Frosh Expect to Mangle Foe; Sophs Plan on Frosh Massacre

By Roland and Melinda

We are somewhat relieved by the knowledge that the Frosh girls have defeated Bohen, 6-2, 6-1.

Notes and Half-Notes

The Frosh flag is not "up to date." There are no drawers on the flags, which are put out by both classes. Before this year the frosh made the flag and the sophomores carried on, but this year the two classes have a joint flag. The first flag had the Frosh logo on it, but the second one was felt to be too strongly emphasized. It is hoped that the flag will be changed to show the participation of both classes. The Frosh flag is to be put out by the frosh and the Soph flag by the sophomores.

The Frosh are looking for candidates of their own sex out of sheer jealousy. The Frosh have a lot of interest in the election process, and they are working hard to ensure that their candidates are successful.

With its sparse male membership, the freshman and Sophomore years, there has been increased interest in the careers of individual members. Only too strongly emphasized. Its results will determine who are the candidates for the class of '44. This year's candidates are assumed to be more serious than last year's, and the Frosh are working hard to prove to them that without organization nothing will be accomplished.

The Frosh are working hard to prove to them that without organization nothing will be accomplished. Their enthusiasm is infectious, and they are determined to do their best in the election process.

Verdant Voting

The first and second groups were not interested in school politics and their lack of interest was reflected in the results of the election. The third and fourth groups were more interested, but the results were not as favorable as expected. The fifth group was the most interested, and their enthusiasm was reflected in the results of the election.
