A Free Press?

The purpose of this organization is to allow the students and faculty of New York State University to exercise the right to freedom of the press. Our newspaper, the State College News, is printed under the direction of a board of trustees and is not controlled by the university. Every student at this university has the right to express his ideas in the newspaper, but the university does not have the right to censor what goes into the newspaper. The free press is a necessity for the growth of the university, and it is the duty of the trustees to provide facilities for its proper development.

As to the question of what might happen if the trustees were to try to control the newspaper, it is evident that this would lead to the creation of a newspaper that is not a true free press. The trustees would have to decide what is acceptable and what is not, and this would be a difficult task.
