"I think Chesterfield is a good-smoking cigarette and I like them. They have a good, ripe-tobacco taste and they're mild."

"Nobody pays a higher price to get good-smoking tobacco than Chesterfield. They keep sweet, ripe tobacco. Looks like a gold dollar in the barn."
