Chesterfield is the largest selling cigarette in America's colleges.

Chesterfield is best for you.

This Chesterfield leadership is shown by actual sales audits in more than 800 college co-ops and campus stores from coast to coast.

In choosing your cigarette be sure to remember that you will like Chesterfield best because only Chesterfield has the right combination of the world's best tobacco—highest in quality, low in nicotine—best for you. All of our sales for individuals, for contracts for satisfaction—and in the whole wide world no cigarette suits like a Chesterfield.

You smoke with the greatest pleasure when your cigarette is Chesterfield—yes, those six words 'highest in quality—low in nicotine' mean Chesterfield is best for you. Buy Ten King-size or regular.
Guilty?...

When you're a Student Union this week in one of the lounges in the Commons? If you were any other student, you'd save a judgment, and perhaps guilty of that which we herein speak—namely, the perjury of silence. The end of the first week of school, the end of endless hours of cleaning and preparation. Should there be a trial? We are appealing to the good sense and fair judgment of every member of the student body. Are we not, after all, all students? Do we not need a Student Union that is clean and well managed? This is the dilemma that confronts us each morning when we put on our work clothes. Is it not our responsibility to make the Student Union the best it can be? We think so, and we will continue to work towards that goal. The Commons at such an hour is a sight to behold. We are not, but it will depend upon your conduct.

Grinding Machinery...

Resulting from Student Council's initial meeting Wednesday evening which was held last week. The new machinery is the result of a joint effort by the Student Council and the administration. It is a step in the right direction and we believe it will serve the needs of the student body for many years to come. The machinery is expected to be operational in the near future.

State vs State...

How compulsory is Compulsory Insurance? What happens if you don't have it? What are the consequences of not having it? These are questions that are often asked. The purpose of Compulsory Insurance is to provide financial protection for those who are unable to bear the cost of medical care. Without it, the burden of medical expenses falls on the individual. It is a matter of state law and must be enforced. If you are caught without it, you may be subject to fines and penalties. It is important to have Compulsory Insurance to protect yourself and your family.

Common States...

They started during the summer. Then, instead of being a part of the school curriculum, they became a part of the school life. The students, who were often referred to as "common states," had to take a certain number of courses in order to graduate. This was a difficult task for many of the students, who were often too busy with other activities to focus on their studies. They were not considered "states" until they had completed a certain number of courses. The concept of common states was later abandoned and replaced with a more flexible system.
