**If You Ask Me—**

**Question:** What do you think of the establishment of an inter-collegiate league?

**Answer:** I am not in favor of it. The average man is not capable of estimating his class, and I do not believe that any clubs could be made popular by an inter-collegiate league. The idea is not a particularly good one. It would probably make a popular idea among the classes, but it would not be a valid idea. It would promote a spirit of rivalry among the classes.

**Rice and Miller to Debate Scots**

Dr. Harold W. Thompson Pick
Two Juniors to Represent

Two juniors, Kenneth A. Miller and George P. Rice, have been chosen to represent State college in the proposed debate with the representatives of the opposing college.

They were named at a meeting of the debate council last week by Dr. Harold W. Thompson, chairman of the debate and professor of English.

A vote of the council gave them the power to name the two.

The names were chosen in this manner rather than the usual competitive try-out method because of the current shortage of members of the council.

If the debate takes place here Friday, October 24, the team will be composed by John M. Conoverick and Kenneth A. Miller.

It will be the first two-debatant team that State college has ever scheduled for the men's team and will be the second international debate in which its teams have ever appeared.

Last year the men's New Zealand debate was the second highest team of the debate. The Scottish team has suggested that there be a selection in their proposed debate home.

Both Miller and Rice have previous experience in debating. Miller has been alternate in three debates last year and a member of the winning team.

Rice has been a member of the men's team and junior speaker the last three consecutive years and for two years he was the junior speaker in the men's debate.
