To the Editor:

Cape Cod Community College's Student Senate has begun a movement to seek the establishment of a Student Affairs Council. The Senate's goal is to have the college's Student Affairs Department, with an outside perspective, consider student needs before new policies are established. The Student Senate feels that the current Student Affairs budget is not being used effectively to serve the students.

The problem that arises centers around the distribution of funds. As a result of this, the Student Senate has decided to take the necessary steps to form a council to have a more effective and efficient use of the Student Affairs Department's budget.

It is not unreasonable to expect that the college should support a Student Affairs Council. Such an organization would be able to make decisions that are more in line with the needs of the students, providing a more effective means of communication between the college and the students.

Communications, marriage bureau, book store, coffee shop, barbershop, dance studio, art gallery. These were once considered to be the epitome of the modern day. Today, these are seen as quaint and quaint. Yet, these places still should be considered as the place where people gather to discuss and celebrate.
