Find Us After Class

It was very nice when some seniors higher-up let us have a student parking lot. It was even nicer when he let everyone park there. The only problem was that others besides State College students park there and the lot now is so humpy and rutted that one must use it at the risk of his car's suspension.

The solution to the problem, that of outsiders parking there, is to give window stamps to students and have some one check them.

The latter is more serious. The exit is so deeply rutted that most people leave by the entrance. This helps to slow the already overly trafficked Western Avenue stretch front of Draper Hall. Those who do use the normal exit, do so taking the chance of seriously damaging the underlying structure of their cars.

Is there no organization on campus that will take care of the problems that will inevitably come up concerning our conversation lot? And what happened to our convenience higher-up?

Administrative Restrictions

A difficult situation came up this week when a State College fraternity was questioned and suspended by SPI, for a party it had operated in attempting to find the root of the problem, we have to come to the conclusion that a good part of the reason for the entire situation may be in the philosophy of the college toward fraternities.

Fraternities on this campus are viewed on a rather different level than those on most campuses. For a school president of the size of the State College body, one is already lacking in any social independence. The strict control of the college is quite logical. This was shown in a statement published by the Daily Princetonian. A fraternity cannot agree with the policy of treating the student as a mature person capable of decision. As a result of so many restrictions, incidents such as last Saturday's occur and are agreed with the policy of treating the student as a mature person capable of decision. The strict curriculum of the college and the emphasis on work to the exclusion of social activities is primarily one of the major causes of the problems that are facing the college at this time. It is hoped that the college will reconsider its policies and bring in new students who will not feel the need to belong to a fraternity in order to get into the college.

SUNY Publishes . . .

A major step in the progress of the State University of New York was taken recently with the publication of Bernard Hopper's monograph, "The Role of the University in Society." The book is one of the most comprehensive surveys of the role of the university in society that has ever been written. It is a valuable contribution to the understanding of the place of the university in society and is recommended for all libraries.

**Former State Student Retires**

As Very Popular Professor

Agnes E. Putzer, Professor of English, is retiring this June from the faculty of State College for Pennsylvania. Her retirement brings to a close forty years of distinguished service in its classrooms.

Assignment: to interview Mrs. Putzer.

Purpose: to put into 80 lines of print the story of a great lady.

Evaluation: impossible!

In the Class of 1916, there was a music major planned to go to New York for a year of theater study and then return to NYSCT as a member of the faculty. That senior did just this, despite an offer by the American Academy of Dramatic Art of a scholarship for further study. Why? "I wanted to teach." She had never taught but knew she wanted to teach.

Response:

Mrs. Putzer has been a role model for generations of students. Her dedication to her craft and her students continues to inspire those around her. Her legacy lives on through the many lives she has touched.

Affairs Of State

By KEVIN McSHANE

Here at State there seems to be an attitude of trusting religion consciously, as though it were bound to possess serious consideration by college students. (Please don’t disagree with me yet.) I have gotten this impression from teachers as well as from students. In class some of my instructors have implied that religions are merely artifacts which produce, and reflect generations have devised as an explanation for the generation against opposition which they were not equipped to expect. I have heard many students say things like, "Well, my parents still go to Church and all those..." and then go on to imply that they have out-grown that stage. Religious jokes, take-off on the slick jokes, are also common here. They can be heard in bars and classrooms, and, if anything, they seem to mask an insecurity on the part of those who tell them and those who laugh. Of course, many students here belong to the religious organizations which participate, on a college-wide basis, in the activities of their various faiths. There is even a traditional State College Stunt held here although I suspect that many of us have never heard of it, much less taken part in it.

"We are the soldiers of our nation’s future," may be a cliché here, but, like many clichés, it is true. If we are to wield such influence over young minds, we are hoping that they may reflect only a small minority of the whole student body could participate. The impressions I have received may reflect only a small minority...
