**SPIKERS END SUCCESSFUL YEAR WITH TWO WINS**

**by Jim Kozicki**

The Alberta State University men's basketball team ended its successful season with a 2-0 run at the Tri-State Basketball Classic, March 30. The team defeated a 1-0 record for the A-State Engineers and finished the season with an overall record of .500. The win over the Engineers was crucial, as it brought the team to the final game of the tournament. 

The second game against the Eastern Iowa State University Bears was also a decisive victory, with the Spikers winning by a score of 79-60. This win secured the team's spot in the tournament final. The Spikers' success can be attributed to their strong defense and effective teamwork.

**STICKMEN SPLIT OPEN FOURING**

**by Eddie Emmerman**

The Sticky Men closed out the season with a 1-0 record, securing the team's second place finish in the A-State Men's Basketball League. The team played four games during the season, finishing with a 2-2 record. Their defensive strategy was key to their success, as they held the opposition to a low-scoring average.

**NETTERS READY FOR SPRING PLAY**

**by Mike Polinaker**

The A-State Women's Tennis team ended its season with a 4-2 win over the Eastern Iowa State University women's team. The win came in the final game of the tournament, securing the team's second place finish in the A-State Women's Tennis League. The team played four games during the season, finishing with a 2-2 record. Their defensive strategy was key to their success, as they held the opposition to a low-scoring average.

**NYPIRG DNA Repair Question**

**by Jonathan Adelson**

SUNYAS Council on Research against a NYPIRG offer to co-author a research paper on DNA repair mechanisms and its implications for cancer research.

NYPIRG's offer was met with a resounding rejection by the council. The council argued that the offer was a thinly veiled attempt to co-opt the council's research and undermine its credibility. The council stated that it would not be swayed by such tactics and would continue to pursue its independent research agenda.

**FIELDS CONFIRMS INTERVIEW AT VANDERBILT UNIVERSITY**

**by Stephen Finlay**

Stephen Finlay, a renowned neuroscientist, has confirmed his interview at Vanderbilt University for the position of head of the Department of Neuroscience. The interview is scheduled for May 15, and the selection process is expected to be completed by the end of the month. Finlay's appointment is expected to bring a new era of innovation and collaboration to the department.

**CSEA SETTLES CONTRACT**

**by David Spivak**

A strike by some 2,500 SUNYAS professors was ended Tuesday morning after negotiations for the Civil Service Employees Association and the State of New York reached an agreement for a 14 percent pay increase. The agreement, which covers all 16 SUNYAS locations, includes a new pension plan, increased representation for professors, and improved working conditions.

The settlement reached an agreement for a 14 percent pay increase. The agreement, which covers all 16 SUNYAS locations, includes a new pension plan, increased representation for professors, and improved working conditions.

**DNA RESEARCH TO BEGIN**

Research using advanced DNA techniques will be pursued on campus, the SUNYAS Research Committee announced Wednesday. The research will focus on developing new techniques for detecting and analyzing DNA, which could have significant implications for medicine and law enforcement.

The committee hopes to have preliminary results by the end of the year and to begin full-scale research by the end of the spring. The research will be conducted in collaboration with the University's biology and chemistry departments.

Types of Smokers:

1. SPIRIT

Students are encouraged to attend the Students Against Destructive Decisions (SADD) meeting in the SRC to learn more about the effects of smoking and how to quit.

2. UN INFORMED

The campaign aims to raise awareness among students about the dangers of smoking and to encourage them to make healthy choices.

3. Breathe Easy

The SUNY at Albany campus welcomes people to enjoy the outdoors and offers resources for those who want to quit smoking.

4. SMOKING

The campus community is encouraged to support each other in their journey to quit smoking and improve their overall health.

5. PHILIP MORRIS

The campaign highlights the importance of personal responsibility and the need for individuals to make informed decisions.

6. CRISPY

The SUNY at Albany asks students to consider the impact of their actions and to make choices that positively affect their well-being.

7. OPERATE

The campaign aims to create a supportive environment for students who are working towards quitting smoking.

8. LION'S HEAD

The SUNY at Albany encourages students to celebrate their success in quitting smoking and to continue to prioritize their health.

9. SIERRA CLUB

The campaign emphasizes the importance of environmental sustainability and the role smoking plays in contributing to climate change.

10. SMOKE FREE

The SUNY at Albany campus is smoke-free, creating a healthy environment for students, faculty, and staff.

11.终点

The campaign concludes by emphasizing the need for continued support and resources to help students quit smoking and maintain a healthy lifestyle.

SUNYA Student Wins State Award

Thirty women of New York State Board 71, Lehman Graduate Fellowship in Social Science and Public Affairs, have been announced today by the Students Education Department. The winners are the most highly prized in the program of scholarships and seminars sponsored each year by New York State.

Mary E. Falsky of SUNYA was among those selected for the award. The Lehman Graduate Fellowship was established by the Legislature in 1970 in honor of the former New York State Senator. The competition for the fellowship is open to women graduate students throughout the United States who are about to begin graduate study in a college or university. Applicants were required to have maintained a minimum grade point average of 3.0 and to have completed at least 12 graduate credits prior to the start of their graduate work.

The winners of the Lehman Graduate Fellowship will receive a total of $7,500 each for four years of graduate study, beginning in September 1971. Applications for New York State Board 71, Lehman Graduate Fellowship were received from a total of 303 candidates, of whom 75 were women students. Of the 75 women students who entered the fellowship, 12 are residents of New York State, 10 are residents of New York City, 8 are residents of New Jersey, 6 are residents of Pennsylvania, 5 are residents of California, 4 are residents of Illinois, and 3 are residents of New York City.

SUNYA dancers will also be performing in this year's Lake George Dancers Dig, sponsored by the Lake George Dancers Association.

WSUA: Off-Campus Problems

Following are excerpts from this week's sitcom show on WSUA: 60 AM. Mr. Dave Good spoke to the Director of the Off-Campus Student Association, Nudd- ly Voss, and the Director of the Off-Campus Housing Office, Karleen Karrman. The former represented the Student Association group, the latter an off-campus apartment.

Good: There have been a number of thefts in the homes and apartments of off-campus students. Is this a new problem?

Karrman: I don't think it's a new problem. But it's something we are trying to help alleviate through the education of students—by letting them know what these apartment owners should not do. What these thieves could be looking at, what apartment owners could do and could look at, where there is a separate entrance and agree to keep these areas clean and not let strangers in. We are continuing them out in a test and kind of apartments.

But there is a problem in Albany. There is only a 25% occupancy of apartments, and it doesn't seem to be getting better. Our students have to be out for two days before they are robbed of their apartments. When you hear the story of the first case of murder of a tenant, you think that it could be in your house, and you think it doesn't seem to be getting better. We need to look at these

Good: Did many of you see their urban housing?

Karrman: Out of about seventy percent of the typical college town, only twenty percent of the apartments are in the college. So, because the student need is to be made aware of the fact that not all urban housing is off-campus doesn't work. Good: Really, would you consider the college housing situation with good housing? Karrman: The housing situation is bad. Good housing is a good housing, and the housing is a bad housing, and the situation is bad. Several of the OCC are basically sitting with us, and we are sitting in the college.

Good: When we look at the issue of the Off-Campus Housing Association, we are looking at the social issues, we are looking at the social issues, and we are looking at the social issues of the social issues. The social issues are being handled in a social way, and we are looking at the social issues of the social issues. The social issues are being handled in a social way, and we are looking at the social issues.

UNBELIEVABLE! You can still register for COMMUNITY SERVICE.

COME TO THE LAST HONEST TO GOODNESS $3.99 RECORD ALBUM FLYING!!

EMMY BOYCOTT
Some of the biggest names in television are boycotting this week's Emmy Awards ceremonies because of the answer to one question: How many of the nominees are women? The association of television producers has decided to replace the awards ceremony with a picket line and a petition drive. The decision comes as many of the nominees stress the need for change in the industry's structure. The boycott is expected to continue for several weeks or months, as producers plan to stage their own awards ceremony in response to the current situation.

ALCOHOL REVIVAL
Alcohol may be making a comeback as a key legacy of our ancestors. A new generation of Americans is rediscovering the pleasures of drinking and is embracing alcohol in a variety of forms. The alcohol industry is investing heavily in marketing strategies that appeal to younger consumers, with an emphasis on flavor and presentation. This trend is expected to continue and may lead to increased social and health issues related to alcohol consumption.

ZODIAC NEWS
The California company that developed the world's first commercial zodiac is planning to launch a new product in the coming months. The announcement comes as the market for personalized zodiacs continues to grow, with consumers seeking unique and meaningful ways to express their identities. The company is working closely with astrologers and designers to create a range of products that will appeal to a diverse audience.

BEATLE BATTLE
The last Beatles album has been released, while the first Beatles album is expected to be released later this year. The album is expected to feature new material and will include a range of styles, from rock to pop. The release is anticipated to generate significant interest among fans and collectors, with many expecting it to be a major event.

DEADLY GIVEAWAY
A deadly giveaway has been launched, with participants competing for a chance to win a $1 million prize. The giveaway is open to residents of the United States and is being promoted through social media and print advertisements. Participants are encouraged to enter online for a chance to win.

UNIVERSITY STUDY
A new study has been released, examining the impact of social media on college students. The study found that social media use is associated with higher levels of stress and anxiety, as well as decreased levels of academic performance. The findings highlight the need for college administrators to develop strategies to support students who may be struggling with social media addiction.

PLAY IT AGAIN
"A California company has developed a new product that is expected to revolutionize the music industry. The product, called "Music Player," is designed to allow users to create and listen to personalized playlists, with features such as mood-based recommendations and a unique social aspect. The product is expected to be launched in the coming months, with a focus on providing users with an immersive and personalized music experience.

University of Pittsburgh

The Biological Club announces the following lectures:

April 8: Dr. H. Hendricks
May 4: Dr. S. Newman
May 12: Dr. L. Lowman
May 19: Dr. H. Miller

All lectures will take place at 8:00 p.m.

The Biological Club is affiliated with the American Society of Ichthyologists and Herpetologists.

Funded by student association.
POSITIONS AVAILABLE

Volunteer Phone Counselor

The position offers an excellent opportunity for a person interested in short-term crisis intervention, in development of counseling skills, and in employment in a dynamic and creative human service organization.

Qualifications

1. Current enrollment in SUNYA as a freshman, sophomore, or junior.
2. Willing involvement in the intensive training program.

Duties of Volunteer

1. Attendance at the initial training weekend at the beginning of the semester.
2. Working on a 3-hour telephone shift weekly.
3. Working on 3 or 4-hour weekend shifts (ока 12 weekends per 8-week block)
4. Attendance for two 3-hour training groups each month.
5. Attendance at occasional workshops run by Middle Earth and other agencies.
6. Commitment to providing quality counseling services.

Interested persons should contact Middle Earth for application/inquiry for volunteer opportunities. Applications should be addressed to: Charlie Blue, Swets/Howard Coordinator. DEADLINE: April 22 at 3 p.m.

CAMPUS NEWS BRIEFS

The voting faculty has selected four nominees for the Lautman Professorship: Margaret Burroughs, Charles Storer, and two others.

The Library has received a new collection of materials related to the Civil War.

A conference on "Montague Grammar and Linguistics" will be held on May 11.

The Health Services center has sent out a reminder to students to renew their immunizations.

The Health Services parking lot will be expanded by 20 spaces.

The Senate has passed a resolution regarding the use of student identification cards.

ALSBY STUDENT PRESS

THE BEAUX STRATEGEM, a State University Theatre production, will be presented at 8 p.m. on April 21 and 22.

The Senate has approved the University Community Council's recommendation for a revision in the campus safety policy during the April meeting of that body.

President Fields has signed the bill, which authorizes those trained officers on campus who are on duty during any emergency to be armed.

President Williams, of the Public Safety Department, addressed the evening shift on campus.

A Public Safety Department spokesman said the revised firearms policy should be in effect within three weeks to a month.

The Senate has also passed a resolution regarding the development of pedestrian safety.

The Senate has scheduled its next meeting for May 2 at 3:15 p.m.

Chairpersons Named

Several chairpersons have been announced on campus.

Production and distribution of Art Gallery has been arrested.

Several faculty have been appointed chairman of the Department of Philosophy.

The Alumni Association has named a new chairman for the period ending Sept. 1, 1977, and ending Aug. 31, 1980. Dr. Bovens has been named chairman for the period ending Sept. 1, 1977, and ending Aug. 31, 1980.

Several chairpersons have been appointed for the Department of Philosophy.

The Alumni Association has named a new chairman for the period ending Sept. 1, 1977, and ending Aug. 31, 1980.

Political Campaign: Nothing But Candidacy

by Ed Mans

Some of the SA election posters give one pause. I read one which boasted the candidate has nothing to lose in running for SA and the SA have everything to lose in running for SA. The word here is all. Every SA group desires more money, every government agency in New York City could use more money. Another poster read: "... did not ask one important question: "What is the college for?"". Some perfect attendance. It doesn't matter on a college's right to be silent. The student body needs to be listened to.

The very idea of running a political campaign by means of posters is a double-edged sword. A candidate's accomplishment does not seem to be so much a testament to the ingenuity of someone's candidacy.

Eligibility bring out the ineptness of people. Mayor Lenny Currie is up for re-election this year. The Albany administration has been criticized for non-enforcement of the city's building codes. It's been said that many housing inspectors are political appointees of the Mayor.

Non-renewal means everything can be torn down to the foundations. This means some people, and their history being torn down to the foundations. Albany's been called a city of jumpsuit candidates.

Charges of profiteering could not be Corning even. Even a person voting for a new administration may have to look at least that person to be included in the law. For political candidates, the idea of enforcing a building department to stop up Myrtle on the other hand. It's a completely different situation.

One of the things in the city is a candidate who's on the Assembly. It's not.

The candidate's vote is the mayor's vote. There is no guarantee of the mayor's vote. There is no guarantee of Myrtle's vote. It's a completely different situation.

The candidate's vote is the mayor's vote. There is no guarantee of the mayor's vote. There is no guarantee of Myrtle's vote. It's a completely different situation.

To the Editor:

There are hundreds of students down at the Food Co-op. They can get fresh food, vegetables, dairy products, grains, sponsored meats, and more than 25% of the food is organic. The co-op and supermarket combined boast of hundreds of dollars in food sales by shopping at the co-op.

The man said he was there to make a change in our lives. The inspection was very easy. He asked if the bathrooms were clean. He asked if the kitchen was clean the other evening. We all agreed that the food in the co-op was open for business. We agreed that the food in the co-op was open for business.

The man said he was there to make a change in our lives. The inspection was very easy. He asked if the bathrooms were clean. He asked if the kitchen was clean the other evening. The Albany Symphony Orchestra

Saturday, April 16, 1977

Fischer Hall, Albany, N.Y.

Program:

**Symphony No. 80 in D minor**

**Symphony No. 1 in D major**

By **DAVID GOLDBERG**

The Albany Symphony Orchestra's concert on Saturday was a completely wonderful experience for me.

Ludwig van Beethoven, according to the program notes, is one of the "greatest Classical composers," being only 52 years old. His "piano" suite is titled in the 1805 International Concert in Musical Composition. The work is broad on fifteen woodcuts by the 17th-century Italian artist, Hans. Willi Karr.

The program begins with the "concerto" the first time in German literature, "Bavarian Dance." It is a series of woodcuts by the famous German printmaker, Jost Amman. The work is the first time in German literature, "Bavarian Dance." It is a series of woodcuts by the famous German printmaker, Jost Amman.

The second movement is a very pretty and beloved movement in a Mozart opera. The "new" movement is a very pretty and beloved movement in a Mozart opera. It is not the usual movement, but it is a lovely one. The work is the first time in German literature, "Bavarian Dance." It is a series of woodcuts by the famous German printmaker, Jost Amman.

The orchestra is quite well balanced. The bass and the violins are equal in strength. The work is the first time in German literature, "Bavarian Dance." It is a series of woodcuts by the famous German printmaker, Jost Amman.

NOTICE OF POSITIONS

Position: Counselor, Middle Earth

Requirements: Experience in counseling
Current or past enrollment in Graduate Study

Persons holding these volunteer positions will provide individual and group counseling for clients of Middle Earth. In addition, they must assist in intake and provide a rating on self-assessment counseling service to switchboard volunteers. Others duties will include case conferencing, recording of client contacts, and collating of statistics.

If interested, please visit the Middle Earth office in 102 Schuyler Hall, Dutch Quay. You will be asked to complete an application and schedule an interview.

Thank you.

The New Hungarian Quartet
Sunday at 8:00 p.m.
April 17, 1977
Page Black

By STEPHEN ALMASI

There was nothing to fault the performance Sunday afternoon of the New Hungarian Quartet at Page Hall. The four-member quartet’s audience was out of syncopation, however, with one piece on the program. Four students were in attendance, despite campus publicity efforts; three were seated, older, more conservative listeners, dissociated by the somewhat novel nature of the music.

The concert opened quietly enough. Haydn’s G Minor Quartet Opus 33 No. 3 charmed the audience, responding to the players’ beautiful handling of this light, texted, and peaceful piece. The second movement, “Allegretto,” went straight ahead, providing little contrast to the Adagio. Folk-like melodies included elements of the vigorous Presto finale; but the work was not too sophisticated.

Clearly, the audience was unprepared for Bartok’s earthy quartet. If Haydn left us unmoved, any creak, Bartok’s music grasped us; its opening chords rapidly bombarded all senses of seers.

The second white heat of the first movement struck us to a fevered, deeply moving second section, giving us the audience a breeze.

The solo play with continuous domination of the third movement, performed on mixed string. This was Bartok at his most extraordinary, the music finding convincingly against the music finding convincingly against a score line of death.

Uproar of surprise greeted the fourth movement, played entirely pianissimo. At times the plumbing simmered into a greater stream, filling with air wiggles. Shorter, turned in textures, as members of the audience turned helplessly to look at each other. The finale returned to the savage rhythms and slaming strokes of the first movement. This brought us to a conclusion triumphal performance of a fermentally different piece.

Bartok’s writing bristles throughout with experimentalism, mounting the位於 impressionist postcard rhythms. His conflict between growing mass and subtle reality detracts from the wide range of techniques which tap every resource of a virtuoso ensemble. The consistency of volume leaves one’s nerves numbly with tenor; variation here is as important as it was with Haydn. Listeners deserve some mercy.

Roum’s F Major Quartet failed to sustain the mood built up by the Bartok. This moodless, environmentless work merged the top symbol of Bartok with the gentle, easily distinguishable forms of Haydn. Roum’s music seems neither as easygoing nor as Haydn, nor as deeply felt as Bartok or Dohnanyi. The playing here was perhaps less self-assured than in its predecessors.

All in all, however, it was a polished, satisfying performance.

As different as they are, all three works adhere to a specifically rotational format, sharing an ordered sense of form and continuity, both in the arrangement of movements and in the structure of each movement itself.

Anna Tark, Jr. of all spots played each section with care and ease. Violinists Andre Tark by and Richard Young accompanied each other flawlessly, while Leonard Konowicky on viola rounding out a splendid ensemble.

DYNAMIC QUARTET

The New Hungarian Quartet. Members include (L-R) Andor Toth Sr., violinist; Richard Young, violin; Denes Konowicky, viola; Andor Toth Jr., cello.

Rankin: The Mood’s the Thing

By BYRON HOLZBERG

The Kenny Rankin Album is for moods. It is lady, orchestral, romantic melody, consisting of ten songs that all blend together upon playing, the voice influence and string arrangements "mumbling exchanged.

Yet it works if you let Rankin’s serenity ride over your senses. Rankin blends four original songs with several popular renditions such as the Young Randle’s “Gouvis,” George Hamilton, “While My Guitar Gently Wails,” and Joe Cocker’s “You Are So Beautiful.” Each has little excellence, except for lyrics, in the three well-known versions.

The album is arranged and conducted by Dan Costa and he deserves equal billing on the record. Rankin is a mellow-sounding singer who is at his best with guitar or piano working with voice as one. But this album defines his theme as a player, and slow numbers encourage him to let his voice control the song.

The title song is first, “Gouvis” on a Sunday afternoon for city another lady with Roberta Flack’s own version that can only be matched with someone or with dreams. More into “While My Guitar Gently Weeps.” Repeating with simple inverted feels to evanescent strings-quick flow in and take away all presence of a guitar, replacing it with a saxophone that turns the piece into a love song for someone particular.

“Sunny Gee Blue” should be directed as a song again with less of a false before a dinner audience. I almost imagined a Frank Sinatra type of singer performing this ballad released three minutes earlier of again singing moods with somewhat, but that was Rankin breaking out to say “You Look Fine,” “You Are No More,” and on the flip side “You Are So Beautiful,” the individuality of Rankin really introduced. Only in the last piece does Rankin vary from other styles or color range. Repeating the same theme throughout and returning to the same mood, he stresses with humorous love and one-bottom moment is a sensitive performance, essentially characterizing the entire album.

Side one’s songs blend all together to achieve an overall effect of creation and orchestration; a nice and gentle performance. However, the orchestral arrangements of Rankin and the instrument recording do contribute to a little too much music, one of the many too many threads perhaps dependent on the mood of the listener.

As an unidentified fake background vocalize repairs over and over during song, “(I Love You)” in either unaltered or an enduring effort.

PRAISE FOR STAINES

By SALLY ROBINSON

For every two and one-half hours Saturday night, April 16, country-singer and vocalist Bill Statens performed 24 songs on his guitar. The never tired performer was for two of the one-sixth of an hour.

Bill Statens, the champion yodeler of the United States in 1975, in a superb manner and way of singing. His singing performance was a definite crowd pleaser. His voice, throughout the night, was in excellent condition, as he played new and old songs. The program included in the twenty-nine songs was a variety of country songs. It opened with one of rapid pace, yet calm and pleasant at the same time. Playing every song in a while, Bill told his short story—generally an introduction to the song to the audience. The audience loved him. His yodel was so excited that you could not help but laugh. His jokes were also scattered amongst his songs—not a conscious singing-song pattern. The quality of musicianship was a fine and well-developed audience.

The next one was “Mammy’s Morning,” so well and mellow. Between songs, Bill relaxed from singing as he demonstrated some excellent guitar playing. The yodeling of his next song completely changed the yodeling to come. When it came, it was amusing. The tempo was faster and louder, until the yodeling was an incredibly rapid yodel. I had trouble understanding his words before this night, but Bill Statens was for the best in quickness and quality.

Bill performed a number that he classified as a "train song." The only problem, he said, was that he usually

Champion yodeler Bill Statens, at the Freezer-dried-coffeehouse last weekend. As is common the program, there was a "train songs" on long bus routes. There is a faster pace, louder, and the yodeling was an incredibly rapid yodel. I had trouble understanding his words before this night, but Bill Statens was for the best in quickness and quality.

Bill performed a number that he classified as a "train song." The only problem, he said, was that he usually

Rugby Depends On Home Lineup Monday

by Ken Kurtz

This past weekend, the Albany State Rugby Club played out of state, defeating Arizona State 20-3 and toppping Arizona 24-13. The Saturday, the rugba team on Albany Mud, and State opened up quickly 40 lead as Dorn Ranone won 2 points to the State five point lead. A fierce line, forwards, and continued from page twenty-eight Queen took two overrunning forwards in the hammer and dismissal. The latter team of 142, defeated the closest adversary by 22%. Arizona junior Lori Reaves came into the game in the hammer with a belt of 12.17, and also played twice on the ball, which was earn by Bob Political Blackrock. The game was the most memorable moment of the day. One funny moment, there was when the ball was picked up by a 30-pound man, and the ball was not carried. A play in the back, but came in second in the long jump and in the triple jump we will. Nancy commented on her decision makers "We have a lot of ability, but we have to use it to be effective. She has shown potential.

The most marked the first time that an Arizona team turned to a man in a particular event, and is still building. "We're working from a place where we're used to think we can win," she said.

The Rugba game was on a Wednesday at 1:30 p.m.

**Bar-Boned Budget’ Proposed**

By Bruce Huddleston

The President’s Divinity’s Ex-
traordinary Federal Revenue

Budget, which has come to re-
nument the nation, is in-
cluded in the House of Represen-
tatives’ Committee on the Fed-
eral Budget. The Committee’s
recommendations have been ac-
cepted by the Senate, which is
now considering the Bill.

The Budget contains sev-
everal important provisions,
including a cut in the Federal
income tax, a decrease in the
Federal spending, and a re-
duction in the Federal debt.

The Budget also proposes a
new program of Federal aid
for education, health, and the
environment.

The Budget’s provisions are
expected to be debated in the
Senate in the coming weeks.

**Runners Take Third**

By Nick Selinger

"The finish line is where I figured we’d go," said Alvin Barber and coach Robert Murray, who watched the student’s 3,000-meter relay team finish in third place. Murray said the team had been training for weeks, and their efforts finally paid off.

The team’s victory was a momentous occasion, and Murray was ecstatic. "This is the moment we’ve been waiting for," he said. "Our hard work has paid off, and we’re excited to see what we can accomplish in the future."
