School to Excel, We Hope!

The establishment of a graduate school contributes a great deal to the pride an academic community feels in itself as a leader in the pursuit of progress in public and other colleges and universities. Graduate students on the masters’ and doctoral level, because of their advanced training, reflect not only their own intellectual and academic accomplishments, but also the broader and deeper potential of their home institutions. We hope that in future years the graduate school of our university will contribute as much to the quality and reputation of the university as our esteemed undergraduate school. An untried university should take pride in the many able and energetic students who devote their time to the study of the more advanced courses. To these students, let us pledge our support and encouragement.

So you get problems. Who don't have problems? You know that basketball coach, Dr. Sauers? What kind of problems he got. You know, he's got a real tough team—there's plenty of problems. He's got a good basketball team, sometimes it's more problems.

You know, starting at the top of the hill, they won their first two games with no trouble. Everything's fine, but then they went on a road trip. At the rate they're going, something happens doesn't happen to a team like this. Last weekend they ran into the Senators, and there's two games.

What you say? What's Buffalo? Oh, that's a place near the river for Lake Erie where all the money goes. You want to know if they have a movie theater? No, they don't like it there. Too cold. You wouldn't like it there. Too cold. It's like Chanukah and Purim rolled into one. But you know, they're going to Buffalo, aren't they? You know that basketball coach, Dr. Sauers? What kind of problems he's got! He's got a varsity basketball team. One of the students, his name is Newman, has had only five and a half points against the Syracuse Raa.

Sauers, for this he goes all the way to Buffalo? Oh, that's a place near the river for Lake Erie where all the money goes. You want to know if they have a movie theater? No, they don't like it there. Too cold. You wouldn't like it there. Too cold. It's like Chanukah and Purim rolled into one. But you know, they're going to Buffalo, aren't they? You know that basketball coach, Dr. Sauers? What kind of problems he's got! He's got a varsity basketball team. One of the students, his name is Newman, has had only five and a half points against the Syracuse Raa.

Dr. Sauers could use a doctor. What a case he is! He's got a varsity basketball team. One of the students, his name is Newman, has had only five and a half points against the Syracuse Raa.

You know that basketball coach, Dr. Sauers? What kind of problems he's got! He's got a varsity basketball team. One of the students, his name is Newman, has had only five and a half points against the Syracuse Raa.

When you think of Christmas gifts, you naturally think of Mountains cigarettes. Nothing beats looking up in the Fifty States—and if you live in New York City, even Fifty Miles of Fifty States—of your favorite Christmas gifts in that Fifty States department store! Mountains brings a fresh, strong blend of tobaccos and a new look, with a smarter, more modern cigarette. Mountains—the smart cigarette.
