ST. JOHN'S vs. STATE

State's court warriors will attempt to avenge their 42 to 17 defeat suffered recently at the hands of St. John's College five in Brooklyn when that team invades the Purple and Gold courts Wednesday night, February 22. The game was previously scheduled for the night of the 18, but Manager Linch granted the Brooklynites their request and forwarded the game until Wednesday.

According to Coach Sturdevant, his charges have been playing much better basketball in the recent workouts, and he believes, if the team maintains its St. John's college high spirit throughout the contest, it will put over a win on the St. John's boys.

In O'Neill and F. Freeman, State will face two of Brooklyn's best collegiate forwards and will, in J. Freeman, find not only one of the leading guards in the college sport, but also a man who has the eye for the basket. Others in the Brooklyn team who may accompany the down state team to Albany are: Kohut, center; Kelly, guard; McMillan, and Todd, forward. The latter named excelled in the room meeting of the two teams with his shooting from the complimentary line making ten out of twelve shots.

Following the game at St. John's college, State will have two more contests to be played, one at Lowndes Fieldhouse where it will meet the St. Stephen's College quintet in the next contest, and another against the Newark Normal school team on the Albany court the night of March 4, when the season will officially close.

LONDON STRING QUARTET

The London String Quartet comes to Chancellor's Hall, March 4th, as one of the ensembles of the State College Music Association. We are indeed, very fortunate in the appearance of these artists. They are making a hurried cross-continent tour in order to return.

TUESDAY, FEBRUARY 14 4:30 p.m. Y. W. C. A. Meeting—Auditorium
WEDNESDAY, FEBRUARY 15 8 p.m. Meeting of Joseph Henry Society 4 p.m. French Club—Room 101
THURSDAY, FEBRUARY 16 8 p.m. Miss Futterer reads LADY WINDEMERE'S FAN at Chancellor's Hall
FRIDAY, FEBRUARY 17 8 p.m. Men's Smoker—Gymnasium

22 HOLDS BASKETBALL CHAMPIONSHIP

The girl's basketball squads enjoyed their annual banquet at six o'clock last Thursday, February 9, in the cafeteria. It was followed as usual by the basketball party to the Hall.

The decorations in purple and gold were very attractive. The table decorations were yellow, purple, and crepe paper. Place cards having the college seal were designed by Gladys Thompson.

Guests included Dr. Crusdale, Miss Crusdale, Evans, Miss Card, Miss Bennett, Miss Dalton.

Helen Walsh, '22, (captain of the Girls' Varsity teams), and two juniors, were present. Toasts were given by Miss Bennett, Miss Card, and Dr. Crusdale. Miss Bennett spoke on, "Mass Athletics." The toasts by the class captains were: Basketball, by Mildred Hammburgh; 23, Cincinnati Incidents of Basketball, by Rolly Bedding; 24, The Origin of Basketball, by Ethel Seymour; 23, and To Miss Bennett, by Genelsece Zimber, '22.

The championships team for this year, the senior team, presented Miss Bennett with a silver picture whistle, "Unlined Dunn, '22," then led cheers and songs. Much credit is due the committees in charge, consisting of Dorothy Ford,asketball, and general chairman; Gladys Thompson, '22, decorations; Agnes Futterer, '22, program; and Delia Hardwell, '23, usher.

FACULTY NOTES

A faculty meeting was held February 8 at 4:30 p.m., for the purpose of hearing the report of the Secretary of the Dormitory Fund.

A meeting of the Metropolitan district of the State College Music Association will be held in New York City on Saturday, February 25. Pres. Bronacher, Miss Pierce, and Mrs. Cameron will attend.

Miss Futterer will give a reading entitled "Lady Windemere's Fan," by Oscar Wilde, in Chancellor's Hall, February 6th at 8:15 p.m. This is ranked as one of the best plays of modern drama. The best work of the playwright. In the story where it is told, "The Story of the Good Woman," there are two characters of unusual type. Miss Futterer personifies "Lady Windemere's Fan" a very interesting story of high society life in England, and those who are familiar with Miss Futterer's ability will not fail to hear her next Thursday evening. Tickets which cannot be reserved.

BEYOND THE HORIZON

Eugene O'Neill's Play

"Beyond the Horizon" is to be presented by players from the Drolet and Meade Gymnasium Club, New York, City, at Albany High School, February 20, at 8:15 p.m. Ms. Quest, who are being brought here by the Dramatics and Art Association have been on a tour of Eastern and Western Colleges, and are just played at Howard. The play is by Eugene O'Neill, who wrote "Anna Christie," which is may what a sensation in New York. "Beyond the Horizon" is probably Eugene O'Neill's greatest play, and ran for eight months in the metropoles. Proceeds are for the Dormitory Fund. General admission is fifty and seventy-five-cents, but students are admitted on their student-tax tickets.

CHORUS WINS COMMENDATION

State College has every reason to be proud of its Music Department after the big entertainment which took place Friday night in Chancellor's Hall.

Special features were the recitations by Professor F. F. H. Campbell, the piano solo by Eula Shafer, '24, and June Green, '24, a concert by the New York City Parnassus Quartet, and of course, "SKIPPY FIREBONE RIDE," by the women and men's choruses and John Dick, baritone. At Dr. Thompson's request Miss Agnes R. Futterer read the poem by Whittier before the singing of the cantata.

The chorus under the direction of Dr. Thompson received the enthusiastic approval of the audience. Their work was almost perfect and the best of its kind in this part of the country. Especially pleasing was the music of the chorus, and the harmony of the orchestra, which was conducted by Prof. C. F. Woodson.

QUARTERLY NOTICE

Material for the third issue of the Quarterly must be in by March 1. Manuscript must be written on one side, signed, and either typewritten, mimeographed, or typed. Material must be handed in the mail box under Q or handed to any member of the Quarterly Board. If you have had manuscript rejected before, due to disorganization, but write again for this issue. Freshmen are urged to contribute, and upper classmen are urged to continue giving the Quarterly their support. Let's make this the best issue of the year.

ABOUT THE HONOR SYSTEM

The topic for discussion in assembly Friday, February 17, will be "SHOULD STATE COLLEGE HAVE THE HONOR SYSTEM?"

Everyone should come prepared to talk on the subject. None will be allowed more than three minutes in which to air his views. The questions will be based, not only on his own personal individual judgment, but also on the appearance of these artists. They are making a hurried cross-continent tour in order to return.

BENEFIT READING OF LADY WINDEMERE’S FAN

One of the best modern drama of English society in the present day is "Lady Windemere's Fan," written by Oscar Wilde. Miss Agnes Futterer will give a reading of this play on Thursday evening, February 16, in Chancellor's Hall. Miss Futterer has given readings of this kind for several years and is now using her ability for the benefit of the Dormitory Fund of State College. Tickets may be obtained from the usual agents, and there will be a table in the auditorium very soon. Tickets of prices: tickets seventy-five cents and student tickets free. Tickets will be sold at first attendance, and are for the Dormitory Fund. Tickets may be obtained from the usual agents, and there will be a table in the auditorium very soon. From A Faint Blue Glow
To Modern Miracles

Edward H. Edison saw it first—a mere shadow of blue light streaking across the terminals inside an imperfect electric lamp. This "leak" of electric current, an obstacle to lamp perfection, was soon banished by removing more air from the bulbs.

But the ghostly light, and its mysterious disappearance in a high vacuum remained unexplained for years.

Then J. J. Thomson established the electron theory on the transmission of electricity in a partial vacuum—and the blue light was understood. In a very high vacuum, however, the light and apparently the currents that caused it disappeared.

One day, however, a scientist in the Research Laboratories of the General Electric Company proved that a current could be made to pass through the highest possible vacuum, and could be varied according to fixed laws. But the phantom light had vanished.

Here was a new and definite phenomenon—a basis for further research.

Immediately, scientists began a series of experiments with far reaching practical results. A new type of X-ray tube, known as the Coolidge tube, soon gave a great impetus to the art of surgery. The Kenotron and Plotron, followed in quick succession by the Dymatron and Magnetron, made possible long distance radio telephony and revolutionized radio telegraphy. And the usefulness of the "tron" family has only begun.

The troublesome little blue glow was banished nearly forty years ago. But for scientific research, it would have been forgotten. Yet there is hardly a man, woman or child in the country today whose life has not been benefited, directly or indirectly, by the results of the scientific investigations that followed.

Thus it is that persistent organized research gives man new tools, makes available forces that otherwise might remain unknown for centuries.
