WHY... I smoke Chesterfield
(from a survey of students by PRESCOTT NIKKIN HANSON)

"Chesterfield is my brand. I've been smoking it since
high school. It's smooth, it's mild, it's easy on the
throat, and it's got a great taste. I recommend it to
everyone." — John Smith, Freshman

State College News
Friday, April 23, 1948
VOL. XXI NO. 24

Albany, New York
In my two years and one summer that I have been at state, I have come to believe that those who are responsible for the planning and execution of the activities of our Student Association, or the Student Council, are not adequately representing the needs and interests of the students. I have had the opportunity to work closely with the Student Council, and I have found that they are not always aware of the concerns and priorities of the student body. I believe that the Student Council should be more proactive in their approach to planning and execution, and I urge you to consider the following suggestions:

1. The Student Council should work more closely with the faculty and staff to ensure that their decisions are grounded in the needs and interests of the student body.
2. The Student Council should consider implementing a system of regular feedback from the student body to ensure that their decisions are aligned with the priorities of the student body.
3. The Student Council should consider implementing a system of regular evaluation of their own performance to ensure that their decisions are effective and efficient.

I hope you will take these suggestions into consideration, and I urge you to work towards improving the planning and execution of the activities of our Student Council.

Sincerely,

[Your Name]
