To Pull the Wool Or Not

By Ray Champlin

Both pulling the wool over the eyes and suggesting the "sheep" is missing have their positive features. Let us consider the wool pulling process. The economically weak, often to the extent of being in a fight for survival, are inundated with a free meal of wool. This, the assumption goes, will prevent their being overtaken by the waves of Business. Now, the telling of the story sounds reasonable. But let us take a closer look at it. The weak, often the underdogs, are as a rule the ones who pull the wool. They are the ones who are to be saved from the incursion of Business. But who is to say that these weak will not, in turn, pull the wool over the eyes of the strong? This is where the question arises. To pull the wool or not? The answer is clear. It is to pull the wool and not to be taken in by the weak. This is the only way to stay ahead.

Common-Stater

To Send To America

The Common-Stater is the official mouthpiece of the campus. It is the voice of the student body. Its purpose is to bring to the attention of the students the important issues of the day. It is also the place where the students can express their opinions. The Common-Stater is a forum for the students. It is the students' voice.

FOOD FOR THOUGHT

To the Editor,

We do not write these notes just to express our opinions. We write these notes to help others understand the importance of the issues we are discussing. We believe that the issues we are discussing are important, and we are writing these notes to help others understand why.

Yours truly,
