Council's Failure

The members of Central Council felt that the faith of the student body had been betrayed. An attempt to proceed for public utility and student welfare was defeated, as was the case of the SA problem. The decision of the election is a disaster for those who believed in the possibility of meaningful change for the educational system.

The aim at removing the symptoms of the decay of the educational system has been presented to the students. In spite of the many problems facing them, if the students do not take the opportunity to make a change, we will see a recurrence of the problems. The intelligent vote was amended and affected by the present board of administrators. The overwhelming majority of students, if they have actually proven themselves worthy of the title by which they nominated themselves.

The democracy of campus can not be pointed. While it does, in the medium of the international and domestic problems, it seems to be in lack of communication with the student body. Do you care?

Campus Unrest

After anPennsylvania State University students have started the second year at the University. The problem of the students is that they feel that the existing conditions are bad and that they are no development. The belief is a good place where you really are good and a good college, you'll make a lot of money when you graduate because we made so much.

Send a Mouse to College

"Send a Mouse to College" is a project undertaken by the Inter-Sorority Council and the University. The project is designed to help the American Cancer Society meet its goal of $25,000. The goal is to send 1,000 mice to college, where they can be used in cancer research.

The University will accept $25 for each mouse. The mice will be sent to the laboratory at the State University of New York at Albany, where they will be used in cancer research.

Courses are offered on a credit basis and are available to all students. Enrollment in this program will receive instruction in cancer research and help relieve the burden of cancer in our society.

Does it hurt to chill beer twice?

Not that you'd want to. Sometimes it just happens... like when you bring home a couple of cold 6-packs and forget to put them in the fridge. Does re-chilling go up the taste or flatten the flavor?

Relax. You don't have to worry.

ON CINEMA

By Michael Nolin

The idea of having a novel page on the radio is never a bad idea. But it's never more so than now in "The Coffee House Circuit." This is a romantic comedy about a young man who falls in love with a beautiful woman, only to lose her when she discovers the truth about his past. The story is told through a series of monologues, each one narrated by a different character, and it's all very well done.

The performances are by the finest actors of all times. They bring life to their roles and make you care about the characters. The script is clever and it's all very well done.

Do you want to know a secret? It's called "The Coffee House Circuit." It's on the radio and it's available now. Just call 436-7470 and ask for the Thursday night show.

Protest at Albany?

To the Editor:

In response to the recent TERRORS for a day announcement in the Albany Student Press, I feel compelled to address the reader.

First, I believe it is important to acknowledge the number of incidents that have occurred in recent years. I have witnessed firsthand the impact of these events on the Albany community.

Second, I believe it is important to recognize the underlying causes of these incidents. I believe that the primary cause is a lack of communication and understanding. I believe that if we could engage in open and honest conversations, we could begin to address these issues.

I believe that it is important to take action to prevent future incidents. I believe that we should implement stricter security measures, increase police presence, and develop a comprehensive response plan.

I believe that it is important to support one another in these challenging times. I believe that we should come together as a community to address these issues and work towards a safer future.

Sincerely,

Taxing Thought

Tax is no longer a subject of debate among the students. The so-called "educational tax" has been passed, and the average student must now pay a certain amount of money to the state for the purpose of providing educational facilities. This tax is a necessary evil, and it is better that it should be paid now than to have it imposed at a later date.

Russian Students

There is a great deal of interest in the Russian students who are now studying in the United States. They are a group of bright and ambitious young people who are determined to make the best of their opportunities.

True Representation?

To the Editors:

I was interested to read the recent article in The Albany Student Press about the system of representation in the Student Assembly. I feel that the system is unfair and that it does not give the students a true representation of their opinions.

To the Editors:

I am writing to express my concern about the current state of the Student Assembly. I feel that it is not functioning properly and that it is not adequately representing the students.

Assembly to take action this week on grant ban

The Student Assembly is scheduled to take action this week on the grant ban proposal. The assembly is expected to vote on the proposal during its meeting on Monday night.

True Representation?

To the Editors:

I feel that the current system of representation in the Student Assembly is not working properly. I think that it is time for a change in the way that the assembly works.
