Danes invade Long Island for clash with Hofstra

By Maas Birman

It is as if every game we've come to expect but in the end, our task in the Danes won the Danes.

The two teams, whose campuses are located 19 miles apart, have not met since 1976 and again last season. However, their rivalry is strong and it's the last in a series of non-conference games, ending from the Long Island.

The Danes will be on their home court as they are a big favorite against Russell Sage. After losing the first game to Clark University, 15-8, they were down 12-11 against Russell Sage. The Danes have been coming together at the right time.

Coach Dwyer is happy that the team is coming together at the right time. "Overall, the level of the team is up," said Dwyer. "I think we could've won every game in the first half, the Danes came out stronger, an advantage of 15-3, 15-1 and 15-6. In the final matchup of the day, the Danes played Oswego, losing the first game 15-12, but storming back to win 15-3, 15-1 and 15-6."

[The story continues with more details about the game and the season.]

Women booties on the rise, win last two games

By Doug Israel

Women's basketball booties are on the rise. The teams have been using them in the past two games, and they are catching on.

"The girls were a little sluggish the first few games," said Dwyer. "We are working on it, and we are getting better." The Danes have been coming together at the right time.

Coach Dwyer explained that the booties are helping the team's performance.

As in most presidential races in New York State, the polls indicate New York City voters are lining up behind the Democratic candidate and voters in upstate New York are backing the GOP favorite.

Paul Silverstein

By Paul Silverstein

Silverstein, a graduate of Rensselaer Polytechnic Institute and former executive of New York City's Department of Transportation, is running for re-election in the 22nd district in Brooklyn and Queens. He says the people he represents have told him they want a "good change in direction for America," and he wants to make sure that New York City is "a model for the rest of the country." Silverstein won a narrow victory in the 1982 election, defeating Republican John Anderson by 14 percent. He has been endorsed by a number of organizations, including the New York City Democratic Party, the AFL-CIO, and the National Education Association.

Silverstein's campaign is focused on issues such as transportation, education, and the environment. He supports increased funding for public transportation, the construction of new public schools, and the development of renewable energy sources. He is also a strong advocate for the Environmental Protection Agency, and he has supported a variety of environmental initiatives, including thecreation of a new park in the Brooklyn Navy Yard.

Silverstein is running against Republican incumbent Frank Wickes, who has represented the district for 16 years. Wickes is a strong supporter of the coal industry and has been critical of Silverstein's position on transportation. Silverstein is confident that he will win a second term.

"I feel very strongly about the importance of New York City to the country," Silverstein said. "If I win this election, I will be able to bring a new perspective to the job of representing the people of New York City. I will be a voice for the environment, and I will be a voice for the people of New York City."
The University of Southern California's School of Public Administration and Law Center jointly offer a program leading to a Master's Degree in Public Administration with a specialization in judicial administration. The thirty-six unit MPA includes coursework in the basics of public administration and the court environment, research, system analysis, finance, budgeting, and personnel, as well as course in civil and criminal procedure.

Dr. Donald Fuller, of the Judicial Administration Program, will be on campus Tuesday November 6, 1984 to speak to interested students. Contact Career Planning and Placement 487-6251 for an appointment.

News Updates

Resources expanded

The University Library is now a member of the Research Libraries Group (RLG). Director of Libraries Joseph B. Atwood announced recently.

The RLG is a corporation owned by the nation's major research libraries such as those at SUNY at Binghamton, Cornell University, and Binghamton, NYU, and the New York Public Library. It helps libraries in the exchange of resources with one another. The benefits of membership include access to their largest research databases, Collected Management, and Production, and Technical Services and Management Council. Members have access to each other's resources and can share technical resources and expertise.

Prof. nominations

John A. Kendra, acting president of SUNY, is now accepting nominations for Distinguished Teaching Professor, a program that recognizes superior teaching in the university. Nominated professors must have received the most student feedback and must have scored at least five out of five in teaching excellence.

NYPICR already preparing offense to battle possible SUNY tuition hike

By Tim Daniels

Students and faculty are preparing to fight a possible SUNY tuition hike by making a phone call and door-to-door canvassing. The faculty is preparing to campaign for a tuition hike of 250 people from 18 colleges in New York City.

The conference was attended by 250 people from 18 colleges in New York City. The conference was attended by 250 people from 18 colleges in New York City. The conference was attended by 250 people from 18 colleges in New York City.

One of NYPICR's complaints is that the tuition hikes are not consistent with the current economic climate. The organization believes that the tuition hikes are unfair and that they are not consistent with the current economic climate.

NYPICR is also preparing to fight the tuition hikes by organizing a student strike. The organization believes that the tuition hikes are unfair and that they are not consistent with the current economic climate.

Music At The PAC

Below is a list of some upcoming PAC musical productions:

- The Marriage of Figaro (November 3-5)
- Watch on the Rhine (October 12-14)
- First Born (October 16-18)
- A Tree Grows, Actively (November 1-3)

First Born

Theatrical producer and director Hal Prince returns to the stage with his new musical, First Born, based on the play by Harold Pinter. Set in a modest home in London, the play follows the lives of a family torn apart by a mysterious event. Pinter's complex and abstract themes are brought to life by a talented cast, including veteran actors John Lithgow and Sarah Jessica Parker. The show features a score by composer John Kander, who has previously worked with Prince on hits like Cabaret and Chicago.

Windham Hill Artists Come To Music Hall

Pick a pick or the all-against head and you shall perfectly the Tony Berlin Hall really only.

Louise Lewis

The Windham Hill label, known for its acoustic and new-age music, presents a special concert at the Music Hall. Among the performers are Mike Heron, celebrated for his work with Fairport Convention, and Patricia Colligan, a singersongwriter known for her haunting vocals. The evening will also feature a collaboration between Jazzist and the Multi-Ethnic Ensemble, showcasing the rich diversity of Windham Hill's classical and world music recordings.

A Tree Grows, Actively

In this powerful new musical, the audience is invited to witness the consequences of a single event that sets the course of a family's life. Written and directed by Hal Prince, the play explores the complexities of memory and the impact of our choices on those around us. With a score by John Kander, A Tree Grows, Actively is a thought-provoking work that challenges the viewer to reflect on the choices we make and their lasting effects.

Michelle Krell

In October 2013, first-time director Michelle Krell brings her unique vision to the stage with A Tree Grows, Actively. Krell, who has worked on several successful off-Broadway productions, is known for her innovative staging and her ability to bring out the best in her performers. With a cast of talented actors and a score by John Kander, Krell's direction brings a fresh perspective to this classic story of family and the choices we make.
EDITORIAL
Free speech isn't cheap

Student money is going towards two speakers who don't deserve to speak.

The first is Dr. Wilkie, who is writing the Environmental Protection Agency, EPA has become a congressional pawn that should be used for political gain. It is under this guise that they are promoting their new line of thinking.

Dr. Wilkie is a tenured professor at the University of Michigan, where he is a professor of aquatic sciences. His research focus is on the effects of water pollution on the aquatic environment. His work has been funded by the EPA.

However, Dr. Wilkie's views on the environment have been controversial. He has been accused of downplaying the severity of environmental problems and promoting policies that benefit corporate interests at the expense of the environment.

Another speaker is John Valby, who is a comedian and political commentator. He is known for his satirical take on political figures and issues.

Valby's act has been criticized for its offensive language and harmful content. Despite this, the university is allowing him to speak.

The Free Speech movement is important, but it should not be used as an excuse to promote speakers who spread hate and misinformation.

We must hold our institutions accountable for the speakers they invite and ensure that they represent diverse perspectives.

By allowing these speakers to speak, the university is compromising its commitment to free speech and intellectual diversity.

We must stand up for the ideals of free speech and demand that our university reflects these values in its selection of speakers.
The NFL's best and worst passers

By Andy Toren

The recent sportswriter Andy Toren gives his rating on the quarterbacks in the NFL.

3- The NFL's best and worst passers

This recent sportswriter Andy Toren gives his rating on the quarterbacks in the NFL.

The Top 10

1. Joe Montana - Montana is consistently a top-10 passer year in and year out. He has been in the Top 10 for at least 10 years. His accuracy, field vision, and decision-making skills are unparalleled.

2. Dan Fouts - Fouts is another quarterback who consistently ranked in the Top 10 for several years. His accuracy and ability to read defenses are his strengths.

3. Joe Theismann - Theismann has a strong arm and is capable of making big plays. He has been in the Top 10 for the past few years.

4. Dan Marino - Marino is one of the greatest passers of all time. He has been in the Top 10 for over a decade.

5. John Elway - Elway has a strong-arm and is capable of making big plays. He has been in the Top 10 for the past few years.

6. John Hufnagel - Hufnagel has thrown for over 4000 yards three times. Only three other quarterbacks in the NFL have accomplished this feat.

7. Dan Broman - Broman has thrown for over 4000 yards three times. Only three other quarterbacks in the NFL have accomplished this feat.

8. John Goals - Goals has thrown for over 4000 yards three times. Only three other quarterbacks in the NFL have accomplished this feat.

9. John Goals - Goals has thrown for over 4000 yards three times. Only three other quarterbacks in the NFL have accomplished this feat.

10. John Goals - Goals has thrown for over 4000 yards three times. Only three other quarterbacks in the NFL have accomplished this feat.

What a health club should offer you

By Judith Torel

Many local college students and workers, while fitness health clubs and workout environments are two benefits of fitness health club memberships. While only three in the Top 10 have been there.

The qualifications of the personnel are also a consideration that local health facilities must consider. Many health facilities have personnel that man them, and the educated, well-trained personnel at the facility are considered one of the most important reasons why people join a health club.

Koelmel recommends that you visit a health club that offers what you need, and that you do not settle for less. Koelmel is often heard saying, "If you want to be successful in a health club, you need to be successful in yourself. If you are not successful in yourself, you will not be successful in a health club."
The first five inductees to Albany's Hall of Fame

By Keith Marder
SPORTS EDITOR

PUBLIC SAFETY gets new cars

By Johanna Chancy

The University's old traffic safety cars aren't the only thing being turned in by the new Office of General Services, OGS.

SUNY's old cars, which had more than 150,000 miles on them each, were returned to OGS in August, according to Captain Thomas Graham of SUNY's Public Safety squad.

Graham said the new cars are all equally used to OGS and were replaced from Albany Bridge, the former owner of the same contract for the cars. Although, he said he didn't know how many OGS reps look over each car, because he is the state public safety buyer, he said the cars usually stand up to its rigorous inspection, that public safety officers demand.

An OGS spokesperson said the state paid $1,260 per car. Since August the cars have accumulated more than 7,000 miles, as a rate of approximately 110 miles per day.

Conners

-4-

Brook.

Conners wasn't in favor of a state Equal Rights Amendment in 1984, and said, "I believe it's important to look at the women's role with the same avant-garde regime in South Africa. It's the women who are the victims of apartheid, who are leaving to South Africa, as well. I would not say it's a matter of policy," he explained.

Conners will also support state websites for the Long Island Lighting Company only if the state's renewable energy program is "anomalously" stated support for the Long Island Lighting Company, Conners said. The program, because of large cost increases in the construction of the Shoreham Nuclear Power Plant.

Hofstra's last minute TD shocks Danes, 35-32

By Marc Berman

What started out as an out of bounds kick for Hofstra ended up a touchdown for the Danes.

The play was the deciding factor in a game that was all but over after the Danes scored a touchdown on a fourth and four play in the fourth quarter.

Hofstra's quarterback, Joe McLaughlin, passed the ball to running back Jerry Mackey, who scored the touchdown.

The game was held at the Blue Hen Stadium in Newark, Delaware.

Men harriers place second in Invitational

By Tom Kaczorowski

This past Saturday, the Danes men's cross country team placed second in the Invitational at the University of Delaware.

The Danes were led by senior captain John Stoddard, who finished second in the invitational, and junior co-captain Michael Joyce, who finished fifth.

The Invitational was held on the campus of the University of Delaware.

SA President Rich Sehaffer said that he sees a good future for the Danes men's cross country team.
