STUDENT CONFERENCE MEETS AT STATE COLLEGE

Delegates Hear Excellent Lectures

Student of several colleges throughout New York State were inspired and entertained during the past week-end by the meetings held under the auspices of the Student Volunteer Conference.

About 200 delegates attended the conference, coming from Cornell, Colgate, Hamilton, Rochester Institute, Rochester Teachers’ Seminary, Hamilton Teachers’ Seminary, Alfred University, Alfred Agricultural, Middlebury, Colgate, Wells, William Smith, Hobart and others. State delegates are: Esther Garman, Esther Fawcett, Lottie Veden, Helen Payne, Helen Cope and Hazel Hargis.

The delegates from the different colleges were met at the train and had an opportunity to display their pep and individuality on Friday evening. At the reception, the delegation became acquainted. There was music at the reception. The dance was accompanied by music and singing by the different delegations. The principal feature of the evening was a talk on ‘Russia’ by Ralph Harlow, who was a missionary in Turkey and spent a bit of time in France. Mr. Swartz acted as chairman.

Saturday morning Horus Guineas, a brilliant speaker, gave a convincing talk on “Russia.” The other speaker of the morning was Dr. John C. Williams, vice-president of

Totals 12 5 29

Score at half time—State, 14; Syracuse, 8. The meeting was opened by the President Bruhachcr, who spoke on the League of Nations. He used a bit of time in France. Mr. Swartz acted as chairman.

Event Takes Place To-morrow Evening

The Class of 1921 will have another opportunity to display its pep and individuality on Friday evening, February 28. They will hold a dance in the gymnasium. This hour will depend on the time of closing of the Hamilton—Syracuse game.

The committees are:

Alumnae and Refreshments—Alida Ballagh (Chairman), Helen Chase, Catharine Hall, Emma Hartzell, William Strain, Theophilus Hill, Marion Barry, Ralph Baker.

Decorations — Amy Clubley.

The entire hour of Student Assembly on Friday, Feb. 21, was given up to Professor Kirtland, who spoke on the League of Nations.

He began by telling of the complexity of causes in all cases, and he used for an example the act of getting water from the spout of a well. He extended the complexity of causes in all cases, and he used for an example the act of getting water from the spout of a well, showing the complications that made it possible. He applied this to the causes of the War, which were of two kinds, causes of condition and dynamic causes.

Considering the evening with the opposing teams are watched, the game promises excitement.

PROFESSOR KIRTLAND ADDRESSES STUDENT ASSEMBLY

The entire hour of Student Assembly on Friday, Feb. 21, was given up to Professor Kirtland, who spoke on the League of Nations.

He began by telling of the complexity of causes in all cases, and he used for an example the act of getting water from the spout of a well, showing the complications that made it possible. He applied this to the causes of the War, which were of two kinds, causes of condition and dynamic causes.

The principal causes of condition were: the great movements, the centralization of government, and the interlinking of peoples. The dynamic causes were the Austrian control of Serbia, poison by demonization, money lust, war against the trouble over Alsace-Lorraine, and the murder of an heir to the Austrian throne. To be free from war we must be free from causes. Many of these causes exist, as, for instance, suspicion, money lust, and that arms. The white of the causes mentioned do not

THE STATE COLLEGE NEWS
FEBRUARY 27, 1919

THE ACCIDENT GAME

A real treat to fans came Saturday night at the game between State and Massachusetts Apples. For the first time in our history State had to play an extra term of five minutes to decide the contest above a shoot-out after overtime. A more tense period is seldom seen. It was a real case of stiff stuff, but Ford and basket brought the purple and gold score to nineteen against eighteen as run up by two fouls on the Aggie side. Close sportsmanship pays in the end. State made large gains in the principles of clean play evidenced by her men in last week's games.

THE PHOTOGRAPHY LECTURES

The announcement in last week's "News" that Professor Kirkland would give a series of photography lectures was read by all of his devotees with great joy. To those who have been following his work as to listen to his delightful rambling on the art and the techniques of the most of these were a special treat. Everyone is known by the photograph, no one, however, who has been so fortunate as to listen to his delightful rambling on the art and the techniques of photography was read by all of his students in the Freshman class, and in his Fotoplastic course, the Freshmen, and help along the movement which we have started.

LETTERS AND STUDY ALONE

letters and study alone, but of no great advantage as the extra-curriculum lectures, concerts and talks which are held frequently in our auditorium. Last year's series of democracy lectures given by various members of our faculty, and this year's series on the peace conferences are examples of cultural advantages.

To the Freshmen and those upper-classmen who do not know Professor Kirkland intimately, we wish to state that after the Freshman lecture there is an addition to absolute material values which he will give, those who go will find a distinct pleasure in the personal contact and informal relationship with Mr. Kirkland.

FRESHMEN, THIS MEANS YOU!

Several weeks ago the "News" published an editorial on the seeming lack of respect shown by the student body as a whole to the speakers who address us in assembly on Friday mornings. However, things may have improved so that in other parts of the auditorium, the Freshman section seems to be growing every week. And to think, Freshmen, that in the beginning it was thought that we would "give a series of talks on the principles of clean play evidenced by the Freshmen, there was a large number of people who raised their hands, signing the idea that it will be a bore to come, but the present significance is great. The real significance of their visit is to one side that we cannot hear them, to show Professor Risley, and let us try to show them that.

The class in advanced cookery doesn't take much more time to be prepared than regular meals to the "Conventionitos." The brothers from Beta and Delta, Good, Clark, and Warne were entertained at the Practical Conference of last week, and Brothers Testa, Kudner, Chieney, and Jeepers were entertained at the first place on our campus. These others were missed by no part of the two hundred travelers who came to a new country for three days.

COLLEGE COURTESY

We've been terribly busy at College this past week and we couldn't work even if we didn't talk to our friends as for the week. But it does seem a shame when we become so indolent that we have no time for courtesy. The Sir Walter Raleigh courtesy, that force, that men and women should lay their coats around the halls for the girls to walk on, but just plain thoughtfulness for others. It doesn't take much more time to be considerate and not only makes a much more cheerful refrigerator atmosphere but it raises the standing of our college, and the respect of the world's thinkers. Of course we often have our half hour for lunch and there are a number of things to do before one's dinner and most of all it's so tiresome waiting in line. But how many of us consider the girl ahead? She may have even less time than we have, and she's at all in a hurry or retiring she's probably been pushed back a few times. However, what do we care? Let's wait here for a while. It will only give us up to Mary. Really, the cafeteria is a fine example of the survival of the fittest. It is the food that we will get through the line just as quickly if we stand in place or if we are unusually crowded and why not be allowed to step ahead. If we're polite we can ask, the other person naturally couldn't be so rude as to refuse.

Our library also seems to be a scene of frequent forgetfulness. Before we see the only place we have to study, some of the student body consider it a recreation room. It is very convenient to study in the quiet, comfortable atmosphere but it raises the standing of our college, and the respect of the world's thinkers. Of course we often have our half hour for lunch and there are a number of things to do before one's dinner and most of all it's so tiresome waiting in line. But how many of us consider the girl ahead? She may have even less time than we have, and she's at all in a hurry or retiring she's probably been pushed back a few times. However, what do we care? KAPPA NU NOTES

Magdalene Andrzej, 19, delightfully entered the bar as one of its sisters at her home in Coloma last Friday evening.

Jenie Schmeidler, 20, spent the past week-end at the home of her sister, Miss H. Mansfield, 21, whose theme was "Prizewinners of the Student Volunteer cafeteria," by Miss M. Williams (21), followed by a sacred solo, sung by Topping for the Y. W. C. A. work.

Mr. Stephen Pyle spoke for the Student Volunteer, spent the week-end at his home in Newburgh, if, now improved. Margarette Ritzer, 20, spent the past week-end in New York city.

DELTA OMEGA

Miss Gladys Gilkey and Miss Helen Ilate of Cornell were guests at the House during the conference.

We are glad to report that Marjorie L. Hagedon, 17, has been very ill with pneumonia at her home in Newburgh, if, now improved.

Marguerite Ritzer, 20, spent the past week-end at the House.

CHEMISTRY CLUB (Continued from page 1)

because then they are merely subjects of passing interest. He would have them use any day as a starting point from which to study the subject at hand. They should be a challenge to arouse the student's interest, not merely in the pictures themselves, but in finding out more of the subject. They should help the pupil organize his material and build up his own picture, and they should lead him to discover everything he can find in them. After, Arthur had finished, Miss Blair closed the meeting in the customary manner.

ETA PHI

Florence Stanbro, 21, spent the week-end with Louise Perry, 21, at Middletown.

Doris Smith, 16, who is a student volunteer, spent the past week-end at the house and attended the convention.

On the birthday of Myfanwy Williams, 21, was celebrated by an informal dinner party Thursday night.

STUDENT CONFERENCE (Continued from page 1)

Nanking University, whose theme was "China's Needs." The Saturday afternoon session was given over to three-minute talks. The first speaker was Miss J. E. Hinck, of China, who presented a student at Cornell. Miss Hinck's speech was upon the needs of her country. She was followed by Mr. N. N. O'Leary, who made a long plea for Armenia, and a student of Catholic, in behalf of the educational needs of Armenia and all the other Latin countries. Following Mr. O'Leary was Miss Maud Braden, of Syracuse. She spoke about her experiences as a Student Volunteer. Mr. Arthur Scott, of Union, told why he was going to be a missionary. Mr. S. Ralph Harlow, the bass speaker, also conducted the Question Box.

The evening session was held at 7:30 in the Emmanuel Baptist Church. After a very convincing talk by Mr. S. Ralph Harlow on "Our Soldiers in France and World Workers," a representation from each college unit recited a verse of scripture which embodied the principles that they will endeavor to follow in their Student Volunteer work during the coming year. This meeting constituted the final session of a very enjoyable and instructive conference.

STATE WINS (Continued from page 1)

shooting for the Aggies. He began the scoring for the Aggies by a score from the foul line. Parker showed he was there, too, by making a neat shot from the field. The Aggies were now in the lead, but only for a minute, for Dowling picked the ball from the air and made the most sensational shot of the evening, from the corner field. Statt was now one point in the lead, but Smith soon got the Aggies ahead by making a field shot. Fitch, a good chance to get even, put the ball in the ring from the foul line and tied the score—5.

Dowling came through with another field basket, and was almost immediately followed by one of Barry's nifty shots, which he made after breaking up the opponents' pass-work in his usual speedy manner.

McCarthy made a few more shots from the foul line, and fitted up the half with a shot from the field line and made the score 10 to 8 in Statt's favor.

Second Half

In the second half Barry simply picked the ball from his opponent's hand and threw the ball through the ring. McCarthy brought up the Aggies' score a few points. Then Dowling made another sensational basket from the jump ball. Fitch and Smith scored for the Aggies again, and tied the score.

The score remained at the same for several minutes. Curtin was there in keeping the Aggies from scoring, as he guarded the Aggies' best man.

McCarthy made a few more shots from the foul line, and fitted up the half with a shot from the field line and made the score 10 to 8 in Statt's favor.

Couldnt Face Ethel

Ethel had her quick wit working that minute!

She was sitting in a ballroom with a gallant captain in a charmingly cut tuxedo. On her knee was a diminutive piece, placed there by some kind acquaintance. In the adjoining room, the door to the Rose of the company. Finally the little piece was hard to say in a melodic and very audible voice: "Auntie, kiss me, too!"

"Certainly, dear," returned Ethel. "But you should say twice, dear; two is not grammar."

TO PRACTICE TEACHERS

The poem printed below, clipped from "The Ridge", published at William Smith College at Geneva, has a special appeal to you, hence we print it.

Thoughts From a Fevered Brain
With (Apologies)

When Pat's last paper is finished, and the theme is marked and returned, then shall I rest, and faith I shall need the time, to put down a month or two. Till the Department down at Albany shall put me to work anew.

Then I shall go to the movies, and sit in a nice easy chair, and see things that aren't literary and my brain won't have hard wear, and only the Prinny shall praise me, and only the Prinny shall blame.

And no one shall work for honor and no one shall work for fame. But each for the joy of the money, each in his separate school, shall teach the thing as he sees it, for an exam that is sure to fool.

SALE

Omicron: Nu will hold a sale of ice cream and cake in the cafeteria next Tuesday afternoon, March 3, after three o'clock.

NOTICE TO SENIORS

On the bulletin board in the main hall is displayed a sample of the commencement program booklet which will be used by 1919 members. Members of the class are asked to examine this booklet; read the notice below, and then place orders for it to many booklets and announcements on budget. Friday, Feb. 28, will be the last day on which these orders will be taken. Orders must be accompanied by cash payments in full. The committee in charge are: Edith Morrison, chairman; Clara Sichert, Harriet Poole.

Several former students return

Take Up Studies Again

Stanley G. Fitzgerald, a graduate of the Class of 1907, has returned to College. "Big Fitz" was quick to work for honor, and as desired. Friday, Feb. 28, will be the last day on which these orders will be taken. Orders must be accompanied by cash payments in full. The committee in charge are: Edith Morrison, chairman; Clara Sichert, Harriet Poole.

An intelligent Frenchman was studying the English language.

"When I discovered that it was quick I was fast," he said, "that if I was tied I was fast, and if I spent too freely I was fast, and the proudest pupil has won, I shall rest, and faith I shall need the time, to put down a month or two. Till the Department down at Albany shall put me to work anew."

Then I shall go to the movies, and sit in a nice easy chair, and see things that aren't literary and my brain won't have hard wear, and only the Prinny shall praise me, and only the Prinny shall blame.

An Irishman was painting his barn and was hurrying his work with all his strength and speed.

"What's the hurry for, Murphy?" asked a spectator.

"A gale, I was to get through before I paint runs out," replied Murphy.

"Sedentary work," said the college lecturer, "tends to lessen the concentration."

"In other words," batted in the smart student, "the more one sits, the less one can stand."

"Exactly," retorted the lecturer, "and if a man gets a great deal, one's standing is lost completely."

SICBERT, HARIOT POOLE,

"Why does he call that Lizzie Hangar the Kipling gorge?"

"Why he heard that Kipling's favorite poem was 'Hunka Tin.'"
