Hoosters Take On
Ithaca In Rematch

The Albany State basketball team worked a good deal more than they did the last game against Hobart, Friday night in the Coliseum.

Last year, the State triumphed over the Ithaca team 53-40, but it was Hobart that upended Albany, 68-65.

The two teams square Monday and Wednesday as the Interstate Athletic Conference begins.

RPI's Mike Heher has been averaging 12 points a game, was 10-4 in the ECAC.

Frosh Defeat Foe Soundly

The Albany freshman basketball team improved to 2-1 in its half dozen games of the year, by downing Union College 74-60, Saturday night.

The game was all tied up to the last minute of the second half when Mike Royce scored a basket and a foul shot to lift the Statesmen to the win.

The game was held at the Union Coliseum.

Sports Shorts

The Union game Monday afternoon was the last of an 11-match season in which the Union Coliseum hosted.

The RPI alumnus college-college rival game is the last regular season game before the ECAC goes to play in the 4-11-11 New York State college conference.

Albany State's basketball team routed Hobart, 74-49, Friday.
**BROKEN BUREAUCRACY**

Breaking bureaucratic barriers will attempt to correct student questions concerning University affairs. Questions may be submitted by placing them in the ASP (Albany Student Press) box located in the Campus Center on the Information Desk. Questions placed in the box by Thursday morning will appear in this column for the following week. Questions may be submitted by placing them at the Information Desk, or in the ASP box located in the Campus Center, or by mailing them to the Albany Student Press, SUNY-College of Arts and Sciences, Albany, New York 12220.

It is still possible that some questions will be unanswered next week.

According to Dennis Blake, President of Central Students, it is not very probable that the issue will be decided by any final action. The question has been opened by the student council and held in which a proposal to make the tax law will be presented in a month's time.

Possibly, the present fact would not be and would depend on the General Council would be written by the student body.

Why is it that the Federal Reserve Board continues to keep pressures on interest rates and still charges the person without a bank account 5.00 on the average line? Originally, the Federal Reserve Board was set up to supervise and regulate the banks. However, Dr. Robert Merton, Vice-President of the Federal Reserve, said that the banks are not guided by the Federal Reserve Board and this is the reason why the banks have not lowered the rates. Dr. Merton said that the banks are not in competition and this is why the rates have not lowered.

Will the present system of precertification be sustained for next fall?

This question was asked by the Student Association and the Board of Trustees. The Board of Trustees has been in discussion with the university and has decided that the present system will be continued for next fall.

A change in the system is not being planned for this fall. The Board of Trustees has been in discussion with the university and has decided that the present system will be continued for next fall.

You may ask the next question to your advisor in the University College or the academic dean. The Dean of the College of Arts and Sciences said that the present system is not being phased out.

Mr. Haley of Food Service said that the campus dining facilities were overpriced. Ordinarily the food in the cash line is more costly. Ordinarily the campus dining facilities are more costly than the campus dining facilities elsewhere.

Clairing Errors

I was going to write a letter of congratulations to the editors of the Albany Student Press for their fine work from here in New York City as I was composing this sentence. I had intended that the content of the letter be printed this week, but I have decided that in order to maintain the integrity of the issue, it should be published in the next edition. I would like to express my appreciation to the editors for the work they have done, and I hope that they will continue to strive for excellence in their reporting and writing.

Rothedral Defense

To the Editors:

I refer to the article on the section of the Albany Student Press about my activities as the president of the Student Assembly. I would like to point out that the information presented is inaccurate and misleading. I have been working hard to establish a sense of unity and cooperation among the various groups on campus, and I believe that my actions have contributed to the success of the Student Assembly.

Lago's View

Regarding the mention of Susan F. Matzus in the "nominations" section of "Contemporary Women" in the February 13 issue of the Albany Student Press, I believe that more information is needed regarding her role and contributions. The article suggests that she is a significant figure in the field of education, but it is unclear what her specific contributions are.

Semitic Studies

Although I agree with some of the points made in the article, I believe that there are some inaccuracies and omissions. The article does not provide enough context or analysis to fully appreciate the historical and cultural significance of Semitic studies.

The Albany Student Press is pleased to welcome back the Advocacy Committee, which has been active on campus for many years. The Advocacy Committee has been working on various issues, including housing and immigration, and has been a valuable resource for students.

Committee changes university walls

by Holly Selig

"It was the best of times, it was the worst of times." This familiar saying summed up the feelings of some students of Educational Studies today as the plan for Committee wall changes was announced by President Roy C. Gabler. "It is not a question of whether the wall will be changed, but of how." The students' comments reflected this sentiment.

"Why can't we have a wall with a real meaning?" asked one student. "The present wall is a bore. It's just a wall, nothing special." Another student added, "I don't think it's necessary to have a committee wall. It's a waste of money and effort." A third student remarked, "I'm sick and tired of having to look at the same old posters every day."

The changes were proposed by the Committee for Educational Studies, which is responsible for the administration of the university. The committee felt that the wall was in need of a fresh approach and that it could be used as a medium for displaying the students' work.

The new plan calls for a series of posters, each featuring a student's work, to be displayed on the wall. The posters will be judged by a panel of faculty members, who will select the best works to be displayed. The students will then be given the opportunity to vote on which works should be displayed.

This plan met with mixed reactions from the students. Some were enthusiastic, while others were skeptical. But all agreed that something had to be done to liven up the wall.

"I think it's a great idea," said one student. "It's about time we had something new on the wall." Another student added, "I'm excited about this. It's going to be a real eyesore!"

"I don't see why we need to change the wall," said a third student. "It's fine the way it is. Why bother changing it?"

"I think the new plan is a step in the right direction," said a fourth student. "It's about time we had something fresh on the wall."

"I'm not sure about it," said a fifth student. "I think it might be a waste of time and money."

The committee will be making the final decision on the wall changes in the near future. The students are encouraged to submit their ideas and suggestions to the committee.
