It is Better To Give

To the Students:
The Campus Chest drive is starting Monday. What are YOU going to do about it? Will you be a spirit winner?

One concentrated drive will make possible larger contributions to worthy causes. Your contributions will be a source of comfort to those who suffer for a few days. Please give generously and show some pride in the fact that we are making a contribution, however small, to a worthwhile cause.

War Emergency Causes
Decrease in Teaching Ranks

A recent and significant survey conducted by the National Educators Association has revealed that in the last 20 years the number of teachers employed in the United States has decreased by about 20 percent. The report notes that this decrease is largely due to the war emergency, which has led to a widespread reduction in the number of teachers employed in the fields of education. The report further indicates that the decrease in teacher ranks has had a significant impact on the quality of education in the country. The report recommends that steps be taken to address this issue in order to ensure that students receive a high-quality education in the future.
