Do You Think for Yourself?

(BLAST OFF ON THESE QUESTIONS AND SEE IF YOU CAN GET YOUR ORBIT!)

If you are a student who likes to think about the world around you, you might find the answers to these questions interesting.

1. Do you believe that when you are doing something, you should always think about the end result?

If you have ever done something that you regretted later, you might want to reconsider your actions.

2. Do you believe that "When in Rome, do as the Romans do"?

This is an old saying that is meant to remind people to adapt to their surroundings.

3. Do you believe that "The end justifies the means"?

This is another saying that suggests that the outcome is more important than the process.

4. Do you believe that "Actions speak louder than words"?

This is a common saying that suggests that actions are more important than words.

5. Do you believe that "The best things in life are free"?

This is a popular saying that suggests that some of the most valuable things are not things that cost money.

6. Do you believe that "You can't judge a book by its cover"?

This is another saying that suggests that the true value of something is not always visible from the outside.

7. Do you believe that "You can't have your cake and eat it too"?

This is a saying that suggests that you cannot have the best of both worlds.

8. Do you believe that "The early bird catches the worm"?

This is a popular saying that suggests that those who work hard and do things early in the day are more likely to succeed.

9. Do you believe that "You reap what you sow"?

This is another saying that suggests that what you put into the world will come back to you.

10. Do you believe that "If you can't stand the heat, get out of the kitchen"?

This is a saying that suggests that you should do things that you are good at and that you enjoy.

If you have thought about these questions and have come to a conclusion, you might find it helpful to share your thoughts with others.

The Man Who Thinks for Himself Knows—ONLY VICEROY HAS A THINKING MAN'S FILTER...A SMOKING MAN'S TASTE!
By DAVE FELDMAN

For the past five years the education department has experimented with television for the use of classroom observation. In our estimation this program has been more of a failure than a success. We approached the problems that present themselves when there is only a limited amount of material available to the student observing a realistic classroom situation. We do not believe, however, that the use of television for classroom observation is doomed. The problem lies in the development of a realistic classroom situation.

The principle of television observation is to present a realistic classroom situation to a large number of students so that the problems occurring which might be faced with later on. Unfortunately these classroom situations are not always realistic.

The high school student goes into the class knowing that he will be observed. People watch people. The teacher comes into a class with a very tight schedule and in the middle of a certain topic, and he is limited tightly to that schedule. Also the teachers are constantly rather self-conscious as to what is going on. They feel, for some reason, that the students are listening to them. The students are not listening. The students are not watching. The students, if they do watch, are watching for themselves.

As for the observations put into the hands of the observers, we sincerely believe that these observations are a waste of time for everyone involved. Enough about the people being observed, now let's turn to the observers. There are many people who are not interested in the proceedings but they are far outnumbered by the disinterested. Graduate and Sophomore who are being exposed to television observations for the first time, keep the class in a constant state of utter boredom, and usually their attention to their study was rather neglected, homework. Are the observations worth the time and effort put into them by the instructors? We sincerely believe that they are.

Also technicians are constantly running in and out of the room over closed circuit television. The teacher goes into class with a very tight schedule and ends up running into the classroom to a large amount of room available for students to observe a realistic classroom situation. In our estimation this program has been more of a failure than a success.
Subjects of Senate Debates: Who's Who, Camp Dippikill

As soon as roll call was taken, senators were asked to present new members who were present. Then Sen. Kelly asked Senate to support a motion that will change the election of the President of the Senate. The motion was passed.

Jim Kelly asked Senate's support for the appointment of Miss Maureen O'Connell as the new president of the Senate. Senator Fowler also suggested that the camp does not need a camp board committee. Fowler's motion was passed.

Senators then discussed the election of the Senate sub-committee on the election of the President of the Senate. The committee was also requested to make the appointment of the President of the Senate.

On the motion of Sen. Fowler, Sen. Kelly asked the Senate to pass a motion declaring the new president accepted. The motion was passed.

Senators also discussed the nomination to Who's Who in the college. All students of the college are allowed to compete. The nomination to be nominated to Who's Who, however, should encourage a free and open contest. It is unfortunate that this contest was released, the Board declared invalid by the state college news.

The second half was almost a repeat of the first half. The game was settled by the fact that the Humps dominated the entire game. The second half was almost a repeat of the first half. Soccer Team Ends Season With Victory Over Montclair

As I See It

Potter Club Reigns Again

Potter Club once again reigns over the AMIA Football League. This year's crop were undefeated, and won over seven consecutive opponents. Potter Club's stronghold on the AMIA league dates way back to 1947 when they won their first title by going undefeated. They repeated as Champs in the All-Star '48 season. In 1949 they lost one game to the "ANGELS", an independent team, and lost the title. The Angels regime was short as Potter came right back in '51 to win the title again. They held the title until the '53 season when a power-laden APA team took it away from them. Next season they were back on top. In 1954 the "Billings", an independent team made up of players like Bob Andreski, Bob Hall, Tony Kordziel, Mike Fehlth and Tom Stuffen who later became stars for the EPP team. This year that year it's all Potter. They have won the title and consecutive times.

This year's team, reached from the sidelines by Queen Davis (two time All-Star last year who is out with injury), waited away from the league. Led by Don Nolan who was by far the best QB in the league and his finger-tipped catching and Born Dalley, they set a record for the most points scored in one season, 139. (This is under the new rules of the league.)

Here: Allman, one of the two time All-Stars on the team refused both offensively and defensively, keeps his mighty line. All in all, there's not just too much can say about a team like this but that they are good.

WAA Pair Cop Tourney

Matthews Tournament

Greyhound. Or, send your belongings by Greyhound Package Service. You can take more with you on a less than driving your own car. There's a better way to go! It costs less and is more convenient.
