NOSE, THROAT, and Accessory Organs not Adversely Affected by Smoking Chesterfields

FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continuously from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-month period each smoker was given a thorough examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, and throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-month period by smoking the cigarettes provided."

Archduke Leopold of Austria, a noted Cigarette Manufacturer, said, "We believe in the health of every cigarette we sell. Chesterfields are the best."

Chesterfield—Much Milder

The Home Stretch

As the severity of State moves into the final week of rushing, it quickly becomes apparent that as we try to win the women of the various classes, the true indifference to the various classes is the only thing that we can do in order to win the women. The only thing that we can do in order to win the women is to try to win the women.

tribe. The tribe is the only thing that we can do in order to win the women. The tribe is the only thing that we can do in order to win the women.

Survey Reveals Fresh Knowledge "Mikado" Chorus Holds Tryouts

The weekly Music Council held a tryout for the Mikado chorus on Thursday, November 14th. The purpose of the tryout was to select the voices best suited for the roles of the principal characters in the upcoming musical. The audition was open to all members of the Music Club, and a large number of students participated. The tryout was conducted by Mr. Jameson, the musical director, who listened carefully to each participant's voice and provided constructive feedback. The Council is looking forward to a successful production of The Mikado, which will be presented in the spring.

Union Expands Student Senate Power

The Student Senate has expanded its powers in an effort to increase student involvement in university affairs. This move comes after several months of discussion and negotiation between the Student Senate and the Administration. The new powers granted to the Senate include the ability to initiate and approve certain policies, as well as to review and recommend changes to existing policies. The Senate hopes that these new powers will lead to a more participatory and effective student governance.
