Dean Alters PE Requirement

The physical education requirement for freshmen has been changed. All students who are over 18 years of age and who have not completed a semester of physical education will be required to register for Physical Education I.

State College News

SEPTEMBER 1954 TO MAY 1955
**Blue Horizons**

A hand of the keys, a handshake, an opportunity to grow as a new class of 1956. The News and staff is proud of the singular progress being made. Good news to you, individually, to a new college. You are the bearers of our traditions. You have picked up the extending branch of a message that we. have named the colors and name of that message. Now it is your time to let your four years at Albany State be productive both personally and otherwise. You have much to look forward to: a new million dollars to add to school to increase facilities for music and dramatics and studio areas. A faculty and a list of registration, designed to accelerate a time-consuming process. Dormitories and houses have been provided for you, to alleviate housing stresses for your new Student Activity Card to eliminate organizational problems. These organized changes, progress, of which you recently became an integral part.

**A Changed Policy...**

The Student Insurance Plan was changed during the summer, to the evident dismay of many students. It was not as some may think, due to any loss the insurance company may have suffered. Albany State is but one of eleven units of the State University. As a result, the ruling handed down by the New York State Insurance Department, as to how all accident and health insurance companies conduct their affairs, came about from a ruling that such companies must conform to rates on file with the State. Up to this ruling, the companies could reject an individual's request for a policy. The new ruling, the companies must conform to rates on file, adding the individual company to offer such policies. It was the request of a number of insurance companies that has been responsible for the change, but a limiting of their coverage by the State.

We have been informed that an appeal has been made by the companies to enable the addition of the prescription coverage to its policy, and this is expected to be back in operation next year. Arthur Kapner, company representative, made an appeal from today to answer questions raised by student organizations. Association to question its legality though, in effect questions the State of New York, not of any action by the representation, the administrative, or the student leaders.
