INTERPRETATION OF "THE SHADOW"

The title "THE SHADOW" is a play on words. It can refer to the dark, shadowy side of life or the metaphorical shadow we carry within us. It may also allude to the Greek myth of Oedipus, who unknowingly fulfilled a prophecy that he would murder his father and marry his mother. This could be interpreted as a metaphor for the shadow we carry within ourselves, which we may not be aware of until it reveals itself in our actions. The double entendre of "THE SHADOW" can be seen as a way of acknowledging the darkness in ourselves, which is necessary for growth and self-reflection. The play invites the audience to explore their own shadows and come to terms with their darker aspects.
of all things. His is a fated glory, a lost kingdom, and he looks forward to the day when he will be reunited with the beloved of his youth. His life's mission is to find the lost love of his life and to bring them back together.

The Shadow is a representation of his past actions and the consequences they brought. He is determined to make amends for his past mistakes and to live a better life. His journey continues, as he seeks to find the missing piece of his heart.

Is there a way to bring back the love of his life? Will he be able to reconcile with the past and move forward with his new love? Only time will tell.
the block, but will extend out ten feet west of the adjoining building in order to have a south entrance.

While excavations are being made for these buildings it was considered advisable that the 12 feet of rock on the adjoining plots for buildings that are to follow this. This will prevent danger to the new buildings at a later date. The roof extension will consist of a single-span structure extending from Avenue A to Avenue B.

The Cooper, Macdonald and Buell dormitories will each contain six suites of three rooms, each to accommodate two students. The Rockling dorm will be divided into single and double rooms and will accommodate 18 students. In all 54 students will be accommodated, making a total of nearly 200 students to be housed on the campus.

At this time construction is being begun on the arrival of bids, expected at the end of this month. Awards will be made if they do not exceed the amount set aside for this use by the trustees. It is expected that the buildings will be ready for occupancy in the Spring of 1923.
