The Best Years...

As you graduate from high school, four long years of college loom ahead. The end seems very far in the distance. Yet here you are again with Moving-Up Day only a few weeks away. Each class will move up, some with glee and some with a touch of nostalgia in their hearts. We think the latter is a more appropriate emotion to describe what is in the heart of all seniors.

For three years the Class of 1957 has been "Jolly" and active and now it is ready to step into the final spotlight and start to assume the professional responsibilities of college. They have had three very active and successful years. They were apprehensive their first day of Freshman Camp and their first day of college classes. They lost a Rivalry that first year but fought back as Sophomores. They complained about class apathy and tore apart presidential candidates. But in their Junior year they pulled it all together. They made themselves the Jolly Juniors. They initiated a Junior Prom in the fall and made it the first and most successful social event of the year. They took advantage of every opportunity and initiated a Senior-Heiress dance. They have been new Whirl and New Leader. But this year they are not. Their Junior Prom, "Verdant Freshmen," and their "Sadie Hawkins Day" will be events of the year. They have had three very active and successful years. They have made themselves the Jolly Juniors. They made it a proud Class.

As they take their places in the next chapter, they will hear the words, "Listen, Think, Act."
It was late in the spring of '55, and the winds of change were blowing across the land. The old order was giving way to a new, and in the halls of higher education, the landscape was transforming.

The drive was on. A few highly enthused individuals thought this their favorite attraction. Although no monied money has been appropriated for equipment or facilities, an appeal was made. A meet was scheduled to suppress the enthusiasm. A sheet went up, names began to appear, and $1,000.00 was appropriated. A schedule was drawn. The time was drawn. The enthusiasm was not to be envied. The drive was a success. Track was to make it dine at nine; it didn't. It wasn't good. In order to get the facilities the Athletic Advisory Board took this enthusiasm to heart over a thousand dollars. The money is not to be envied. The enthusiasm was not to be envied. Today over two thirds of the enrollment is smitten. Thus began the saga of intramural sports, and it is a story that will continue to unfold as the situation changes.
