The Coach services and Jack Jordan estimate that his challenge of the year, getting an NCAA bid had mellowed somewhat, Coach Richard Sauers felt that this year's team was far superior to the one he had two years ago. "We didn't have the depth we needed, and we were never able to sustain even a one-man good shooting game," Sauers said. "But we were quick, and the team is that strong. Quattrochi was one of those who was always in the right spot at the right time, always stepping up to the task." Sauers felt that this year's team was a "solid nucleus for a team next season." According to Coach Sauers, John Quattrochi will have to lead the team in clean shooting. "They won't be able to shoot them, and they will have to be more careful with the ball," he said.

Applications are now available for the Tauber Institute of German Summer Studies for all levels of study in HUM 210 of the German Department. For more information, contact Herr Ull Frolich at 346-3380.

**SUNY-Wide Referendum Seen For Mandatory Fees**

By Bruce B. Miller
AP Education Writer

Students at 27 State University campuses will be given the chance to decide on a series of initiatives this spring that will affect student activity fees, the collection of which is required by the state. The SUNY chancellor, Ernest L. Boyer announced Tuesday that the question would be worded for the referendum in such a way as to "recognize the continued importance of the fee for the student body." The chancellor's announcement did not specify how the question would be worded for the referendum, stating that "if, however, students favor a voluntary fee, then strict accountability to the state is required." The question would be submitted to the university's Board of Trustees at the trustees' regular meeting later this month. The referendum would be submitted to the State University Board of Trustees, which would have the authority to approve or deny the referendum. The referendum would be conducted by the New York State Board of Regents, which would have the authority to approve or deny the referendum.

Students at 27 State University campuses will be given the chance to decide whether or not they want mandatory or voluntary student fees. The question reflects the sentiments of the majority of SUNY presidents and involves whether or not they want mandatory or voluntary fees. The question would be submitted to the university's Board of Trustees, which would have the authority to approve or deny the referendum. The referendum would be conducted by the New York State Board of Regents, which would have the authority to approve or deny the referendum.

**Women Demand Health Care Reform**

More attention is being given to women's rights, and of the many measures of Women's Day at SUNY, the one sponsored by Women's Liberation was particularly "twisty," and "I'm sure it was done for the press." The event, sponsored by Women's Liberation, included work in the area of health care, and "I think it was done to show the public what we're really doing." The day, which called for the following; Women's Liberation gathered in the Infirmary and presented a list of demands for better female health care, and a list of the Infirmary marked the recognition of International Women's Day at SUNYA. The event, sponsored by Women's Liberation, included work in the area of health care, and "I think it was done to show the public what we're really doing." The day, which called for the following; Women's Liberation gathered in the Infirmary and presented a list of demands for better female health care, and a list of the Infirmary marked the recognition of International Women's Day at SUNYA. Security Threatens March on Capitol

by Peter Schulz

Security Officers will march on the Capitol if the Civil Service Commission does not meet demands for a "just promotion system." Expressing concern over recent guards' strikes and the resulting labor situation, the President of the Security Officers' Grievance Committee, Dennis O'Sullivan, has announced plans for a protest if the Commission fails to meet the officers' demands.

Security Officers are threatening to march on the Capitol if their request for a "just promotion system" is not granted. The officers are demanding an end to the present "consumerist" promotion system, which they claim discriminates against qualified officers. Instead, they propose a system based on "merit and seniority," allowing officers to advance based on their performance and length of service.

Conference Assistant Applications are now available in the Student Life Office, Campus Center Room 130. However, applicants must be enrolled in a course with the Conference Business Office or have a class scheduled in the Student Center. This year, applications are due by March 23.

C.O. Draft Defersmient Clarified by Court

WASHINGTON, D.C. - The Supreme Court ruled Monday that all men who are draft registrants must register for the draft. The Court's decision overturns a lower court's ruling that only men over the age of 26 must register.

The ruling, based on a challenge to theSelective Service Act, upheld the constitutionality of the draft law. It also held that any man who is drafted must register, regardless of age.

A spokesperson for the Anti-Draft League of America welcomed the decision, saying it is a victory for all conscientious objectors. The league had argued that the law is unconstitutional because it forces men to register without their knowledge.

The Court's decision means that all men over the age of 18 are now required to register for the draft, effective immediately.

Housing Expands Co-ed Facilities

Security Offers Jobs to Graduate Students

Security Services is offering jobs to graduate students in the S.U.N.Y. system. The openings are for part-time positions as security officers, with duties including the supervision of buildings and the maintenance of order.

Job seekers are required to register for the Civil Service Commission's examination, which will be held on March 15. There will be a written as well as an oral exam to select candidates.

The Department of State, Security Services Office, is also offering jobs to graduate students in the S.U.N.Y. system. These positions include security officers and administrative assistants.

The Department of State receives a great many offers for co-ed facilities, with the new policy allowing for the expansion of co-ed living. The Department of State is also bringing in new faculty members to teach in the co-ed facilities.

**Bus To Mohawk**

Among the more humorous aspects of FSA's funding of the Mohawk campus is the lack of a bus to or from campus. Resident students whose meal card pays for the Mohawk operation and the operation of Glen House, are the last people to make use of their place because they lack transportation. Few of them know which to get off-campus. Thus those who pay the most and have the greatest need are prevented from enjoying Mohawk.

Can FSA's editor refer to this in the University, find money to buy new or a bus somewhere in the $89,000 spent yearly on Mohawk and Uppland?

**Dietician**

Another great step that FSA should take is the hiring of a dietitian to plan the meals. Almost every high school has them—why shouldn't a major university? The current policy of making up menus from the inventory is not only poor from a dietary standpoint, but also makes for very boring eating if you're a resident student who depends on the high school has them—why shouldn't a major university have cars with which to get off-campus. Thus those who pay the most and have the greatest need are prevented from enjoying Mohawk.

Can FSA's editor refer to this in the University, find money to buy new or a bus somewhere in the $89,000 spent yearly on Mohawk and Uppland?

**Support Recycling Paper**

SUPPORT RECYCLING PAPER!

I support the recycling of used paper, and I'd like you to do the same. There is currently a bill, number A-162, in the Ways and Means Committee of the Assembly, which would require the State of New York (a large user of paper) to use only paper and means of manufacture which would not cause pollution to the environment. This is an important bill to support, and I urge you to do so.

**Communications**

**Privacy**

Dear Dr. Fisher,

I am interested in the investigation of a letter to the editor printed in the issue of Friday, March 11, 1971, which you signed. As a member of the Assembly, I have been concerned with the problem of our environment. I have heard it said that we are a nation of consumers, and that our environment is not being protected.

I am writing to urge you to consider the issue of privacy. I believe that a person's right to privacy is a fundamental human right. It should be protected at all costs, in all areas of our life.

Sincerely yours,

Michael Lampere

Assemblyman

**Recycling**

**To the Editor**

Every day we are bombarded with reminders about the need to conserve resources. We are exhorted to save water, paper, and electricity. But what about the food we eat? Do we give a thought to the amount of food we waste?

I would like to suggest a few ways we can reduce food waste. First, if we plan our meals ahead of time, we can avoid buying too much food. Second, we can try to eat our leftovers rather than throwing them away. Third, we can try to find creative ways to use our food scraps, such as by making compost.

Let's all do our part to reduce food waste and conserve our natural resources.

Sincerely,

[Your Name]

Let's hear it for the drunks.

It's not the drink that kills, it's the driving. And who cares about the drunk drivers, anyway? They're only in the way. Some people think it's a waste of time driving through the traffic on the 118/199 freeway system. But they've never seen the drunk drivers on the 118/199 freeway system. They're such a waste of time. What's the rush? It's not like we're going anywhere in a hurry. Just a reminder to all you drunk drivers out there: keep it slow and keep it steady. And if you can't do that, then get off the road. It's the law.

FACULTY-STUDENT ASSOCIATION
MORE THAN A GREASY BURGER

by Chris Gietl

It appears to be highly probable that the average student views the Faculty Student Association as a simple food service establishment that takes most contract money and transforms it into an endless procession of fast feeding stations for breakfast, lunch, and dinner. We hear them say things like: "Why didn't they serve the best hot dogs in the world?" and "That's no good - what's for dinner?"

It is our opinion that the students have a right to expect nothing less than the best. We would like to make a statement about the quality of our food. It is impossible to please everyone, but the majority of students are satisfied with the food we serve. The key to satisfaction is variety. We serve a variety of items that are prepared fresh each day.

Our staff is dedicated to providing the best service possible. We strive to make sure that every student is satisfied with their meal. If you have any suggestions for improvement, please let us know. We welcome feedback from our customers.

We are here to serve you. Thank you for choosing the Faculty Student Association. We look forward to seeing you soon.

Optical Services Offered

In addition to these services, which are mandatory under the organization's contracts, the FSA also offers special services. The Bookstore, Money Orders, and Check cashing are located in the campus Center for everyone's benefit. A banking facility, open from 9:00 A.M. to 5:00 P.M. Monday through Friday, offers a variety of services, including cashing personal checks in and out of town.

The entire FSA surplus, in addition to money earmarked for over-expense, went toward these projects. Improvement and operating expenses at the Mohawk Campus amounted to $73,440, while food service and the campus store received $47,800 for expansion and other services. Overall, the FSA surplus for 1970-71 was $32,940.

It appears to be highly probable that the average student views the Faculty Student Association as a simple food service establishment that takes most contract money and transforms it into an endless procession of fast feeding stations for breakfast, lunch, and dinner. We hear them say things like: "What's for dinner?" and "That's no good - what's for tomorrow?"
