Spring, Mr. Gambee intends to course.

The six remaining Cabinet positions will be filled by the current session.

Retired SA President Richard Brown, Senior Counselor to the Committee on Academic Freedom, will serve as a consultant to the Academic Freedom Committee.

Gambee Does Degree Study

American Association of Librarians and the Education Association of America are joined in a close study of the problem of the degree of library work. The study was directed by the St. Louis, Mo., Library School.

Support State; Take the Bus

Support State, the bus is the best way for the students of the State University to travel. The bus is the best way to travel and the students of the State University should take the bus.
"One Smeaseburger"

The floating jug in the above picture has not drifted off from Pennsylvania chef's table, nor is it Los Angeles world-famed long—but it is Albany's answer to both the Student Union "Smease," a combination of smoke and grease, both of which the Union has in abundance.

We seriously wonder what the Board of Health would have to say about the situation in the Union, for indeed it is not a healthy one. Such workings and ingredients are exhausted and mixed together, with the addition of a few more ingredients—smoke, grease, and oil—that make it an even more unhealthy combination.

We have been told by one of the Union's members that the Smease is made by first combining the smoke from the Union's cigarettes with the grease from the Union's omelettes, and then adding a little oil from the Union's salad dressings. The mixture is then placed in a large glass jug, which is kept on a table in one of the Union's rooms.

The Smease is then served to the Union's customers, who are sure to enjoy it. We are told that the Smease has a unique flavor, a combination of smoke and grease that is sure to please.

We have been informed that the Smease is a popular item among the Union's members, and that it is often sold out. We have also been told that the Smease is a popular item among the Union's faculty, and that it is often sold out to them as well.

We feel that the Smease is a danger to the health of both the Union's members and faculty. It is a combination of smoke and grease, both of which are known to be harmful to the health. We feel that the Board of Health should be informed of the Smease's existence, and that measures should be taken to prevent its sale.

NEWS Reviews Works Of Biology Department

By THOMAS STECKEL

Biology is presently one of the most rapidly growing sciences, and this is true at SUNY, Albany. In the spring of 1965, the department was fortunate in having two new periodicals in our library. One of these was BONNIE WILLIAMSON, Biology. The other, THE JOURNAL OF ANIMAL ECOLOGY, appeared in the spring of 1963. We are fortunate in having two excellent periodicals in our library. The one in 1965 is the new periodical, JOURNAL OF ANIMAL ECOLOGY. The other, THE JOURNAL OF ANIMAL ECOLOGY, appeared in the spring of 1963. We are fortunate in having two excellent periodicals in our library. The one in 1965 is the new periodical, JOURNAL OF ANIMAL ECOLOGY. The other, THE JOURNAL OF ANIMAL ECOLOGY, appeared in the spring of 1963.

The Journal is the official organ of the American Society of Ichthyologists and Herpetologists, and is devoted to the study of the relationships between the living and fossil forms of reptiles, amphibians, and fish. It is published four times a year, and is indexed in the Journal of the American Society of Ichthyologists and Herpetologists. The Journal is the official organ of the American Society of Ichthyologists and Herpetologists, and is devoted to the study of the relationships between the living and fossil forms of reptiles, amphibians, and fish. It is published four times a year, and is indexed in the Journal of the American Society of Ichthyologists and Herpetologists.

In his effort to make the Journal more accessible to the general public, the editor has included a series of articles on the biology of the various groups of animals covered in the Journal. The articles are written in a clear and concise manner, and are intended to be of interest to both the professional and the layman. The articles are written in a clear and concise manner, and are intended to be of interest to both the professional and the layman. Four State Students Support Turkey At Model U. N.
Expressing the views of Turkey, students at the University of Western Ontario, four delegates of the Four State Students Association, made speeches in support of the Government of Turkey at the 13th Annual United Nations Model League of Nations meeting at Montclair State College in New Jersey.

Notice
Registering this week all but articles to be donated at the Woman's Club will be "bumped" to the next Saturday. A person who wishes to reclaim a book must come to the 
Woman's Club in order to pick up the book. The box will be open at the following hours:
Monday—11:30 to 12:00
Tuesday—11:30 to 12:00

Tareyton delivers the flavor...

DUAL FILTER DOES IT!

Here's one filter cigarette that's really different!

The difference is Tareyton. The Dual Filtration gives you the unique twin filter of SMOOTH CHARCOAL and extra filtration provided to make the taste a gentle mild and smooth. It works together with a pure white outer filter to deliver the Tareyton flavor you enjoy—the best taste of the best tobaccos.
