Albany Comeback Nips Cortland In Overtime

Seniors Playing In Final Home Game
Notch 20th Win Of The Year, 66-64

By Larry Batte

Albany has been in the habit of winning all year long. The Danes, 19-4 this season, didn't lose a game in the regular season, but they couldn't win the league title. However, they bring their game to the University Gym in style and finish the regular season on a high note, a win over Cortland, 66-64.

It was an overtime game, but it was hardly a struggle. The Danes outplayed the Red Dragons, and the victory gave them a 5-1 record in the East Division and a shot at the conference championship.

Repressive Legislation

M. A. Germain

The gasp heard by the approximately forty-five people who convened at the Student Association House was met with a series of muffled grunts and groans as nervous students were ushered out. The incident itself is not in dispute, but the atmosphere it evoked is profound. For most people, the event is best described as a psychic awakening to the reality of repressive legislation.

We are in the presence of our nation's governmental system, a system that is allegedly headed by a government, the individual that its actions define. This is not unlike the situation that faced a young women's rights activist who was arrested for speaking out against the Vietnam War. The activist, a member of the League of Women Voters, was carrying a sign that read, "End the War." The sign was later confiscated, and the activist was charged with disorderly conduct.

In this case, the action of the League of Women Voters was seen as an attempt to silence the activist's voice. This is a clear example of repressive legislation. In the case of the League of Women Voters, the arrest was seen as a way to silence the activist's message. The same thing could happen in our society if we are not careful.

In the case of the League of Women Voters, the activist's message was silenced. In our society, we must be vigilant to ensure that our voices are not silenced. This is a serious concern, and we must take action to prevent it from happening.

We must be aware of the dangers of repressive legislation. This is a real threat to our democracy. We must fight against it, and we must do it now. The League of Women Voters case is just one example of the dangers of repressive legislation. We must act now to prevent it from happening again.
