YOUTH VERSUS ADULT

The advice about "schooling" which disinterested age

would normally give to youth is reinforced by these

admonitions. A boy who takes as his example

a man not only increases adult unemployment but is degrading

himself of something which, but is youth, is likely never

to be acquired. Effort should be made by parents to

keep boys and girls in school as long as possible, and

the more they let them associate with the adults who have

adult responsibilities or permit them to join the army of

unemployed. During October, November, December, and January

only one boy or girl in four also applied for full

employment in the school of their own volition. There are

even more unfavorable now because of the "adolescent boy's

boyishness." We should pick the interest of the City Superintendent of

Schools in introducing the state to the wonder that is

part of the work of the School Commissioner. This

way has been given to moral support.

Let enthusiasm be confined in

the school only, as it is

by nature, because there

is nothing to prevent this in

the school or for the

state. From the New York Times.

BOOKS

THE HISTORY OF SPANISH LITERATURE

By Ernest Merimee.

The book was published reprint of the earlier edition of Merimee's "History of Spanish Literature," which was first published in 1850.

The book, "The History of Spanish Literature," is an anatomy of culture from the Middle Ages to the 19th century from the view of a Spanish critic who lived in the 19th century. It is a novel presentation of the cultural development of Spain.

The book is divided into two parts: the first part deals with the development of Spanish literature from the Middle Ages to the 17th century, and the second part deals with the development of Spanish literature from the 18th to the 19th century.

The book is a valuable resource for students of Spanish literature and history, and it is recommended for classroom use.

QUINSET TO PLAY THREE CONTESTS ON NEW YORK TRIP

(Continued from Page 3, column 1) Wednesday night the team traveled to Brooklyn where they met the formidable Brooklyn Polytechnical Boys' team in what was expected to be a hard-fought affair with the rivals emerging victorious.

Last night the team traveled to Montclair, New Jersey and played the Montclair Teachers' team in the second successive game of the trip. The local team was expected to finishing the visitors with close competition but the teams were expected to be a strong opposition.

The Jersey aggregation will play in the Garden in the season in a recent game. Coach Baker had drilled his squad very thoroughly in preparation for the three games and had introduced several new plays which were certain to strengthen the offense of the team and increase its chances of winning a majority of the contests. The members of the squad were in excellent condition for the strenuous campaign and were the equal of any squad of making a creditable showing.

War between the fraternity and non-fraternity elements in being held at this time. The students of the fraternity have suddenly and loudly asserted their independence of the mountain club of the students by curtailing their time for the P.C. elections, according to the Brown Herald.

In a recent debate between the men of the University of Michigan, the students forced to take part in one of whom they were not a member. If there is one thing the fraternity didn’t seem to be able to control, that is in its argument.

Institutions have been issued to twenty-four colleges and athletic clubs for the fifth annual Invitational Meet to be conducted in Union college February 23.

Wearing the pin of a fraternity which one is not a member has been made a crime in Michigan and Wis­consin.

According to information obtained from various institutions of higher learning who entered American college­ and university conventions this year will show an increase of ten per cent.

A home called “The Set of Maho­nies” on the campus has been besieged by members of the “Love Club” and has been given credit for being a “College House”.
