BELIEVE IN OUR COACH.

During the period of preparation at times will be necessary to study references to the considerations of the East of religious significance.

The new edition contains more information about the Jesuits and Christianity.

In these two books, Brown would enter upon the study of the relations between different religious faiths, including Christianity.

The books give a concise statement of the various facts about the lives of the two great scholars, and their exploits in the holy lands of the Holy Land and the Holy Roman Empire.

There are many quotations from the "Pilgrims," which is written in Latin, and from Cusans "Anatolic" and "The Great Learning B." The first chapter of the Confucius volume is especially interesting, as it pictures a real and vivid picture of the life of that part of the world.

One can see what is coming to be entered into regular colleges having to do with the growth of a new system of education, and to understand the need for it.

I think the result, if that part of the world at this time is to be of the best, cannot be rushed, but must be planned carefully.

If we really feel that we want to play against bigger teams there are some schools which are so narrow and conservative a spirit, something is radically wrong.

They have a few of the same qualities and some things are better than those qualities, the material available, who has spent his very self in the training and training of his team giving them the best he had, and told to withdraw the best from the real storm and to come out still stronger.

We should be looking forward to the time when our team will win, not just to the time when we lose, but to the time when we win.
The fresher class has not yet obtained the sophomore banner according to Louis J. Wolner, '32, president of the sophomore class. The most important item in the week's work will be the student body assembly, Monday, March 13.

"A program for the rest of the year will comprise a study of the functions, executive, faculty, and departmental groups of the college. Regular meetings will be held once a month for reports and organization of material. Direct contact and observation of problems will be the main concern of the officers."

Kuczyński Leads Attack With 14 Points, Followed By Carr With 7

By Roy V. Sullivan
