CAMSJPAY MAY GET 2 TENNIS COURTS

Baas Will Be on Washington Avenue by the Provided Plans

Tennis courts may be laid out on the State college campus on the Washington avenue and street streets, according to President A. B.Bradsher. This will be part of a program of campus utilization which includes establishment of an athletic field on the Western avenue campus, if present plans materialize.

One of the tennis courts will be on Olds street, where a burm tree now stands. This tree, a statue of the school, is valued only by expert attention. It has rooted and it is thought that it cannot be saved. The other court site is reserved and the ground rolled and turned a regulation tennis court could be placed there, Dr. Bradsher said.

The tennis court project will be constructed on the site of the present courts. This court is now useless because of the wide path which has been laid down it can not be used any more. The clubs would like to use the same site but it is not possible for the present.

The absence of a college from the treasurers, however, is expected.

Court May Be Found on

On the Washington avenue side of the campus there is room for another court. On this side there is room for football, soccer, and lacrosse fields. The unfinished portion of the school will provide upon the erection of a project. This field will be smaller than regulation size, but suitable for tennis and lacrosse and distance two and a half miles at an angle of a regulation court can be played.

Dr. Bradsher believes, if the court is found, that the tennis will be well suited to the school and will have a perfect home for the existing teams.
