Blind Man's Buff

**By Eva St. Clair**

Our manuscript friend, Bernard Roche, penned a review of the film "Blind Man's Buff." Interestingly, the film contains a scene in which a blindfolded man is asked if he would like to be blind. His reply is, "No, of course not."

BernardRoche reviewed "Blind Man's Buff" for the "Bulletin" staff. At present, Dr. Roche is preparing his book on "The Philosophy of Blindness." We look forward to reading it.

Mannerly, would run out upon... Aren't interested enough to let that pride rouse it—should we apologize for our school? Their skirts boast of much length—far beyond my poor comprehension.

One of the most important things—those epiphanies, these splendid visions when you feel yourself acknowledged that you stand. Instead, let's talk on as if of confidence and assurance when we speak of our school and let people know we're proud to be associated with it.

State has a high academic rating. State has one of the most beautiful campuses in the state, and State, if we might be so bold as to say, is the State we should be proud of. If those who aren't interested enough to let that pride rouse itself, then the least they can do is let others do it for anything at all. If you don't want to prove State, don't want to go to the trouble to prove it, then I'll let you decide if it isn't enough.

It was a fitting farewell for the students, especially women on vacations, looking at what was happening at State. However, if you're still here, you should appreciate it. We're doing our best to do the best we can for the school. We're trying our best to show our pride in State.

Communications

To the Editor:

It has been a long standing practice of the "Bulletin" staff to print communications from students. Yet, why do we not receive more of these communications? I believe it is due to the fact that students do not want to be heard. They do not want to express their opinions publicly.

However, I think it is important that we do hear these voices. Let us hear from the students who are interested in our school. Let us hear from those who are not. Let us hear from everyone.

I have been told that the students who are interested in our school are the ones who are involved in the activities. They are the ones who are active in the community. They are the ones who are working hard to make our school the best it can be.

I would like to hear from them. Please write to me. Let me know what you think. Let me know what you want to see happen at our school.

Sincerely,
