First Saturday Tea a Success
Informal Dancing Part of Program

SOPHOMORE MORNING TO-MORROW

Having carefully mastered the attendance rules, don't be in such a hurry to use your cuts that you forget to attend student assembly. Friday morning. Why is such a stress laid on the morning of the thirtieth? It is something serious. It is then that the class of 32 will present "The Sophomore Stunt." You must not miss seeing "Limbo" and "Rastus." There are several more surprises and perhaps you may get a hint or two for that interesting day which follows. Remember, Friday, the thirtieth and watch the sophomores!

FIRST SATURDAY TEA A SUCCESS

Saturday afternoon, February 7, the first of a series of teas was given by the women of the faculty and the wives of faculty members to the college students. OUR ALMA MATER

If you were at the home game with your class and passionately noticed the way we don't know the new tune of our Alma Mater, come to the publications office and get another copy of the music and take it home and learn it.

If you weren't there you certainly have heard how our voices didn't follow the song-leaders' directions, and how we had to sit down feeling, at least, ashamed. The biggest crowd of the season was out and we demonstrated our lack of loyalty to our Alma Mater and how our lack of music and inexactness confounded us.

If you have any doubts now your alma mater doesn't fit you, you have a very pleasant social time. That is the "Saturday Press," given by the women and the savings of the faculty. We will have good opportunities to become better acquainted with them and to see how they are doing for us. Everyone who attended the first on Saturday afternoon, or very pleasant times and doubtless many more students will be more than we expected. We feel very much indebted to the faculty members who are giving us one of the best recitals of the year.

LAST CALL FOR PED

Many subscriptions for the Ped are still unpaid. The热度 is going to cost over $3.00 per copy to put out. That means that to make it payable we must have your card and cash discounts from the printer and put a definite signal in the paper. Your signature must be promised to pay. In case you forgot you signed up, names will be posted, and we will have a very pleasant time.

This is your last chance. Other college activities deserve your support for they are the life-blood of your Pedagogues in your investment in future pleasure. We have jokes and snappy notices. We are not really representative. A few people hand in all of them. The subscription manager, Anne Nolan, the business manager, Ellen Donohue, or the editor, Oris B. Rice, will take your subscription or your material at any time. There will be a table in the hall all day Friday. This is your last chance.

BROW-HIGH HUNCHES

1. Marks.

There are many kinds of marks.—Cons, Twin, State College and Anthony. State College marks are better or are the portion of the alphabet the faculty get tired of and hand out to as high marks. Marks consist of I's, it's, d's, commonly, i's, and A's abundantly. I's are fully familiar, it's the desert of the dry (don't give them it). It's the only condition of the crowd, it's the item of the horoscope and A's the aspirations of the crowd. They take it out in aspiring and perspiring and expiring the first of February. We got a bit of it but we never told, we were afraid the juniors would spot us. Our I's we never told an official or anything. Our it's we never told anything about—too numerous to mention. We are very modest—b ut occasionally our A's are among the many marks.

2. Our idea of a real sport is the football. Our idea of an A without looking over our paper. But don't you get that way simply tell us it's original, clever, attention-getting and don't mean to criticize unjustly, but we do want fair treatment.

NOTICE

All appeals or questions to be considered by Myksania, must be written, addressed to Myksania and delivered at the State College office, if they are going to do this. We have a criticism of the "Knickerbocker Press" as new. "The Knickerbocker Press" refuses to have an office correspondent in the college, but professors to handle the work from its office. They are going to do it well all good, why don't they change their policy? If a manuscript is called to their attention they make a bad promise and forget it entirely or give it bad attention. It doesn't mean to criticize unjustly, but we do want fair treatment.

AN OPPORTUNITY

We often hear these days complaints about the social life at State College, but we are not the only ones that to that a great extent if we stop and think the matter over. Something new is being started now which is going to give us some very pleasant social times. This is the "Saturday Press," given by the women and the savings of the faculty. We will have good opportunities to become better acquainted with them and to get a glimpse of our comrades. Everyone who attended the first on Saturday afternoon, or very pleasant time and doubtless many more students will be more than we expected. We feel very much indebted to the faculty members who are giving us one of the best recitals of the year.

COLEGE NOT TO CLOSE

Continued from page 1

"News" has attempted to inform the student body of the condition of affairs at present.

On the authority of the Dean of Women we make the following statement: The number of cases of absence due to illness is not abnormal, considering the weather conditions of the past month. Although there are quite a number of cases of cold and students detailed at home because of colds or light attacks of the grip, there are no cases serious enough to warrant alarm on the part of the student body.

It is reported that a certain State College girl counted nine months on her way home from the Manhattan game.

been done already borne fruit, for many of the younger converts are becoming ministers, Marion Moore spoke was Latin-American. She spoke particularly of the Indians there, who, it seems, have not yet found a religion in which they can express their faith. The Latin-Americans are, however, different from the heathen, for the former have philosophical and reasoning minds. Then, Harriet Holmes spoke about the Near East. Here, the need of medical missionaries is felt most, for the condition of the people is deplorable. Alida Holm, Harriet Holmes and Corrie Hooi gave short talks on the missionary spirit at work here and in the foreign fields, its relation to education, its demands on the life of a missionary and its influence on the Christian mind. Lastly, Theodore Cranavant gave a description of the missionary exhibit. He said that the posters used there were particularly worthy of attention. One, for example, asked if education were to be used differently for all the world. He quoted, as proof of the value of missions, an authority as saying that one missionary is better than a battalion of soldiers to quell disturbances among the natives.

During the afternoon two conferences were sung by a quartet. The meeting was concluded by benediction, sung by Mary Whisb.

mechanical drawing in the Industrial Department since 1917. His being a journeyman wood pattern maker makes him especially valuable to his new employers.

No permanent successor to Mr. Alexander will be appointed. Mr. Charles T. Mace of Union University has taken the class in mechanical drawing, which meets two afternoons a week. Louis Hofmann, ’20, will relieve Professor Douglas of his class in shop mathematics, leaving Professor Douglas free to take the class in methods and practice teaching.

In his new position Mr. Alexander will receive a salary comparing favorably with the maximum of full professorship here.

SMILES

He — "We're coming to a tunnel. Are you afraid?"
She — "Not if you take that cigar out of your mouth."

Obsequious Barber — "Shall I see the iguana in the hall?"
Indignant Freshman — "Of course I do — ever since I was five years old."

A FUNNY BOY

He laughed when he took his premises. He laughed when he took his umbrella. One day he rusted out laughing.

Small Man — "Have you plenty or room, madam?"
Pat Lady — "Yes, thank you."
Small Man — "Well, then give me a little, please."

"My father weighed only four pounds when he was born."
"Good heavens, did he live?"

"Have you taken a shower?"
"No, is it missing?"

Barber — "Do you want a hair cut?"
Stade — "Naw! Cut 'em all while you are about it."

"Yes," murmured the convicted murderer. "He entered the prison, I guess I'll have to bag around here."

She — "Do you want to start the fire?"

"Hey?"

"It's about time you started something."

Her — "How do you like my new dress?"

"Fine! Ripping!"

Her — "Heavenly! Call a taxi."

Proprietor of Restaurant — "It's getting colder.
Customer — "Yes, I feel the change in my pocket."

Wanted — A woman to wash, iron, and milk two cows.
Prof. — "Can't you find something to do?"
Stude — "Go, am I supposed to do the work and find it, too?"

You college people seem to take life pretty easy. Yes, even when we're graduated, we do it by degrees.

Prof. — "What is your average income?"
Slim — "Oh, about midnight or after."

SANITARY LOVING

We used to be a jolly bunch. Real loving little misses. Now we got a foolish hunch.

"It's all because the flu's around, ma'am."
"We used to be a jolly bunch, now we do it by degrees.

"We dare not touch each other;"
"Real loving little misses;"
"And we put a ban on kisses."

"We used to be a jolly bunch, now we have a foolish hunch."

"And we put a ban on kisses."
