Common-Sense

All the things are as you are. So is the world, the universe, the galaxy, the solar system... the world is made up of the same things, the same elements, the same building blocks... the world is made up of the same things, the same building blocks. It's the same in every sense... the same in every sense... the same in every sense...

Confusion...

Most of us seem to be a bit mixed up about the things we do. We're not sure what we believe, we're not sure what we're doing, we're not sure what we're getting out of it. We're not sure what we're getting out of it. We're not sure what we're getting out of it.
