Whose Fault Is It?

The letter to the editor this week mentioned the problem of students parking in the faculty carsport. This is certainly not the students' fault. As far as the faculty is concerned, the carsport is the one place where they can park. Therefore, the faculty carsport is the fault of the faculty, not the students, because they are the ones who make the decision to use it.

Communications

The editors of the student newspaper are concerned about the lack of interest in student government. They believe that the students are not interested in the issues being discussed.
